About Us

Mission

“To provide compassionate, comprehensive health services to all Palm Beach County residents, through collaboration and partnerships, in a culturally sensitive environment.”

The C. L. Brumback Primary Care Clinics welcome all patients regardless of their ability to pay. As Federally Qualified Health Centers, the clinics are located in medically underserved areas throughout Palm Beach County. Our team is committed to expanding access to quality care. The goal is for patients to make the Brumback Clinics their medical home for primary care, dental services, behavioral health, pharmacy services, women's health and Medication Assisted Treatment for those dealing with substance use. The Brumback Clinics are the largest provider of primary care services to low-income residents in Palm Beach

County, including the uninsured, agricultural workers, and those experiencing homelessness. Our medical team at the clinics and on board our three mobile units played a key role in the county's pandemic response by providing COVID-19 testing and vaccinations for the community.

History

In June of 2013, the Health Care District of Palm Beach County began providing primary health care services to adults and children at the C. L. Brumback Primary Care Clinics. Through a grant awarded to the Health Care District in December 2012 by the United States Health Resources and Services Administration (HRSA), the District is managing and operating the C. L. Brumback Primary Care Clinics as Federally Qualified Health Centers.

The C.L. Brumback Primary Care Clinics are named in honor of their founder, the late Dr. Clarence L. “Carl” Brumback. Dr. Brumback served as Palm Beach County’s first Health Department Director beginning in 1950.

Dr. Brumback also introduced many other initiatives, such as Healthy Mothers, Healthy Babies, establishing prenatal care for all pregnant women. The pen that President Johnson used to sign The Migrant Farmworker Health Act into federal law was given to Dr. Brumback in honor of his strenuous patient advocacy.

The Health Care District dedicates its Primary Care Clinics to honor Dr. Brumback’s legacy as a champion of improving the health and wellness of all people in Palm Beach County.
