1. Description: HCD Compliance, Privacy, and Ethics Program Updates and Activities Quarterly Report (FY24 Q4)

2. Summary:

A summary of the Health Care District's ("HCD") Compliance, Privacy, and Ethics Program ("Compliance", "CPE", or "Program") activities since the last meeting is provided. This Report covers FY24 Q4 (July 1 – September 30, 2024).

The Office of Inspector General ("OIG") recommends reporting on a regular basis to the governing body, CEO, and compliance committee(s) regarding the planning, implementing, and monitoring of the Program. This report is intended to provide an update on CPE activities, initiatives, monitoring, statistics, and Work Plan. Heather Bokor, VP / Chief Compliance & Privacy Officer, presents the following:

3. Substantive Analysis: Compliance, Privacy, and Ethics Report

HCD CPE continually assesses HCD and develops the Program to address areas for attention and/or enhancement, in order to ensure that through the Work Plan and other activities, we meet or exceed existing Effective Compliance Program Elements, per OIG, and that we continue to evaluate new guidance for effectiveness.

Key areas since the last report which have had significant or notable work as part of or separate from the FY24 Work Plan include: Analysis of newly issued/updated guidance documents from the OIG and DOJ; Research/Analysis and Issuing guidance to staff; Internal auditing and monitoring/reviews/risk assessments; External audit and monitoring assistance/participation; Policies, Procedures, Forms, and Consents; Cybersecurity/Data Privacy and Privacy incident readiness and response, including policies, audits/assessments, and third-party management; Technology/Data Governance/Artificial Intelligence (AI); Assistance to various Workgroups and Committees; HIPAA/FIPA/FERPA; Contract reviews and payments to physicians/external parties; Documentation, Coding, Billing and Reimbursement, and Medical Necessity; Conflicts of Interest (COI); Investigations; Licensure and accreditation/Survey readiness; Behavioral Health and Baker Act; Employee Health; School Health; Ground and Air Ambulance Guidance and workgroups, Training and Education/Awareness Activities; Regulatory updates/industry enforcement activity; Active participation and responsiveness to HCD staff on inquiries/incidents/needs; Other initiatives to improve compliance and mitigate risk in the organization; and Preparation of planned work for FY25 and future Work Plans.

1. Audit Activity Summary (FY23-24 Work Plan):

In FY23-24 YTD, CPE initiated one hundred and seventy-one (171) total audits, data risk assessments/research, compliance risk assessments, and/or reviews (“reviews”), in accordance with the annual CPE Work Plan. This includes forty-five (45) unique and one-hundred and twenty-six (126) routine reviews. Additionally, CPE addressed other items as per OIG’s Compliance Program Guidance. A breakdown is provided below:

- Of the 171 initiated, 164 have been completed (38 unique, 126 routine).
- Of the 164 completed, 31 were completed since the last report/meeting (7 unique, 24 routine). These are reported in the tables below.
- Of the 24 routine reviews completed, results were mostly favorable (see below).
- Of the 171 initiated, 7 reviews (all unique) are currently in preparation, in process, or pending preliminary/final reports. These have all been transferred to the FY25 Work Plan and are reported as “Open/Transferred” in the tables below. *Note: Items reported at prior meetings may be included in the data, however, are excluded from this report.*

Auditing and Monitoring – Completed (Q4)	
Work Plan Item/Area (Item, Background and Rationale)	Summary (Findings/Recommendations/Action Items)
340B Policies and Procedures Compliance Review <i>Compliance review of HCD’s Policies and Procedures and discussions with HCD key staff to evaluate compliance with 340B Program Requirements and make recommendations as necessary.</i>	Review complete. Results: Partially favorable. Recommended actions. Overall, some opportunities for improvement were identified. 340B policies and procedures are in place for most of the key elements/subject matter identified; However, more specific content should be included to further define specific tasks to ensure consistency and to meet or exceed ongoing Compliance with 340B requirements. HCD Compliance will continue to work with Pharmacy and recommends the Pharmacy Director review/revise the identified policies and procedures.

<p>Privacy and Security Compliance Survey: LMC Hospital-wide Review and Joint Commission (TJC) Tracer(s)</p> <p><i>Onsite audit reviews are conducted to ensure compliance with Privacy and Security Rules (e.g., HIPAA/FIPA) that protect the privacy of Personal Identification Information (PII) and Protected Health Information/electronic PHI (PHI or ePHI). All HCD locations must implement reasonable and appropriate safeguards to maintain the confidentiality, integrity, and availability of patient information. This review was expedited and revised in scope for TJC readiness.</i></p>	<p>Review complete. Results: Partially favorable. Recommended actions.</p> <p>Overall, some opportunities for improvement were identified. Of the controls directly observed and measured, the following areas of opportunities were identified and recommendations made <u>and have since been addressed</u>:</p> <ul style="list-style-type: none"> - Health Information Management (HIM) Department office/employee workstations containing PHI or ePHI visible to the public to install privacy screens or proper window film/covering; - Notice of Privacy Practices ("NPP") posters shall be displayed throughout the facility and current (June 2022); and - Training and Education
<p>Privacy and Security Compliance Survey: Mangonia Community Health Center</p> <p><i>Onsite audit reviews are conducted to ensure compliance with Privacy and Security Rules (e.g., HIPAA/FIPA) that protect the privacy of Personal Identification Information ("PII") and Protected Health Information ("PHI"). All HCD locations must implement reasonable and appropriate safeguards to maintain the confidentiality, integrity, and availability of patient information. This review was expedited and completed in response to an OCR Complaint Letter (closed) where a patient alleged his information was communicated.</i></p>	<p>Review Complete. Results: Partially favorable. Recommended actions.</p> <p>Overall, some opportunities for improvement were identified. Of the controls directly observed and measured, the following areas of opportunities were identified and recommendations made <u>and have since been addressed</u>:</p> <ul style="list-style-type: none"> - All CHC staff members shall wear/display their official identification badges; - All employee workstations shall be locked and secured if unattended; and - Training and Education <p><i>Note: The OCR previously closed this matter with technical assistance.</i></p>

<p>Hospital Emergency Department (ED) Signage Review (LMC) <i>Various governing bodies require that signage is posted in locations likely to be seen by the public in order to inform patients and representatives of various rights, ranging from the Notice of Privacy Practices to the Notice of Non-Discrimination. Evaluation of The Joint Commission ("TJC") standards and state and federal regulations (e.g., Centers for Medicare and Medicaid Services) related to signage and posted notices were also analyzed as part of this review. A walk-through of LMC's ED was performed and Signage/Posted notices were reviewed to determine compliance with placement, vantage point, size, font, language, and other requirements.</i></p>	<p>Review Complete. Results: Unfavorable. Recommended Actions. The audit revealed non-compliance with the requirements for several signs/posted notices in the Emergency Department (ED). Best practices were also noted. The following were identified and require new/revised/replaced/duplicated signage in the Emergency Department, ED Admissions, and ED Registration: EMTALA, Nondiscrimination notice, Hospital Provided Interpreter Notice, Consumer Assistance Notice, Notice of Availability of Hospital Performance Outcome and Financial Data, Patient Bill of Rights, and Notice of Privacy Practices.</p>
<p>Monitoring of External Audits: Recovery Audit Contractors ("RAC") <i>The Centers for Medicare and Medicaid Services (CMS) Recovery Audit Contractors (RAC) conduct complex and automated post-payment reviews. HCD CPE monitors activity and the results to identify trends in findings to minimize the risk of future audit issues.</i></p>	<p>Reviews Complete for FY24. Results: Partially favorable.</p>
<p>External Ambulance Services Invoice Review and Contract Discussions (Memo to File) <i>CPE completed a comprehensive review and reconciliation of all AMR ambulance transport invoices for HCD hospitals to ensure compliance with contract and with regulatory requirements for areas not specified in contract. Additionally, CPE completed a comprehensive review of the contract and provided additional billing/payment guidance on requirements for contract renewal.</i></p>	<p>Reviews Complete for FY24. Results: Partially favorable. Recommended Actions. All transport invoices were reviewed for payment determinations according to the contract along with providing additional items to consider clarifying billing and payment responsibilities if the contract is renewed. Compliance made recommendations to revise the agreement or enter into a new agreement. HCD is in process of addressing contractually. This item is being closed for FY24.</p>

<p>(New) Nursing Student Clearance Reviews (Monthly)</p> <p><i>CPE partners with Clinical Education for nursing student clearance for each college semester. The nursing student clearance reviews consist of ensuring that each student completes the required training and forms prior to coming on site to complete their clinical rotations as part of their curriculum for learning.</i></p> <p><i>[Background/rationale details omitted. Note: These are reported only as monthly items for purposes of volume.]</i></p>	<p>Reviews Complete for July – September 2024.</p> <p>Results: Favorable. Recommended Actions.</p> <p>CPE ensures the following training and forms are completed: Exclusion Screening, Required CPE Training and Standards of Conduct, Signed Confidentiality Data Agreement and Media Release Authorization Form. All student clearance requests were reviewed in regard to Compliance and Privacy forms and education requirements. Recommended a more formalized process be put in place for FY25.</p>
<p>Exclusion Screening Compliance Reviews (Monthly)</p> <p><i>[Background/rationale details omitted. Note: These are reported only as monthly items for purposes of volume.]</i></p>	<p>Reviews Complete for July – September 2024.</p> <p>Results: Favorable.</p> <p>All potential matches were reviewed and resolved. 100% compliance with applicable rules and policy with no exclusions.</p>

<p>Referral Source/Physician Payment Audits (Ongoing) <i>[Background/rationale details omitted. Note: These are reported only as monthly items for purposes of volume.]</i></p>	<p>Reviews Complete for July – September 2024. Results: Favorable. Recommended Actions. All physician and referral source payments routed for approval are reviewed and audited by Compliance, and any issues are corrected prior to payment. <i>Note: Prior recommendations made which require follow-up. Item added to FY25 Work Plan to audit payments made to independent contracted physicians.</i></p>
<p>OIG Work Plan (Monthly) <i>[Background/rationale details omitted. Note: These are reported only as monthly items for purposes of volume.]</i></p>	<p>Reviews Complete for July – September 2024. Results: Favorable. Recommended Actions. The OIG added (12) new review items since the last report, one (1) of which may apply to HCD, Audit of Claim Lines Which Payments Exceeded Charges, which has been added to the FY25 Work Plan.</p>
<p>Auditing and Monitoring – Recently Completed (FY25 Q1)</p>	

<p>Florida Medicaid – Deficit Reduction Act (DRA) of 2005 FY24. <i>The Deficit Reduction Act of 2005 (DRA) requires entities that receive \$5 Million or more in funds from Florida Medicaid to meet certain requirements, including but not limited to training and policies and procedures on their compliance program, whistleblowers/nonretaliation, the False Claims Act, and Fraud, Waste, and Abuse (FWA). Further, some payors require annual attestations and auditing of such entities on these compliance requirements.</i></p>	<p>Annual monitoring complete. Results: Favorable. HCD did not receive a request to provide an annual attestation from any Florida Medicaid/Medicaid MCO for FY23-24. Additionally, HCD CPE confirmed exceeds compliance with the DRA and the Centers for Medicare and Medicaid Services (CMS) requirements in operating its program.</p>
<p>HCD Non-employed Individuals in the workplace: Risk Assessment <i>The purpose of this assessment is to gain a better understanding of any non-employed/non-contracted in various capacities across HCD and to identify areas of possible process improvement. This Risk Assessment was conducted at the request of HCD Leadership.</i></p>	<p>Review Complete. Results: Partially favorable. Recommended Actions. Overall, several opportunities for improvement and consistencies across HCD were identified, HCD would benefit from developing standard processes across HCD for these individuals. In summary, we recommend HCD establish processes and develop written policies and procedures for all types of non-employed individuals to address all findings and recommendations. <i>[Details summarized due to the report being issued in FY25].</i></p>

1. Description: Compliance, Privacy & Ethics Work Plan (FY25–27) and Updated Compliance Program Guidance and Evaluation

2. Summary:

This item presents request for formal approval of the Health Care District's ("HCD") Compliance, Privacy, and Ethics Program ("Compliance", "CPE", or "Program") Work Plan for Fiscal Years 2025 through 2027 (FY25–27). A copy of the Work Plan along with detailed information on the preparation and considerations for its development is being provided. Included in this report are summaries of updated key guidance from the Office of Inspector General ("OIG") through release of its new General Compliance Program Guidance ("GCPGs") and Industry Segment Specific Compliance Program Guidance ("ICPGs"), and the Department of Justice ("DOJ") through its "Updated Guidance on Evaluation of Corporate Compliance Programs", which are significant for the Department's planned work.

3. Substantive Analysis: Work Plan Details

- Approval of the Compliance, Privacy, and Ethics Work Plan for FY25–27 is being requested from the Quality, Patient Safety, and Compliance Committee.
- A copy of the three-year Work Plan is provided (see attached).
- A summary of the Work Plan composition/development is included below.
- The goal for this Work Plan is to continue our efforts to ensure a proactive, risk-based, and effective program – in addition to meeting or exceeding the recommendations described in the U.S. Department of Health and Human Services Office of Inspector General's ("OIG") Compliance Program Guidance on Effectiveness (commonly referred to as the "7 Elements") and new/updated issued guidance.*
- The Work Plan includes all items identified that are standing or not yet completed from FY24 (these items (9%) have been transferred to FY25), in addition to other items that will be added based on internal assessment and to address the OIG's new and existing guidance Elements of an Effective Compliance Program, including the below updated elements:
 1. Written Policies and Procedures;
 2. Compliance Leadership and Oversight;
 3. Training and Education;
 4. Effective Lines of Communication with the Compliance Officer and Disclosure Programs;

5. Enforcing Standards: Consequences and Incentives;
6. Risk Assessment, Auditing and Monitoring; and
7. Responding to Detected Offenses and Developing Corrective Actions.

- The following were considered and included in the development of the Work Plan:
 - Leadership/Management requests/input (ongoing);
 - New or changed business units/service lines/systems/procedures;
 - Standing items;
 - Transferred items from prior Work Plan (FY23-24);
 - OIG Approved Monthly Work Plan Items and Annual Reports;
 - New or changed laws/rules/regulations;
 - Recent industry enforcement activity and government report findings;
 - Published guidance from regulators and authorities;
 - Published guidance for documentation, medical necessity, coding, billing and reimbursement (e.g., CMS/Medicare Administrative Contractor, Local and National Coverage Determinations – LCD/NCD);
 - Approved government auditor/contractor work (e.g., Recovery Audit Contractors);
 - High volume/high dollar/high reimbursement analyses;
 - Data analytics and reporting trends;
 - Known or potential areas of risk/concern and/or negative findings/trends;
 - Past items requiring monitoring;
 - Office for Civil Rights (“OCR”) focus areas (HIPAA, Privacy and Security Rules; IT Security/Cybersecurity risks and NIST guidance (e.g., Breach and Ransomware);
 - OIG existing CPG’s and Supplemental Guidance, and new General CPGs (“GCPGs”) and Industry-Specific CPGs (“ICPGs”)*; and
 - Department of Justice’s (“DOJ”) Updated Evaluation of Corporate Compliance Programs*.

4. Substantive Analysis: OIG Modernization Initiative – New/Updated OIG Compliance Program Guidance(s): GCPG’s and ICPG’s*

- For the first time in over fifteen years and as part of its modernization initiative, the the OIG issued comprehensive General Compliance Program Guidance (“GCPG”) for all entities involved in the healthcare industry. The GCPG also serve as a repository and reference guide for other contemporary publications and guidance issued by the OIG

(and other entities, such as the Department of Justice (“DOJ”)) and applicable to all healthcare industry stakeholders.

- This is the first-ever comprehensive guidance on key compliance considerations for healthcare entities, payors, nontraditional entities and providers.
- The GCPG discusses general compliance risks and compliance programs, provides information on relevant Federal laws and authorities, enforcement and standards, compliance program infrastructure, elements of an effective compliance program, processes and resources, compliance considerations, and other information useful to understanding and measuring healthcare compliance.
- The GCPG is the first in a series of compliance guidance that is anticipated to be issued by the OIG starting in 2024. The new guidance is intended to replace the existing fragmented (and generally out of date) compliance guidance for the industry that began with the 1998 “Compliance Program Guidance (“CPG”) for Hospitals” which were last updated in 2008.
- The OIG also announced that starting in 2024, it will publish industry segment-specific compliance program guidance (“ICPG”) for specific types of providers, suppliers, and other participants touching the healthcare industry. ICPGs will be tailored to fraud and abuse risk areas for each industry subsector and are intended to be updated periodically to address newly identified risk areas and compliance measures.
- The newly issued GCPG is the ‘hub’ of OIG’s new ‘hub and spoke’ model for voluntary compliance guidance. OIG will be issuing ICPGs beginning in 2024 as the ‘spokes’.
- Link: [HHS-OIG General Compliance Program Guidance | November 2023.](#)
- A few key points are listed below:
 - The above revised “7 Elements” have been slightly revised to incorporate/address the OIG’s updated guidance.
 - The GCPGs largely maintain the historic compliance program elements, but provides more depth and incorporates lessons learned. It summarizes laws related to healthcare enforcement and other compliance standards, includes examples of problematic conduct, and places Cybersecurity as a top priority for compliance due to the increase in attacks, etc.
 - The OIG identified certain themes, including but not limited to: Role of the Chief Compliance Officer, Tone from the Top, Well functioning Committees and Engaged Board Members, Targeted and Board Training, Multiple Reporting Pathways for Compliance Concerns, and Considerations for Incentives for Compliant Behavior.
 - The DOJ provided additional compliance considerations to the OIG’s publication (e.g., Quality as part of Compliance, Regulatory landscape to address

compliance and business risks, Financial monitoring with physicians and others for kickbacks, etc.).

- **The Office of Inspector General (“OIG”) Issues First Nursing Facility Industry Segment-Specific Compliance Program Guidance (“ICPG”) (11/2024)***
 - The OIG recently issued its Nursing Facility ICPG in late November 2024. The Nursing Facility ICPG, taken together with the OIG’s GCPC’s that broadly apply to all individuals and entities in the health care industry, work in conjunction to provide centralized guidance for nursing facilities. The Nursing Facility ICPG describes risk areas for nursing facilities, recommendations and practical considerations for mitigating those risks, and other important information OIG believes nursing facilities should consider when implementing, evaluating, and updating their compliance and quality programs.
 - The ICPG notes that improving the quality of care and safety of residents is one of the priorities for nursing facilities. The ICPG aims to assist in reducing fraud, waste, and abuse, promoting cost-effective and quality care, enhancing the effectiveness of provider operations, and pushing improvements in compliance, quality of care, and resident safety.
 - The ICPG was developed based on findings and observations from OIG’s previous audits, evaluations, investigations, and enforcement actions from the past decade. It also was developed based on legal actions investigated by the OIG and associated Government partners, current enforcement priorities, and discussions with owners, operators, leaders of nursing facilities, trade associations, and other industry stakeholders.
 - For the below topics, the ICPG provides mitigation strategies and recommendations that will assist nursing facilities in mitigating the specific risks. The ICPG also offers specific examples of conduct that may raise concerns and areas that should be reviewed.
 - Key compliance risk areas for nursing facilities include:
 - Quality of care and quality of life, to include appropriate staffing, competencies, appropriate resident care plans resident activities, medication management, appropriate use of medications, minimizing conflicts of interest, emergency preparedness, infection control, and facility-initiated discharges;
 - Medicare and Medicaid billing requirements;

- Federal anti-kickback statutes, to include free and discounted goods and services, discounts, swapping, arrangement for services, joint ventures, and hospital arrangements; and
- Other risk areas (related-party transactions, Stark Law, anti-supplementation, HIPAA, and civil rights).

5. Substantive Analysis: Department of Justice (“DOJ”) Criminal Division Issues Updated Evaluation of Corporate Compliance Program*

- The DOJ issued updated guidance to federal prosecutors related to the evaluation of corporate compliance programs. The document aims to assist prosecutors in making determinations as to whether and to what extent the corporation’s compliance program was effective at the time of the offense, and whether it was effective at the time of the resolution or charging decision, in order to determine the nature of the resolution or prosecution, monetary penalty, and compliance obligations that would be required in a corporate criminal resolution.
- Three essential questions in this determination:
 - Is the corporation’s compliance program well designed?
 - Is the program being applied earnestly and in good faith? In other words, is the program adequately resourced and empowered to function effectively?
 - Does the corporation’s compliance program work in practice?
- The DOJ updates include instructing prosecutors to determine what technology a company uses to conduct business, whether a risk assessment has been conducted on the specific use of the technology, and whether the company has implemented appropriate safeguards to mitigate any potential risks that may come with the use of technology. This section also specifically notes Artificial Intelligence (“AI”) as a technology that requires such an evaluation for companies.
- Other pertinent items related to the use of technology include whether such use complies with existing laws and regulations, the governance structure in place, what training employees have received on the specific technology, etc.
- The guidance emphasizes the need for employees to have the ability to anonymously and confidentially report concerns. This has been supplemented by new guidance that recommends incentivizing such reporting, as well as ensuring a non-retaliation is in place.
- The guidance also recommends prosecutors determine to what extent the organization utilizes data analytics and whether such use is effective and reliable.

HCD’s Compliance, Privacy & Ethics department completed an initial analysis of these key updates from the OIG and DOJ and incorporated several items into the FY25–27 Work Plan. Additional work will begin in 2025 on these items and as new guidance documents are released and for a full assessment/analysis of the organization and current program.

1. Description: HCD Enterprise Risk Management Quarterly Report and Dashboard (Q3 2024)

2. Summary:

A summary report of the Enterprise Risk Management (“ERM”, “Risk”, or “Risk Management”) dashboard covering the top five trending events. This report covers the Third Quarter of 2024 (“Q3 2024”) for the following Health Care District of Palm Beach County (“HCD”, “HCDPBC”, or “District”) business units: Lakeside Medical Center (“LMC”), Edward J. Healey Nursing and Rehabilitation Center (“Healey”, “Skilled Nursing Center”, or “SNF”), Community Health Centers (“CHC” or “Clinics”, formerly known as C.L. Brumback Primary Care Clinics), Pharmacy, School Health, Aeromedical/TraumaHawk (“Aeromedical”), Ground Transportation Services (“Ambulance” or “GTS”), District Administration/Home Office, and Managed Care.

3. Substantive Analysis: ERM Quarterly Dashboard and Report

In Q3 2024, HCD had a total of 577 reports entered in its Safety Event Reporting System (“SERS” or “RiskQual/HAS”). The dashboard represents the Top five (5) trending event categories reported along with the risk severity levels and near misses for each HCD Business Unit. A detailed summary is provided below.

Risk Severity Volumes/Types:

Of the 577 entries reported in RiskQual/HAS, 535 were Events/Occurrences and 42 were Near Misses.

- Approximately 7.3% (42) of the events reported were “Near-Misses” or “Near Miss Events”. A Near Miss is an event that was prevented from actually occurring and did not result in any harm to an individual.
- 85.4% (493) of the events reported were “No Harm Events”. A No Harm Event is an event that occurred but resulted in no harm to an individual.
- 7.1% (41) were “Minor Events”. A Minor Event is an event that occurred, but had no harm to the patient, however, required monitoring.
- 0.2% (1) was a “Major Event”. A Major Event is an event that occurred, had temporary harm, and required treatment.

Events/Near Misses by Business Unit, Category, and Volume.

Includes all reported events and any required regulatory reported events and PCE’s:

Hospital (LMC):

LMC reported a total of 96 entries in HAS

Risk & Quality Club.

The risk and quality management departments developed the “Risk & Quality Club” that will utilize the Top 10 Patient Safety Concerns 2024 as a guide for a systems approach to adopting proactive strategies and solutions to mitigate risks, improve healthcare outcomes, and ultimately, enhance the well-being of patients and the healthcare workforce.

The Risk & Quality Club will meet on a monthly basis. Team members from the risk management and quality departments will take a deeper dive into one of the Top 10 Patient Safety Concerns 2024 and provide a presentation to the club members. The presentation will include a background in regard to the concern, applicable HCD statistics, ECRI’s recommendations, and HCD’s responses to the concern.

CULTURE OF SAFETY

We practice a Just Culture that optimally supports a system of safety through transparency and accountability. Our major focus is on understanding what happened, how it happened, and how we can prevent it from happening again. We do this by looking at systems, processes, and human behavior, not through blaming or focusing solely on the individual.
