

Exhibit D - List of Utility systems to be surveyed

Architecture

- Life Safety verification of CEP, Roof and main HVAC Spaces
- Validation of Rated walls and penetration (limited to main supply and return ducts)
- Validation of means of egress
- ICRA/AHCA Coordination
- Project Management/Administration

HVAC:

- Air Handlers (AHU's)
- BAS System.
- Chilled Water Pumping System.
- Chiller Plant including Chillers and Cooling Towers.
- Hot Water System including Boilers, Pumps and Hot Water Heaters.
- Operating Rooms Humidity.

Electrical:

- Automatic Transfer Switches (ATS).
- Emergency Generators.
- Main Switchgear/Switchboards.
- Paralleling Switchgear.
- Utility Electrical Service.
- Lightning Protection System.
- Fire Alarm System.
- Operating Rooms Electrical Panels.

Plumbing/Fire Protection:

- Vacuum System.
- Medical Gases.
- Medical Air.
- Tank Farm.
- Fire Protection System/Fire Pump.
- Onsite Fuel Oil System.
- Natural Gas System.
- Domestic and Hot Water System.
- Soil and Waste System.

Excluding (but not limited to):

- Exhaust Fans.
- Supply Fans.
- Re-heat coils.
- Fan Coils.
- Terminal Units (VAV)
- Electrical Panel boards within CEP and Hospital.
- Disconnect Switches.
- Transformers.
- Grounding.
- Lighting.
- Nurse Call.
- Medical Equipment.
- Uninterruptible Power Systems.
