3. Awards, Introductions and Presentations

A. Recognition of Michael Smith, Finance and Audit Committee

Chair Lohmann read the following statement in recognition of Michael Smith's tenure on the Finance and Audit Committee. He began by noting that the Health Care District has been the County's healthcare safety net and responsible steward of tax-payer dollars. For the past 8 years, Michael Smith has dedicated his time and expertise to guiding the Health Care District's Finance Committee to doing just that. I am proud to have served along-side Michael as our healthcare system has expanded access to care through its many diverse programs. This year, as we mark the Health Care District's 30th anniversary, we also recognize Michael for his ideas, leadership and commitment to this public agency's fiduciary health and financial oversight. During his 2 terms on the Finance Committee, the Health Care District has served a growing number of residents while reducing property taxes.

Michael, your tenure was highlighted by many other noteworthy accomplishments. These achievements include the launch of Lakeside Medical Center's Family Medicine Residency Program as well as the District's operation of the CL Brumbach Primary Care Clinics, which served 45, 400 adult and pediatric patients during the last fiscal year. Other milestones include: launching the Medication Assisted Treatment Program to address the county's opioid epidemic; rolling out the Mobile Health Clinic to serve the homeless; working on the Helicopter Replacement Project; expanding pharmacy services; implementing the 340B Program and reducing costs for prescriptions; providing dental, behavioral health and women's health services and so many more. Chair Lohmann thanked him for his time, insight and sound judgement on the Committee. Chairman Lohmann asked Mr. Smith to join him and the other Committee members for a group photo and to present him with a memento of his service on the Finance and Audit Committee.

Mr. Smith stated that it has been a pleasure to serve and that he enjoyed it and learned a lot about the Health Care District. Mr. Smith concluded by offering his services if he is needed for anything in the future.

From: Dawn L. Richards, Chief Financial Officer

Date: January 9, 2019

Subject: Management Discussion and Analysis of December 2018 Health Care District Financial Statements

The December statements represent the financial performance for the three months of the 2019 fiscal year for the Health Care District. Included below are explanations of volume, revenue and expense variances.

Net Margin by Fund

17

| Net Margin by Fund | | | | | Prior Year |
|-------------------------|---------------|---------------|------------|--------------|---------------|
| | Actual | Budget | Variance | Prior Year | Variance |
| General Fund | \$ 80,538,619 | \$ 80,054,647 | \$ 483,973 | \$ 7,469,097 | \$ 73,069,522 |
| Healey Center | (384,572) | (691,786) | 307,214 | (647,235) | 262,663 |
| Lakeside Medical Center | (6,439,970) | (6,447,563) | 7,593 | (5,038,924) | (1,401,046) |

- Suboxone clinic visits of 872 were above budget of 824 by 48 or 5.8% and above prior year of 684 by 188 or 27.5%.
- Mobile van visits of 544 were above budget of 520 by 24 or 4.6%.

Revenue Analysis

General Fund

Total revenue in the General Fund YTD of \$109.5M was below budget of \$111.1M by \$1.6M or 1.5% and above prior year of \$36.0M by \$73.6M or 205.1%. Negative revenue variances are in ad valorem taxes (\$2.7M), patient revenue (\$133k), and grants (\$32k). Negative ad valorem taxes of (\$2.7M) was primarily a result of less county residents taking advantage of tax discount resulting in less ad valorem tax revenue. Aeromed YTD net patient revenue of \$667k was below budget of \$800k by \$133k or 16.6% due to increased bad debt in self pay as well as reduced volume. Pharmacy Ryan White grant of \$24k was below budget of \$56k by \$32k or 56.7% and above prior year of \$20k by \$5k or 23.0%.

Healey Center

- Gross revenue of \$3.29M was in line with budget with a slight variance of \$6k or 0.2% and below prior year of \$3.3M by \$34k or 1.0%.
- Net patient revenue of \$2.5M was over budget of \$2.4M by \$83k or 3.5% and above prior year of \$2.2M by \$314k or 14.4%.
- Charity care was over budget by \$75k or 9.1%.

Collection percentage of 75.85% exceeded budget of 73.18% due to an increase in Medicaid per diem rate.

Lakeside Medical Center

- Lakeside Medical Center YTD gross patient revenue of \$33.0M was above budget of \$32.6M by \$384k or 1.2% and above prior year of \$32.1M by \$956k or 3.0%. Although Adjusted Patient Days (APD) were down by 383 YTD resulting in a \$2.7M negative volume variance, the gross revenue per Adjusted Patient Day was higher than budgeted, creating a positive rate variance of \$3.1M.
- Net patient revenue YTD of \$6.9M was below budget of \$7.1M by \$244k or 3.4% and above prior year of \$6.4M by \$492k or 7.7%. The major factor affecting net revenue was charity care in December, which exceeded budget by \$216k.

Primary Care Clinics

- Medical Clinic gross patient revenue YTD of \$4.5M was below budget of \$4.6M by \$75k or 1.6% and above prior year of \$4.3M by \$220k or 5.1%.
- Medical Clinic net patient revenue YTD of \$1.9M was above budget of \$1.7M by \$194k or 11.2% and below prior year of \$2.3M by \$409k or 17.5%.
- Medical Clinic net patient revenue per visit YTD was \$78.6 compared to budget of \$69.2 and prior year of \$95.0.
- Dental Clinic gross patient revenue of \$926k was below budget of \$1.0M by \$77k or 7.7% and below prior year of \$973k by \$47k or 4.9%.
- Dental Clinic net patient revenue of \$564k was below budget of \$551 by \$13k or 2.3% and below prior year of \$957k by \$393k or 41.1%.
- Dental Clinic net patient revenue per visit was \$86.6 compared to budget of \$84.6 and prior year of \$115.4.
- Grant revenue of \$1.9M was below budget of \$2.3M by \$393k or 17.4% and above prior year of \$1.8M by \$109k or 6.2%. This is
 due to the delayed relocation of the Belle Glade clinic to Lakeside Medical Center, the clinics were unable to recognize HRSA grant
 funding for construction at the site.
- Other revenue of \$38k is below budget of \$47k by \$9k or 19.4% due to less than anticipated EHR incentive.

Expenses Analysis

General Fund

Total YTD operating expenses of \$31.6M were below budget of \$34.2M by \$2.6M or 7.5% and above prior year of \$30.8M by \$739k or 2.4%. Notable favorable variances includes sponsored programs (\$766k), purchased services (\$663k), salaries and wages (\$389k), other expense (\$245k), repairs and maintenance (\$237k), drugs (\$212), and benefits (\$210k). Sponsored programs grant will be funded starting January 2019. Salaries and wages as well as benefits are positive to budget due to unfilled budgeted positions. Purchased services as well as repair mainenance will realize savings until system upgrades are implemented later in the fiscal year.

Healey Center

Total operating expenses YTD of \$4.5M were above budget of \$4.6M by \$74k or 1.6% and above prior year of \$4.3M by \$179k or 4.1%. Notable favorable variances are in repairs and maintenance (\$22k), benefits (\$16k) and purchased services (\$14k). Notable unfavorable variance in other supplies (\$7k) due to the timing of purchase for patient supplies.

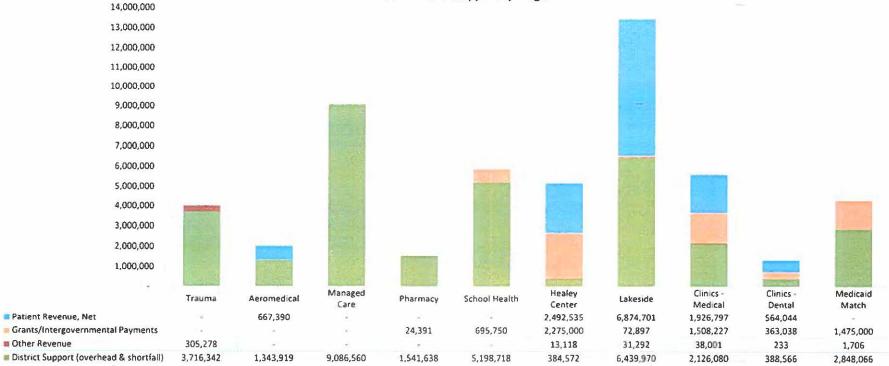

Lakeside Medical Center

Lakeside operating expenses YTD of \$11.5M were below budget of \$11.4M by \$53k or .5% and above prior year of \$9.7M by \$1.8M or 19.0%. Significant favorable variances are salaries and wages (\$220k), benefits (\$63k), utilities (\$58k), drugs (\$51k), and other supplies (\$49k). An unfavorable variance of \$496k in contracted physician expense is due to continuing Locums Tenens services.

Primary Care Clinics

- Medical Clinic operating expenses of \$4.8M were below budget of \$5.1M by \$202k or 4.0% and above prior year \$4.3M by \$410k or 9.4%. Notable favorable variances are in benefits (\$118k), other supplies (\$47k), and other expense (\$41k).
- Dental Clinic operating expenses of \$1.1M were below budget of \$1.2M by \$83k or 7.0% and above prior year of \$1.0M by \$64k or 6.2%. Most of this positive variance relates to medical supplies (\$25k), other supplies (\$16k), benefits (\$15k), and purchased services (\$11k).

HEALTH CARE DISTRICT FINANCE AND AUDIT COMMITTEE January 29, 2019

1. Item Description: District Cares Changes

2. Summary:

This agenda item presents the Board with an update on the changes to District Cares.

3. Substantive Analysis:

During the July 2018 Strategic Planning Meeting, the Board received an update on early details of the District Cares new outsourced behavioral health benefit. Additionally, upcoming changes planned for District Cares were presented. The changes, both benefit and administrative, came as a result of lengthy internal and external reviews of the program. Opportunities were also identified to leverage partnerships that would add expertise and access to new decision-support data analytics while avoiding the cost of a new claims administration system. The approved FY2019 budget included \$3,000,000 for behavioral health and \$1,800,000 for professional fees for new system administration support.

Behavioral Health

The District is working with Community Care Plan, a taxing district owned third party administrator in Broward County for our behavioral health benefit. Community Care Plan will administer the District Cares behavioral health benefit including claims payment, authorization processing, and reporting. The new benefit will include unlimited outpatient services, primarily at the CL Brumback Primary Care Clinics, as well as inpatient psychiatric, addiction stabilization, and other behavioral health services at the JFK and JFK North hospitals. CL Brumback's Medically Assisted Treatment clinic is also being re-located to the JFK North Campus to help bring together a continuum of care in a centralized location.

Benefits and Membership

Staff has been reviewing and assessing all aspects of District Cares. Benefit and membership changes are in the process of being implemented. New benefit and membership changes strive to cover more Palm Beach County residents in need of the District's services while balancing the District's financial risk. Benefit limitation and additional authorization requirements will help to control utilization and better manage the care of our patients. Once fully implemented, the Clinic providers will control all specialist referrals maximizing their ability to manage patients.

Membership criteria has been updated so that anyone who has lived in Palm Beach County for at least 6 months (or declares the intent to stay), has income below 100% of the Federal Poverty level, and who is a current patient of the CL Brumback

Primary Care Clinics, will be able to receive District Cares benefits. The reduced documentation requirements focusing on any patient who lives in Palm Beach County along with the income criteria that fills the gap between qualifying for Medicaid and qualifying for subsidies on the exchange, will enable the District to cover more Palm Beach County residents and enable the Clinics to better care for more of their low-income patients with access to specialist care.

1. Description: Belle Glade Primary Care Clinic Construction

2. Summary:

The agenda item presents the budget overage of the Belle Glade Primary Care and Dental Clinic construction project.

3. Substantive Analysis:

The Primary Care Clinic budgeted \$1,079,900 to complete the construction project for the relocation of its Belle Glade medical and dental clinics to the Lakeside Medical Center facility. The Guaranteed Maximum Price presented by the General Contractor is \$1,380,865.24 exceeding the budgeted amount by \$300,965.24. This includes a \$100,000 contingency, which may not be utilized. HRSA funding for this project will be up to 88% of \$1,000,000 or \$880,000.

- Test whether established controls related to the Health Resources and Services Administration's (HRSA) 340B guidelines and regulations were functioning as Management intended.
- Test processes in place to comply with HRSA's 340B guidelines and regulations.

SCOPE

A sampling approach (similar to what we've experienced during recent HRSA/The Bizzell Group audits) was utilized to test 340B qualified prescriptions for expected compliance elements. Policies and Procedures, internal operations and monitoring strategy were also tested.

ISSUE 1: Diversion Risk – Incomplete Referral Documentation

WHAT IS CAUSING THE ISSUE?

Policies and Procedures: Documentation does not exist for referral prescriptions.

WHAT IS EXPECTED?

Per the HCDPBC 340B Policy, in order to qualify for 340B, prescriptions written by referred providers must include "a referral on file in the EMR with supporting documentation returned from the specialist, such as an office visit summary or other appropriate medical records."

3 WHAT ARE THE FINDINGS?

Crowe identified 2 of 50 prescriptions that were written by a referred provider, but required documentation to support the referral was not included within the EMR. Therefore, it could not be determined that HCDPBC maintained responsibility of care.

ISSUE RISK

Moderate Risk

WHAT BUSINESS OBJECTIVES ARE AT RISK?

Maintain and monitor compliance with 340B program requirements.

WHAT ACTIONS WILL MANAGEMENT TAKE?

Management will follow the referral procedures as documented within the 340B policy and procedure.

ISSUE 2: Incomplete Documentation

WHAT IS CAUSING THE ISSUE?

Training: Prescriptions written are not always documented within the EMR.

WHAT IS EXPECTED?

76

The covered entity must maintain appropriate documentation to confirm 340B-qualified prescriptions meet all eligibility requirements.

WHAT ARE THE FINDINGS?

Crowe identified 2 of 50 prescriptions that were not documented in the EMR. The locations where the prescriptions were written were confirmed to be eligible facilities, but a lack of support within the EMR brings about increased risk of non-compliance with 340B requirements.

ISSUE 3: Lack of Monitoring Documentation

WHAT IS CAUSING THE ISSUE?

Reporting: Documentation to support 340B self-monitoring activities is not retained.

WHAT IS EXPECTED?

1

Covered entities must ensure program integrity and maintain accurate records documenting compliance with all 340B Program requirements. A robust monitoring program is essential to achieving this objective.

WHAT ARE THE FINDINGS?

Crowe noted that while monthly audits are performed, supporting documentation to evidence the self-audit process and any subsequent issue resolutions is not retained.

ISSUE 4: Policy Enhancements Opportunities

WHAT IS CAUSING THE ISSUE?

Policies and Procedures: Formal written direction to align organization behavior with objectives was missing or inadequate.

WHAT IS EXPECTED?

Covered entity 340B policies include all program components that align with HRSA's expectations and are presented in a consistent, organized manner.

WHAT ARE THE FINDINGS?

Health Care District of Palm Beach County's policy was unclear or excluded key program details that HRSA expects to be present. Areas noted for enhancement include:

CONTEXT

80

3

The 340B Drug Pricing Program is a federal program created to permit covered entities to stretch scarce Federal resources as far as possible, reaching more eligible patients and providing more comprehensive services. The program requires drug manufacturers to provide outpatient drugs to eligible health care centers, clinics, and hospitals (termed "covered entities") at a reduced price.

HRSA has increased its scrutiny over covered entity compliance with 340B regulations since the start of periodic audits in 2012. This has resulted in an increase in the number of covered entity audits performed, and corresponding audit findings. In 2016, HRSA outsourced their audit fieldwork to The Bizzell Group. The Bizzell Group appears to consist of more seasoned pharmacy professionals with prior experience in 340B program management and oversight resulting in a more sophisticated audit approach. Failure to comply with 340B requirements may result in sanctions, including repayments to pharmaceutical manufacturers or even removal from the program entirely.

Due to increased scrutiny and the potential financial impact, HCDPBC has contracted with Crowe to perform an independent audit.

OTHER OBSERVATIONS

1. <u>Negative Inventory Balances</u> - Excel inventory reports used to accumulate dispensations and reorder 340B drugs show negative balances when accumulation is available for 340B purchasing, which could be perceived that overpurchasing has occurred. Management noted that as of December 3, 2018, they will no longer be filling non-340B prescriptions in-house so negative balances will not appear on the spreadsheet subsequent to the December 3rd date.

ISSUE RISK DEFINITIONS

In determining whether the issue risk was High, Moderate or Low, Crowe Healthcare Risk Consulting LLC considered a variety of factors, including the following, as applicable: significance of potential financial losses; risks to achieving business objectives; potential impact on care delivery quality; the potential for reputational damage; regulatory impact; and the potential for compromised data integrity. OBJECTIVES

- Validated formal, written procedures existed to clearly guide staff in performing their required functions for Patient Access and tested whether controls were operating as management intended
- Tested whether controls to comply with Federal/State regulations surrounding the securing and retention of regulatory mandated forms were functioning as Management intended
- Assessed procedures to identify, monitor, record and correct registration errors. Tested whether Key Performance Indicators were established and reported to benchmark against industry standards
- Assessed procedures and control activities related to variations and changes in payer plans
- Tested whether processes were in place to maximize collection of the patient's financial responsibility at the point of service and assessed procedures to determine correct payment amount
- Assessed procedures in place to monitor and evaluate the effectiveness of external vendors which support Patient Access functions

SCOPE

84

Patient Access processes and controls over scheduling, registration and insurance verification at the Lakeside Medical Center (LMC), CL Brumback Primary Care Clinics (Medical and Dental), Healey Rehabilitation Center, Aeromedical and the Trauma Agency System.

Location: Lakeside Medical Center (LMC), CL Brumback Primary Care Clinics (Medical and Dental), Healey Rehabilitation Center, Aeromedical and the Trauma Agency System

Time Period: As of October 1, 2017

CONCLUSION

Although control activities over the patient access and registration functions such as scheduling, registration and insurance verification appear adequate, the District is exposed to potential regulatory risks if excluded provider screening is not performed on outside physicians who submit referral orders for their patients at LMC. Also, the District can enhance controls over patient access objectives, such as required documents and signatures collected through the registration functions by conducting performance audits, monitoring and developing a registration checklist at the Clinics and Healey.

Finally, management can make sure patient access services from external vendors are effective and in line with organizational goals and objectives by implementing and monitoring performance metrics over the Qualified Medicare Beneficiary services at LMC.

Scope Exclusions: Crowe limited the scope of work at the Trauma Agency System to assessing established procedures in place over the Patient Access Insurance Verification process, to avoid duplicating the work of an external consultant. Management recently contracted with a healthcare consultant to perform an analytical review and provide recommendations for improvement at the Trauma Agency System.

ISSUE 1: LMC Patient Scheduling-Sanction Screening for ISSUE RISK Referring Physicians Not Performed Timely

WHAT IS CAUSING THE ISSUE?

Procedures: The District lacks a procedure addressing sanction screening of new referring physicians.

WHAT IS EXPECTED?

The Department of Health and Human Services Office of Inspector General (OIG) mandates that sanction screening be performed on all individuals employed or contracted with to furnish items and/or services (directly or indirectly) that are payable by Federal health care programs. An excluded person may not provide services that are payable by Federal health care programs, regardless of whether the person is an employee, a contractor or a volunteer, or has any other relationship with the health care provider.

Health care providers who receive payments under Federal health care programs may employ or contract with excluded persons, so long as any of the items or services provided are wholly unrelated to Federal healthcare programs. OIG guidance indicates that excluded provider screening should include referring physicians who provide orders or prescribe services which are billed by a hospital to a Federal health care program. Therefore, it is considered best practice to screen referring physicians who order services that are included in any claims or costs submitted for payment by a Federally financed health care program.

WHAT ARE THE FINDINGS?

The District's Compliance Department conducts sanction screening on referring physicians annually, as part of their Annual Compliance Screening procedures, but the District did not establish procedures for excluded provider screening of physicians added to the LMC accounting system between the annual screenings.

Moderate Risk

WHAT BUSINESS OBJECTIVES ARE AT RISK?

Conduct operations in compliance with Federal/State regulations surrounding OIG, HIPAA, MSP, ABN, IMM and NPP

WHAT ACTIONS WILL MANAGEMENT TAKE?

Management implemented procedures to perform sanction screening for all non-affiliated physicians currently in HMS that did not have a screening completed.

New referring physicians are screened by the Patient Access department at the point of service, prior to providing service and added to an Excel file. The Manager of Admitting submits the list annually to the Compliance Department to include in the District's Annual Compliance Screening process.

ISSUE 2: The Clinics and Healey Lack A Quality Assurance Process to Improve Patient Access Activities

WHAT IS CAUSING THE ISSUE?

Procedures: No procedures exist to monitor overall effectiveness of patient access/registration processes.

WHAT IS EXPECTED?

Procedures exist to monitor the accuracy and effectiveness of registration processes. It is a best practice for Skilled Nursing Facilities (SNF) to audit all resident accounts to ensure all required admissions paperwork was obtained and signed by the resident and/or family.

WHAT ARE THE FINDINGS?

8

There were no procedures in place at the Clinics to monitor and manage the effectiveness and accuracy of front-end patient access activities. There were no quality performance audits performed or process monitoring procedures to ensure the registration of patients is aligned with organizational objectives and regulatory requirements.

A Quality Assurance Performance Improvement audit over the Admission Agreement provided to residents was performed annually at Healey for all admissions, but this audit did not include evidence of the significant processes, key forms and documents reviewed.

Crowe noted a quality assurance process was maintained at LMC. Procedures in place allowed LMC to review, identify and correct registration errors and report on various key performance indicators (KPI's) around patient access goals.

The audit will be conducted every six months.

ISSUE 3: Vendor Contract Lacks Performance Metrics

WHAT IS CAUSING THE ISSUE?

Procedures: Management did not implement solutions to monitor effectiveness of Qualified Medicare Beneficiary (QMB) certification services.

WHAT IS EXPECTED?

Monitor and manage service agreements with external vendors in a manner that promotes acceptable, timely performance in accordance with contract terms. Services provided under the agreement should include measurable performance standards that address organizational goals and objectives.

WHAT ARE THE FINDINGS?

LMC contracted with an outside service provider to assist Medicare patients with no secondary coverage with completing an application for the QMB program. LMC pays \$150 for every approved application referred for QMB certification services. The service provider sends LMC a listing of approved patients under the program. Crowe noted the agreement does not include performance metrics which would allow LMC to assess the effectiveness of the services provided under this agreement.

ISSUE RISK

WHAT BUSINESS OBJECTIVES ARE AT RISK?

Metrics, KPI's and management reports are accurate and achieve objectives and goals

WHAT ACTIONS WILL MANAGEMENT TAKE?

The service agreement was effective 06/30/2019 October 2018. The medical services Tabatha McCallister - Manager of provided to patients who are qualified are not billable and LMC can only benefit from the patient's eligibility if they return for future service. Management will need sufficient data to analyze and develop appropriate goals and benchmarks.

Once sufficient historical data is established management will analyze how many patients have been qualified on a monthly basis and how many have returned for medical service and implement relevant KPI's/ metrics to assess the overall benefit and effectiveness of the QMB certification program. The established metrics will be reviewed quarterly.

ISSUE 4: No Monitoring of Point of Service Collections at Clinics

WHAT IS CAUSING THE ISSUE?

Procedures: No procedures in place to monitor performance of patient liability collections at point of service

WHAT IS EXPECTED?

The Athena system provides the capability to report collection rates at time of service for each clinic. Reporting and procedures implemented to monitor and manage collection of patient responsibility helps maximize collections at the point of service.

WHAT ARE THE FINDINGS?

38

Procedures to monitor and maximize collections of patient responsibility at the point of service were not in place for the Clinics. Although federal healthcare rules prevent a Federally Qualified Health Center, such as the Primary Care Clinics, from denying service for inability to pay, there is no process to enhance collection when the patient liability portion is determined at the point of service.

ISSUE RISK

Low Risk

WHAT BUSINESS OBJECTIVES ARE AT RISK?

Conduct pre-registration activities to maximize collections through verification of insurance and collection of co-pays, deductibles, deposits and prior account balances

WHAT ACTIONS WILL MANAGEMENT TAKE?

Some services offered by the Clinics, such as adult immunizations, are optional and require payment prior to the service being provided. Management will develop appropriate reporting tools from Athena and implement procedures to monitor collection activities and evaluate the performance of each clinic collection representative and compare actual collections to expected collections at the point of service.

Additionally, management will review current procedures around collection activities at the point of service and implement enhancements to the process. Improvements will be made around the collection scripting provided to front-end personnel and reports that communicate staff performance at the point of service, in conjunction with practice managers, collection representatives and frontline coordinators.

03/31/2019 Terry Megiveron - Director, Practice Operations

Date: December 07, 2018 Location: Health Care District of Palm Beach County

CONTEXT

Effective controls over the patient access process is a top risk to healthcare providers. Registration errors and ineffective front-end processes around patient access can slow claim processing/payment and create time consuming re-work for staff. Proper monitoring, continuous improvement and effective controls over scheduling, registration and insurance verification prevent issues in billing and collections, patient and physician satisfaction and access to care. This audit was performed in response to concerns noted with patient registration such as not collecting correct information, verifying and obtaining authorization.

1. Description: Audit Plan 2018/2019 Status Update

2. Summary:

Provide a status update of the FY 2018/2019 Audit Plan and Follow-up of Management Action Plan items for completed audits.

3. Substantive Analysis:

Since the 11/27/18 Committee meeting, 2 audits have been completed. The FY 2018/2019 Audit Plan includes 12 audits. Crowe has completed 7 audits. There are 4 audits in the reporting phase, and 1 in field work.

Internal controls are strengthened when action plans for issues are implemented. Crowe discusses all issues with process owners during the course of each project. Management is responsible for formulating corresponding action plans to correct identified internal control deficiencies. Crowe validates resolution of issues by testing completion of action plans with Management on a monthly basis through our follow-up process. It is Management's responsibility to continue to maintain the controls necessary to mitigate risk. Additionally, Crowe reports the status of outstanding issues to Management, bimonthly.

| AR Allowance | Gaps Exist in the Written Procedures Over Allowance Calculations | Procedures Are Currently Being Updated | Management will update written procedures. Each business unit operates differently and provides distinct services. Written procedures will be consistent across business units where possible, but will reflect the operating environment of each entity. | 11/30/2018 | | OWNERS Dawn Richards | COMMENTS |
| | | | Management is currently revising existing procedures and will look to include the necessary components and provisions related to the allowance process, where appropriate. | | | | |
| AR Allowance | Aeromed Allowance Estimate Not Based On Sufficient Data | Revise Aeromed Allowance Calculation | The Aeromed department converted its patient accounting system in April 2018 from TriTech to Golden Hour. Due to system limitations in the old system, Management was unable to obtain sufficient data which includes substantial patient volume to estimate an adequate allowance percentage. Management will recalculate the reserve factor utilizing sufficient data covering at least six months of patient service activity in the Golden Hour system once this historical data is available and will review allowance percentages every six months following the initial calculation. | 4/30/2019 | | Marcia Young | |
| Gift Shop | Business Liability Insurance for Gift Shop Could Not Be Confirmed | Business Insurance Coverage | Discussion was held with key Auxiliary personnel. They are aware that the gift shop and its personnel are not covered under the District's insurance policy. The District will be providing the Auxiliary Management Team with a sub-lease agreement that will contain standard insurance provisions. | 10/31/2018 | 2/28/2019 | Stephanie Dardanello | and the second second |
| Gift Shop ග | The Medical Center Lacks a Formal Contract/Lease Agreement and Policies With the Auxiliary | Provide Formal Lease Agreement | Key Auxiliary personnel have asked for a proposed lease agreement. The sub-lease agreement will be presented to the Auxiliary and finalized accordingly. | 10/31/2018 | 2/28/2019 | Stephanle Dardanello | |
| lift Shop | Auxiliary May Not Be In Compliance with IRS Reporting Requirements | Auxiliary Consulting with Professionals | Discussion held with key Auxiliary personnel. They understand the findings and are currently in discussions with an Accountant to file the necessary returns and comply with IRS regulations and federal laws. | 12/31/2018 | 2/28/2019 | Stephanie Dardanello | |
| Medical Device Security Assessment | Medical Device Roles and Responsibilities Not Formalized | Assess Medical Device threats, risks, and controls | The Director of Operations will update the existing Medical Equipment Management plan to include roles and responsibilities from all departments that touch medical devices including IT, Clinical Engineering, Procurement, and Clinical Departments. | 3/29/2019 | | Dennis Dzurovski | |
| Medical Device Security Assessment | IT Risk Assessment did not Include Medical Devices | Establish Medical Device Governance Committee | IT Management will direct with the external vendor who completes the FY2019 IT Risk Assessment to include medical device threats, risks, and controls. | 11/30/2019 | | Cindy Yarbrough | |
| Medical Device Security Assessment | Medical Devices are Not on a Separate Network Segment | Reporting | IT Management has contracted with CDW Government, Inc. to transform the HCDPBC network from a legacy flat design to a segmented design. The project will include a separate segment to place medical devices. | 3/31/2020 | | Cindy Yarbrough | |
| Medical Device Security Assessment | Medical Device Inventory Adjustments are Not Reported to HCDPBC Management | | HCDPBC management will request Crothall Healthcare to provide quarterly medical device inventory adjustments. | 3/29/2019 | | Dennis Dzurovski | |
| Aedical Device Security Assessment | Security-Related Medical Device Attributes Are Not Maintained | Device Network Segment | IT Management will define security-related medical device attributes to track and maintain on a centralized inventory of connected medical devices through input from IT security review forms and a complete review and documentation of existing connected medical devices. | 10/31/2019 | | Cindy Yarbrough | |
| Medical Device Security Assessment | IT and Clinical Engineering Do Not Have Oversight Over Biomedical Device Purchases | Track Medical Device Security-Related Attributes | HCDPBC management will require all connected medical device purchases to be analyzed and approved by the IT Department. This control will be formalized through a policy/procedure update. | 3/29/2019 | | Dennis Dzurovski | |
| 340B Discount Program | Policies and Procedures: Formal written direction to align organization behavior with objectives was missing or inadequate. | Maintain and monitor | Management will update policy with enhancements noted in order to convey accurate operations of the 340B program. | 12/31/2018 | 2/28/2018 | Hyla Fritsch | |

1. Description: FY 2019/2020 Audit Plan and Risk Assessment

2. Summary:

Provide the FY 2019/2020 Audit Plan and Risk Assessment.

3. Substantive Analysis:

Crowe Healthcare Risk Consulting's (Crowe) approach to performing risk assessments and developing the proposed Audit Plan is a robust and multidisciplinary process, involving collaboration with multiple levels of management. This process requires indepth consideration of risks facing the organization, as well as the most efficient and effective use of resources. In developing the Proposed Audit Plan, Crowe considers known risks, along with Management's strategic objectives, to focus the Audit Plan on areas most relevant to the organization. Crowe and Management have discussed risks facing the organization and recommend the FY 2019 Audit Plan for approval.

Crowe and Management acknowledge it is not feasible for Internal Audit to identify and audit every risk for a multitude of reasons. These include, but are not limited to, risk areas under review by others, processes already under improvement initiatives, on-going restructurings and risks not deemed as significant as others at the initial development of the Audit Plan. Crowe recognizes the dynamic and evolutionary nature of the Healthcare District and the healthcare industry. As a result, Crowe and Management will continually assess changes in the environment and emerging risks, recommending adjustments to the Audit Plan throughout the year, as necessary, with a total of 8 audits and 4 projects in FY 2019/2020.

Risk Assessment Approach

- From November through mid December 2018, Crowe Healthcare Risk Consulting (Crowe) compiled and assessed risk areas for reporting to Executive Management and Governance and to highlight key risk areas to potentially include in an Internal Audit Work Plan. The process included gaining an understanding of:
 - Key strategic objectives
 - Environmental and/or emerging industry trends
 - Organization and operating environment
 - Management accountability (control environment)
 - o Legal and regulatory climate
- To achieve the above, Crowe:
 - o Assigned a multi-disciplined specialist team.
 - Obtained District documents, including strategic plan, annual compliance work plan, prior year risk assessment, financial statements, among other key documents.
 - o Interviewed key Executives and the Audit and Compliance Committee Chair.

Risk Ranking Example

Crowe's risk assessment and risk ranking methodology evaluates each risk based on five factors with scoring at specific weights as shown in the following example:

| | Strategic or Business Impact (30%) | Business Environment Complexity (15%) | Mgt. Control Environment, Historical Performance (25%) | Prior Audits, Reviews (15%) | Governance and Mgt. Concern (15%) | Weighted Average |
|---------------------------|--|--|--|-----------------------------------|---|---------------------|

Strategic Imperatives of the District

As part of the risk assessment, Crowe reviewed the strategic plan of the organization. Each interview consisted of time spent discussing risk relative to the strategic plan, and each risk is aligned with factors that could prevent the organization from achieving its objectives.

The District four strategic focus areas:

- Find our "True North" Determining our direction in the community is driven by our role as the health care safety net
- Stay in our lane Focus on the services offered and let others deliver what we cannot or do not provide
- Safe riding, hard racing Save taxpayer dollars
- Quality and value is remembered long after price is forgotten Be cost effective and resourceful to accomplish the mission

Healthcare Industry and District Specific Risk Indicators

- Pace of organizational changes
- Continued confidence in direction of management and culture
- Focus on core operations increased concentration in quality, with an openness to exploring new ways of delivering services to the community
- Shift in population health strategies
- Regulatory enforcement initiatives (e.g. OIG Work Plan)
- Significant investment in new technology (now and continuing)
- Considerations on reimbursement and uncertainty in environment

Top Risks – Finance & Revenue Cycle

| Risk Area | Rationale |
|--|---|
| Revenue Cycle – Billing and Collections (On plan) | Given that processes and systems in place are manual, there could be control gaps which could be addressed through an external review and consideration of leading practices. |
| Charity Care and Appropriate Classification | Gross Accounts Receivable monitoring could be enhanced to better trouble shoot issues. Appropriate classification of uncompensated care is an important component of cost reporting, which has downstream impacts. The reporting accuracy starts with appropriate classification of status at the front end. |
| Denials Management / Expected Reimbursement (On plan) | Denial rates are not high but increasing. Lack of visibility if denial related write-offs are charged to contractual adjustments. Denials Management processes represent a high risk across the healthcare industry. Enhanced controls and processes can have positive financial impact. |
| Medicaid Wrap (On plan) | Medicaid premium assistance programs require filing of a complex data set, inclusive of capitated payments received, total fee for service payments received, other payments, total Medicaid visits, Medicaid members seen and assigned. Errors in Payments and other pertinent data collected for the Medicaid Wrap program could cause incorrect o inappropriate calculations and/or filing for the Medicaid Wrap incentive. |
| Billing/ Collections with Palm Beach County Department of Health | Given complexities in the specific transactions between the Healthcare District and the county Department of Health, an independent assessment of the billing and collections might be warranted to ensure appropriate controls are established and functioning as Management intends. |
| Procurement controls (On plan) | Control activities around vendor set-up that are designed properly and working effective mitigate risks related to purchase authorizations and accounts payable which prevent financial issues for the District. IA performed vendor management / contract audit in prior audit plan. |
| District Care – Medical claims processing | Fairly manual process. Claims management process over District Cares is currently being restructured While claims will be managed, it will be critical to have appropriate oversight of the medical claims process. |

113

Top Risks – Operational

| Risk Area | Rationale |
|---|---|
| Revenue Charge Capture – Med/Surg, Emergency, Central Supply, Clinical Lab, CT Scan, Primary Care, Aeromed | Areas of improvement exist in some of the high dollar, high complexity charge capture areas. Charge capture procedures need to support revenue recognition goals. Challenges may exist despite EHRs and ICD 10. Concerns are accuracy and timeliness. Audit should incorporate data analytics and continue from the FY 18 controls assessment. |
| Pharmacy – Drug Diversion (On plan) | LMC is undergoing a pharmacy controls enhancement process. Given diversion risks and a new control environment, an independent review can assess its effectiveness and provide additional leading practices to impede potential diversions. |
| 340B Compliance | Regulation within the 340B process are complex and changing. Education of regulations can be provided to 340B steering committee to enhance productivity of ongoing meetings. Annual external audit is expected from HRSA. Audit from Crowe 340B could qualify for annual HRSA audit, as well as allow professionals to provide additional education. |
| Human Resources – New employee set up and HR specific roles | Proper controls around role restrictions prevent unauthorized HR approvals, such as pay status, new hires. Properly designed controls can mitigate risks related to creating employees. Control activities around key HR processes should include proper segregation of duties. |
| Facilities Management – Construction Build Out (On plan) | Appropriate procedures supports good maintenance practices over the facilities management function Construction projects can create risks of overpayments and delays. With scope changes experienced to the new build out at LMC for a primary care clinic, a facilities management audit can enhance the overall effectiveness of the construction function for the District. |
| Mobile Van Operations Process (On plan) | As operations progress, it is critical to monitor appropriateness and ensure patient safety and quality is maintained and patient data is captured accurately. |
| Healy – Patient leave | Risk that patients are not appropriately signed out and in when leaving the facility. |

Top Risks – Information Technology

| Risk Area | Rationale |
|--|--|
| Cybersecurity | One of the highest risk areas industry wide and executives express concern. Organization continuously adapts its software and IT needs to increase its security control effectiveness Multiple system interface and physical locations complicates the security landscape Currently working with consultant on cybersecurity matters for FY 19. |
| Biomedical Device Management and Security | High-risk industry wide related to patient safety, HIPAA privacy and network security. Device Management coordinates directly with IT leadership and the new Medical Device Committee The District has implemented network segmentation efforts. Continued review for leading practices and appropriate controls. |
| Mobile Device Usage | Unauthorized mobile device, and other non approved electronic tools used for clinical purposes creates security and privacy exposures. |
| Unencrypted ePHI Transmission | Unencrypted ePHI transmission stored in shared network files creates exposure of security and privacy breaches if an external network intrusion were to intercept an internal transmission of data. Control activities should prevent the unauthorized access of ePHI that is stored on shared drives. |
| End User Education | Lack of end user education on IT Security related to use and associated risks of internal network share drives. Document retention policies should address the storage of stale data by users. Controls around scalability can prevent increases in business documents and stored data over time from becoming unmanageable. |
| Wi-Fi Hotspots | Wi-Fi hotspots pose potential risk for users to gain access. |
| IT Third Party Vendor Contract | Oversight of IT Third Party Vendor contractual terms and conditions may require further monitoring for contractual SLA compliance and HDCPB IT policies and procedures. |
| Role Based Provisioning | Effective control activities and procedures for role-based provisioning & de-provisioning of user access to applications and networks prevent unauthorized access to sensitive data and can mitigate fines and reputational damage to the organization. Provisioning of a formal User Access Management software is in progress. |
| IT Generated Reports 2018 Crowe LLP | Procedures in place should ensure that IT generated revenue reports are complete and accurate to support management reliance on reports. |

Top Risks - Compliance

| Risk Area | Rationale | | | | |
|---|---|--|--|--|--|
| Compliance Effectiveness Assessment (On plan) | A compliance program assessment has not been conducted by an independent source in several years. A compliance program assessment would assess the effectiveness of the compliance program across the organization in consideration of the 7 elements of an appropriate compliance program and consideration of the federal sentencing guidelines. Recommendations for enhancement and leading practices would be provided as a result of this project. | | | | |
| Coding Compliance – Inpatient/ ER/ Category 2 | When coding monitoring procedures are reduced, related risks increase. Higher risk around the billing specialty procedures (properly coded and billed and completely captured). | | | | |
| Physician Compensation and Medical Directorships | Manual time sheets utilized at the hospital for certain physician and/or medical director time reporting, can increase the risk of paying a physician who has not submitted a timesheet. Providing payment to a physician without a log is a compliance violation and a high risk across the healthcare industry. Stark Law risks related to compliance and accounting for Medical Directorships and Physician Recruiting agreements. | | | | |
| Physician FMV | Physician contracts and compensation should be at appropriate levels. Inability to maintain the agreement and monitor relationships to FMV can result in penalties and fines from regulators. The District has various arrangements and utilizes mostly contracted physicians. The District Legal Counsel and Compliance are involved with ongoing reviews. | | | | |
| Patient documentation - Outpatient & clinics | Documentation of patient information can at times be filed within incorrect patient chart when scanned. Patient information and documentation inaccurately filed affects the reliability of the data included in the patient file. | | | | |
| Employee classification (On plan) | Classification between employees vs. contractors, that is not aligned with regulatory rules/requirements can result in penalties and fines. | | | | |

Top Risks - Clinical

| Risk Area | Rationale | | | | |
|--|--|--|--|--|--|
| Quality Measures - LMC | Performance Improvement (PI) process in general has not been assessed by IA. Good foundational controls are important in the individual processes around infection, readmission, LOS, etc. Audit would look at how PI priorities and goals are determined, how quality issues are analyzed for root cause, tracking and monitoring of performance, how accountability for corrective action is assigned and enforced, etc. From there, more specific audits could be performed (either this cycle or future years) around key quality measures where the District might be underperforming. | | | | |
| Quality Improvement – Clinics (On plan) | Clinic operations and quality functions that are not fully centralized and/or standardize can result in process gaps and risk quality improvement objectives. An audit in this area would look at process to collect and aggregate data from the individual clinics for reporting and PI purposes. The concerns surround the process, rather than around specific care delivery problems. | | | | |
| Instrument Sterilization | High risk industry wide Independent audit would assess the level of infection prevention surveillance. Such areas to include in scope could be GI, Radiology, Cardiopulmonary, Dental, etc. | | | | |
| New Contract Physician procedures | High turnover of LMC physicians recently due to change in culture, non-renewal of contracts, etc. Currently have locum tenens in surgery, anesthesiology, radiology; brand new hospitalists. | | | | |
| Workplace violence | Incidents broadly in the workplace have been on the rise. Risk to employee, visitor and patient safety exists given the overall increase in incidents. | | | | |
| Discharge procedures | Adequate assessment procedures can mitigate risks around premature discharge and/or inadequate support following discharge. Procedures should be in place to support efforts that reduce readmission scores. Quality of discharge practices and follow up/programs can impact patient safety. | | | | |
| Payer Quality Incentive Bonuses (On plan) | Payer reporting controls should support incentive bonuses received are accurate and represents the full amount allowable. | | | | |

Observations

As a result of our interviews, we have made the following observations which represent potential areas of improvement or leading practices based on our experiences in the healthcare industry.

- LMC no abduction bands for newborns was raised as a result of our interviews. While matching identification tags are placed on newborn and mother, there are no bands to trigger alarms if a newborn was inappropriately taken. A mitigating factor are locked doors, which have to be released by a security guard, and a
- "code pink" security alert exists which would lock down the Hospital in an event.
- The District should consider incorporating the annual strategic plan into the District's Operational Budget process, which will assist in communicating strategy to key levels of management in the organization.
- Crowe did not observe a denials management committee. Committee would review pervasive denials issues and formulate systemic corrective plans. A mitigating committee exists, a Utilization Review Committee. It should be considered if this is fully performing the functions of a denials management committee.

Next Steps

- Obtain approval for the proposed internal audit plan by the District Leadership
- Obtain approval for the proposed internal audit plan by Finance & Audit Committee.
- Share approved Internal Audit Plan with Leadership and Management after Finance & Audit Committee approval.
- Communicate internal audits with process level Management and Executives over each of the areas selected for 2019/20 internal audit coverage.
 - Confirm timing of internal audit projects approved for 2019/20.
