QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE
March 15, 2023**

1. Description: Patient Relations Dashboards

2. Summary:

This agenda item provides the patient relations dashboards for the 1st trimester of the 2022/2023 school year for School Health and the 4th Quarter of 2022 for C. L. Brumback Primary Care Clinics, Edward J. Healey Rehabilitation and Nursing Center, Lakeside Medical Center and Pharmacy.

3. Substantive Analysis:

School Health

For Trimester 1 of School Year 2022/2023, School Health had a total of 65 Patient Relations events reported for 167 school locations and 216,640 health room events. Of the 65 patient relation events, 14 were complaints, 51 were compliments, and there were no grievances. Out of the 14 complaints, 50% were from school district staff, 43% were from family members and 7% was from an employee awaiting testing equipment. The complaints were related to poor communication, nurse related, care and treatment of students. The 51 compliments recognized the School Health Nurses and School Health Nurse Assistants, Healthcare Support Techs, and the School Health Leadership team received from principals, school district staff, family members, and employees.

C. L. Brumback Primary Care Clinics

For Quarter 4 2022, there were a total of 42 Patient Relations Occurrences that occurred between 7 Clinics and Clinic Administration. Of the 42 occurrences, there were a total of 8 Grievances and 34 Complaints. The top 5 categories were Care & Treatment, Respect, Referral, Communication and Physician Related Issues. The top subcategory was Poor Communication with 5 occurrences.

There was also a total of 57 Compliments received across 7 Clinics and Clinic Administration. Of the 57 Compliments, 45 were patient compliments and 12 were employee to employee Thumbs-Up compliments.

Edward J. Healey Rehabilitation and Nursing Center

There was a total of 43 grievances submitted during the 4th quarter. 30 residents were responsible for the 43 grievances. The average census for the quarter was 110. The top 5 categories were Personal Belongings (13), Environmental (7), Communication (6), Nursing related (5), and Care and Treatment (5). Some of the concerns included: missing clothing which were out at laundry, broken key to night stand which was replaced, noise from other residents' room-tactile stimulation provided for resident making the noise along with familiar pictures, not liking when people go through deliveries- a pointing object was identified in the delivery and inspection revealed a knife- education was provided. Grievances were resolved within the recommended guidelines.

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

A total of 37 compliments were submitted this quarter by residents and resident representatives. The compliments were contentment with care, happy with the staff being respectful, and appreciation of the excellent care that they provide.

Lakeside Medical Center

Lakeside Medical Center reported a total of 11 complaints and 8 compliments for Q4 October – December 2022. The event complaint categories include 7 Care & Treatment, 2 Medical Records, 1 Discharge- appropriate/early and 1 Nutrition. All complaints are addressed by the Community Liaison Manager who ensures appropriate follow-up occurs with provider and/or manager as necessary.

Pharmacy

The pharmacy had one patient complaint and one patient compliment for Q4. Both incidents originated from Delray Pharmacy. The complaint stated that the pharmacy staff used a condescending tone and didn't feel like the pharmacy team listened to her, and that she couldn't utilize the IVR line for refills. For the compliment, a patient left a voicemail stating the Delray Pharmacy manager, Alma Kadribasic, should be commended for helping him navigate access to the medication prescribed by a specialist; he appreciated the extra effort.

4. Fiscal Analysis & Economic Impact Statement:

	Current FY Amounts	Total Amounts (Current + Future)	Budget
Capital Requirements	N/A	N/A	Yes <input type="checkbox"/> No <input type="checkbox"/>
Net Operating Impact	N/A	N/A	Yes <input type="checkbox"/> No <input type="checkbox"/>

*Non-budgeted expenditures in excess of \$250,000 require Finance and Audit Committee review and Board approval.

**HEALTH CARE DISTRICT
QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE
March 15, 2023**

1. Description: Productivity Dashboards

2. Summary:

This agenda item provides the productivity dashboards for the 1st trimester of the school year 2022/2023 for School Health and the 4th Quarter of 2022 for C. L. Brumback Primary Care Clinics, Edward J. Healey Rehabilitation and Nursing Center, Lakeside Medical Center and Pharmacy.

3. Substantive Analysis:

School Health

In the first trimester of the 2022/2023 school year (August 10th – December 31st), we completed a total of 216,640 events across 167 schools. These events were broken down by 96,438 office visits, 48,479 medication visits, 31,569 procedure visits, 13,920 consultation events, and 26,253 record reviews. The top 3 schools with the most events are Calusa Elementary, Crystal Lakes Elementary and Wellington Landings Middle School.

Class Return Rates

In the first trimester of the 2022/2023 school year (August 10th – December 31st), we met the goal (Target > 70%) for students returning to class from an office visit, with 73% of students that remained in school versus 27% of students that were sent home. The top 3 reasons/complaints students went home are abdominal pain, headache, and vomiting.

COVID-19 and Influenza

In the first trimester, we performed a total of 19,961 COVID-19/Influenza screenings with 15,036 unique students. The elementary schools performed the most screenings at 72%, followed by middle schools at 20% and high schools at 8%. As a result of the screenings, 28% of students were screened positive and referred for testing, and 72% resulted in a negative screen who remained in school.

We performed a total of 1,149 in-house point-of-care tests for students. Out of 1,149 tests, 637 were COVID-19 tests, and 512 were influenza tests. For COVID-19 testing, 93% resulted in a negative test, and 7% resulted in a positive test. For Influenza testing, 83% resulted in a negative test, and 17% resulted in a positive test.

The leading symptom for positive COVID-19 testing is headache, and the leading symptom for positive influenza testing is fever. We performed the most testing during the week of December 16th with 229 tests.

C. L. Brumback Primary Care Clinics

In Q4 of 2022, the clinics served 17,792 unique patients and provided 35,080 clinic visits.

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

Edward J. Healey Rehabilitation and Nursing Center

During the fourth quarter, census for the Healey Center averaged 110. Covid-19 Screening totaled 12,363 for employees, increased by 400 and 2858 for vendors, increased by 194. Treatments performed by nursing totaled 48,628 and 279,328 for medication administration. Food and nutrition services provided a totaled 26,830. CNA POC documentation compliance rate for day shift averaged 99.01 evening shift averaged 99.20% and night shift averaged 99.30%. The therapy department completed a total of 2,934 units for the quarter.

Lakeside Medical Center

The productivity data report for 4th Quarter 2022 represents the following detailed information:

- **Total Census Days by Level of Care** – There was a total of 1,839 patient days for Q4- 2022 compared to 1,868 for Q3-2022 resulting in a 2% decrease.
- **Emergency Services Visits** – There was a total of 5,691 visits for Q4-2022 compared to 5,107 for Q3-2022 resulting in a 11% increase.
- **Obstetrical Deliveries** - There was a total of 21 deliveries for Q4-2022 compared to 33 for Q3-2022 resulting in a 36% decrease.
- **Baker Acts** – The was a total of 3 Inpatient Baker Act cases for Q4-2022 compared to 0 for Q3-2022 resulting in a 0% increase.
- **Physical Therapy Visits (Evaluations and Treatments)** – There was a total of 159 evaluation and treatments for Q4-2022 compared to 199 for Q-2022 resulting in a 20% decrease.
- **Medication Orders** - There was a total of 42,426 medications administered for Q4-2022 compared to 40,687 for Q3-2022 resulting in a 4% increase.
- **Laboratory Specimens Collected** – There was a total of 21,854 lab specimens collected for Q4-2022 compared to 22,041 for Q3-2022 resulting in a 1% decrease.
- **Radiology Exams Completed** – There was a total of 6,663 radiological exams performed for Q4-2022 compared to 6,343 for Q3-2022 resulting in a 5% increase.
- **Co-Vid 19 Testing** – There was a total of 2,262 Covid-19 test performed for Q4-2022 compared to 2,321 for Q3-2022 resulting in a 2.5% decrease.

HEALTH CARE DISTRICT

QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE

March 15, 2023

1. **Description: Summary of HCD Compliance, Privacy, and Ethics Program Updates and Activities**

2. **Summary:**

A summary of the Health Care District's ("HCD") Compliance, Privacy, and Ethics Program ("Compliance", "CPE", or "Program") activities since the last meeting is provided below. The data covers FY23 Q1 (October 1-December 31, 2022, "Reporting Period"). Additional updates on Program activities, recent completed audits, issued guidance, and initiatives from FY23 Q1- Q2 (October 1, 2022-February 28, 2023, "Current Period") are also provided.

3. **Substantive Analysis:**

The Office of Inspector General ("OIG") recommends reporting on a regular basis to the governing body, CEO, and compliance committee(s) regarding the planning, implementing, and monitoring of the compliance and privacy program. This report is intended to provide an update on CPE Program activities, initiatives, monitoring, and statistics, and Work Plan. Heather Bokor, VP & Chief Compliance, Privacy, & Risk Officer, presents the following:

4. **Compliance, Privacy, and Ethics Report:**

The CPE Department continues to assess HCD and develop the Program to address areas requiring attention and/or enhancement, in order to ensure that through our Work Plan and other activities, we meet or exceed Effective Compliance Program Elements, per the OIG.

Key areas since the last report which have had significant or notable work included as part of or separate from the FY23-24 Work Plan include: auditing and monitoring, compliance reviews, systems, policies and procedures (e.g., physician employment, compensation, and contracts; cybersecurity and data privacy), conflicts of interest revisions and issuance to Board/Committee Members, compliance awareness activities, tracking, review, and issued guidance for rules and laws (e.g., unwinding of the Federal Public Health Emergency "PHE"), active participation and responsiveness to HCD staff inquiries/incidents and organization needs, issuance of regulatory and other guidance and education/information to HCD staff, and other initiatives to improve compliance and mitigate or reduce risk in the organization.

A. Work Plan Status / Updates

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

CPE WP Completion Status (FY23-24)

1a. Audit Activity Summary (FY23-24 Work Plan):

In FY23 YTD, CPE initiated thirty-eight (38) total audits, data risk assessments/research, compliance risk assessments, and/or reviews (“reviews”), in accordance with the annual CPE Work Plan. Note: This includes thirteen (13) unique and twenty-five (25) routine activities. Additionally, CPE addressed other items as per OIG’s Compliance Program Guidance. A breakdown is provided below:

- Of the 38, 25 reviews are complete (5 unique, 20 routine), since the last report.
- Completed items are reported in the tables below, with additional details on the background, scope and methodology, findings, and recommendations. Results were generally favorable, unless where noted below. CPE made recommendations where appropriate (e.g., training, policies, or monitoring).
- Of the 38, 13 reviews are currently in preparation, in process, or pending preliminary / final reports. These items are reported as “Open” in the tables below.
- *Note: DRA reported below is not included in the above totals (counted in FY22).*

Auditing and Monitoring – Completed	
Work Plan Item/Area	Summary
RSM External Risk Assessment: Cybersecurity Tabletop Exercise (Ransomware)	<i>Refer to “1b. Cybersecurity,” below the tables.</i>
Physician Employment Contracts, Payments, and Processes review (with and without administrative duties) <i>At the request of Leadership, Compliance conducted a comprehensive review of Employed Physician and Dentist contracts, compensation, and duties. Compliance consulted with and took direction from Legal in performing the review, and involved other Business Units as needed. The objective of the review was to ensure that such Physicians/Dentists have non-expired and accurate contracts that adequately reflect their duties (include medical directorship/administrative</i>	Reviews Complete (2). Results Unfavorable. Recommended Actions Issued. Compliance identified several areas that require attention and would also benefit from updates to standard practices/processes for improvement and consistency and to better align with policies, rules, and best practices for Physicians, Dentists, and Medical Directors. <i>Specific findings are not included here, however, recommendations are summarized below.</i> Ensure appropriate information is gathered and communicated throughout the contracting

HEALTH CARE DISTRICT

QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE

March 15, 2023

<p><i>and/or clinical responsibilities and changes over time), and to ensure compensation is within Fair Market Value, is commensurate with HCD policies and procedures, their contracts, and applicable law. Further, to identify areas that would benefit from practice/process improvement (e.g., approval and workflows, policies and procedures, training and education, contract templates). Additionally, Compliance reviewed applicable policies and procedures and made recommendations for revisions to be implemented to ensure industry standards and best practices are utilized.</i></p>	<p>process. Contracts should be in place for any physician or dentist rendering services and meet policy requirements. Compensation for such physicians and dentists should be clearly stated in contracts, to include any eligibility for additional compensation. Physician/dentist contracts should undergo outside review when dictated by policy. For Medical Directorships, supporting documentation should be submitted to support payment and services. Consider making changes to certain payroll processing and approval systems for clarity on rates and compensation data points. Process/approval routing revisions recommended to ensure appropriate areas are consistently providing and/or receiving needed documents that require approval.</p>
<p>Observation Billing Process Review (LMC)</p> <p><i>Hospital outpatient observation services are routinely ordered for patients who present to the Emergency Department, and who then require a period of treatment or monitoring in order to determine the need for further treatment, admission, or discharge. Hospitals begin billing for observation services at the clock time documented in the patient's medical record, which coincides with the time that such care is initiated in accordance with the Physician order. In July 2021, HCD went live with its Electronic Health Record, Epic, in partnership with Memorial Healthcare System (MHS) via Community Connect, with automated processes for billing observation hours.</i></p> <p><i>As a preventative measure and to gain a better understanding of HCD processes, a mini-risk assessment, specific to review of observation billing processes at Lakeside Medical Center ("LMC"), was added to the FY22 Workplan, which was transferred and completed in FY23.</i></p>	<p>Review Complete. Results Favorable. Recommended Actions.</p> <p>CPE reviewed regulatory guidance for the billing and documentation of observation services and related policies and procedures for LMC. Additionally, CPE queried HCD staff regarding Epic workflows to gain a better understanding of processes for billing of observation hours (e.g., start and end times, carve out times) to assess compliance with Medicare requirements.</p> <p>In summary, Epic observation workflows meet regulatory requirements for billing and charging observation hours. CPE made recommendations to LMC to revise related policies and procedures, including a written observation policy and procedures.</p>
<p>Program for Evaluation Payment Patterns Electronic Report ("PEPPER") Report Monitoring for Short Term Acute Care Hospitals (STACH: LMC)</p> <p><i>[Background/rationale details provided prior – Omitted from here as a quarterly review].</i></p>	<p>Quarterly Review Complete. Results Favorable. No Actions Recommended.</p> <p>The Utilization Management Committee reviewed the outlier suggested interventions for determining coding errors, and based on various factors, including but not limited to ongoing Revenue Integrity and Health Information</p>

HEALTH CARE DISTRICT
QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE
March 15, 2023

During FY22 Q3, two (2) target areas were identified as high or low outliers, “Medical DRGs with CC or MCC” and “Emergency Department Evaluation and Management Visits”.	Management (coding) reviews, as well as CPE Work Plan reviews, and/or low volume for other quarters, no recommendations or actions are required at this time for these areas, however, will continue monitoring PEPPER reports.
<p>Florida Medicaid – Deficit Reduction Act (“DRA”) of 2005</p> <p><i>The DRA requires any entity that receives or makes payments to the State Medicaid Program of at least \$5,000,000 annually, to provide Federal False Claims Act education to their employees, maintain a Hotline and certain compliance-related policies (e.g., Confidential Reporting, Non-Retaliation, and Whistleblower protections). Typically, payors request completion of audits and/or attestations related to Compliance Program Effectiveness and/or Business Continuity for Plan Members annually to ensure compliance with these requirements. HCD CPE added this item to its annual Work Plan to ensure a process for compliance with DRA.</i></p>	<p>Complete Data/Research Risk Assessment. Results Favorable. Recommended Actions.</p> <p>CPE inquired with HCD Finance and performed research to determine the applicability of the DRA to HCD, and whether HCD had received any such audits or attestations from Payors during FY21-22. It appears HCD is subject to DRA, however, has not received notice of such review from Payors. CPE reviewed HCD policies and procedures to assess compliance with the DRA (e.g., detecting fraud, waste, and abuse, etc.). CPE will add DRA language to existing policies which would benefit from such language. Further, CPE will maintain this item on annual Work Plans going forward and will participate in responding to any audits/attestations received by HCD. <i>Completed in FY22, not previously reported.</i></p>
<p>Exclusion Screening Compliance Reviews (Monthly)</p> <p><i>[Background/rationale details provided prior – Omitted from here as a routine review].</i></p>	<p>Reviews Complete (Monthly). Results Favorable. No Actions Recommended.</p> <p>All potential matches were reviewed and resolved. 100% compliance with HCD policies and applicable rules with no resulting exclusions.</p>
<p>Epic User Access/Activity Monitoring through FairWarning system for potential Privacy violations (Weekly)</p> <p><i>[Background/rationale details provided prior – Omitted from here as a routine review].</i></p>	<p>Reviews Complete (Weekly). Results Favorable. No Actions Recommended.</p> <p>100% compliance with HCD policies and applicable rules, with no red flags or resulting privacy violations for HCD staff/Epic users.</p>
<p>Referral Source/Physician Payment Audits (Ongoing)</p> <p><i>[Background/rationale details provided prior – Omitted from here as a routine review].</i></p>	<p>Reviews Complete (at least Monthly). Results Favorable. Recommended Actions.</p> <p>All physician and referral source payments routed for approval are reviewed and audited by CPE, at the time of receipt and prior to approval. These are reported only as monthly items for purposes of CPE’s Work Plan volume. Recommendation made for CPE to expand the routing of agreements and associated payments review, where appropriate, also to address other physician employment and/or contracting needs as</p>

HEALTH CARE DISTRICT

QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE

March 15, 2023

	referenced in the above review. Additionally, CPE will perform random sample audits.
OIG Work Plan (Monthly): <i>[Background/rationale details provided prior – Omitted from here as a routine review].</i>	In HCD's FY23, CPE monitored and analyzed all OIG monthly work plan additions. The OIG added 32 new review items since the last report, at least 10 of which appear to apply to HCD. Information is analyzed and disseminated as appropriate. Items are added to HCD's CPE Work Plan if/where applicable.

HEALTH CARE DISTRICT

QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE

March 15, 2023

1b. Cybersecurity Tabletop Exercise (RSM)

In FY23 Q1, HCD worked with its external vendor, RSM, to review the organization's security incident response ("IR") program. The process involved conducting an IR tabletop exercise including a simulated cybersecurity incident (specifically, a ransomware attack) that would make data inaccessible and impact business and patient care operations.

The engagement was performed to gauge HCD's ability to respond to an incident. The objective was to assess how the organization's Security Incident Response Plan and Team ("SIRP" and "SIRT") and other key stakeholders would identify, protect, detect, respond and recover from an incident. RSM used the National Institute of Standards and Technology (NIST) Cybersecurity Framework (CSF) as the foundation for this exercise, which consists of standards, guidelines and best practices to manage cybersecurity-related risks, threats and vulnerabilities present in the environment. This framework provides a prioritized and flexible approach to gauge the maturity of the IR processes. RSM's report is mapped to the CSF functions and focuses on RSM's observations from the IR tabletop exercise as they relate to the entire IR life cycle.

The exercise was favorable and positions HCD with a solid foundation and framework on incident preparedness and responsiveness. HCD will consider recommendations and continue to monitor and evolve its SIRP, policies, processes, and procedures to ensure readiness for any future cyber incident.

2. Conflicts of Interest ("COI")

In FY23 Q2, HCD CPE revised the COI Disclosure Questionnaire and sent a request to all Board and Committee Members to complete the required COI Disclosures (due 3/15/2023). HCD Compliance is in process of making necessary revisions to the HCD Staff / Employee COI Disclosure and will push it out during Spring 2023.

Summary of key revisions to the COI Questionnaire/Disclosure (in FY23):

- Included and amended questions to obtain additional background information to assist with the review of Disclosures.
- Included and amended questions to better align with the varying requirements between Bylaws and Charters for the Committees and Board.
- Included and amended questions to ensure compliance with the Enabling Legislation, and to request/obtain necessary information from new members prior to and at the time of appointment.

3. Department Activity and Statistics

Hotline Calls

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

A total of 54 calls were placed to the Hotline during FY23 Q1. 85% of these were anonymous. The majority of Hotline calls were requests for information (83%) and were addressed by our vendor, with the remaining calls (17%) addressed by CPE.

Hotline Calls (FY23 Q1)
Sorted by Call Volume

CPE Inquiries

- CPE reviewed and responded to over 35 inquiries (*) during FY23 Q1. 97% of these were resolved at the time of reporting.
- The most common types of inquiries during related to Confidentiality/Privacy (63%), followed by Active Participation (17%). The below graphs provide a breakdown of the inquiries by Standards of Conduct category. *Note: Actual volume of inquiries addressed is higher than reported.*

Inquiries (FY23 Q1) *Sorted by Location*

Privacy Case Activity

- The most common types of reported privacy incidents during FY23 Q1 included: Misfile of PHI, Proper Safeguards, and Disclosures to an Unauthorized Individual. All addressed by staff education, where appropriate.
- During the reporting period the Privacy Department reports the following metrics:

Privacy Case Activities (New this Reporting Period)	Q1
Office for Civil Rights / FIPA Reportable Breaches < 500 (Individual) – <i>These are reported annually to the OCR.</i>	3
Internal Reports of Alleged Violations (Investigated Cases)	18

HCD Training, Education, Compliance Awareness Activities, and Survey

HCD CPE provided training to HCD employees through online and live events, formal training, and dissemination of publications and informational/educational materials. In Q3, CPE and Risk Management will hold awareness week events across HCD for both CPE as well as Risk Management and Safety awareness, recognition, and reinforcement. In addition to the Awareness activities, CPE will also launch the Second Annual Compliance, Privacy, and Awareness Survey. During this time, Risk Management will also launch their AHRQ (Agency for Healthcare Research and Quality) Survey on Patient Safety and Culture.

Note: Regulatory Updates and Industry Enforcement Activity to be reported at the next Board meeting as informational.

HEALTH CARE DISTRICT

QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE

March 15, 2023

1. Description: Quality & Patient Safety Reports

2. Summary:

This agenda item provides quality and patient safety reports for the 1st trimester of the school year 2022/2023 for School Health and 4th Quarter of 2022 for Aeromedical, Trauma, C. L. Brumback Primary Care Clinics, Edward J. Healey Rehabilitation and Nursing Center, Lakeside Medical Center, LifeTrans Ground Transportation, Corporate Quality Metrics and Pharmacy.

3. Substantive Analysis:

School Health

Florida-Mandated Student Screenings

- We met the Florida State mandated goal of completing 45% of the vision and hearing screenings required at the end of the 1st trimester. Parents are notified of any abnormal (outside the target area), so they can follow up with their healthcare provider and/or appropriate community resources.
- BMI screening: In the 1st trimester, we screened 15,167 (49.4%) of eligible students in the 1st, 3rd, and 6th grades. Out of 15,167 students, 6,114 (40.31%) students required referral. Out of 146 eligible schools, we have completed over 50% of screenings at 78 schools (53%). For the BMI categories, 57.09% of students were normal, 16.35% were overweight, 2.97% were underweight, and 23.6% were obese.
- Hearing screening: In the 1st trimester, we screened 16,711 (54.3%) of eligible students in kindergarten, 1st, and 6th grades. Out of 16,711 students, 787 (4.71%) students required referral. Out of 145 eligible schools, we have completed over 50% of screenings at 83 schools (57%).
- Scoliosis screening: In the 1st trimester, we screened 4,818 (38.4%) of eligible students in 6th grade. Out of 4,818 students, 83 (1.72%) students required referral. Out of 44 eligible schools, we did not complete over 50% of screenings at 21 schools (48%).
- Vision screening: In the 1st trimester, we screened 22,955 (53.8%) of eligible students in kindergarten, 1st, 3rd, and 6th grades. Out of 22,955 students, 6,267 (27.30%) students required referral. Out of 146 eligible schools, we have completed over 50% of screenings at 83 schools (57%).

Aeromedical

For CY 2022, Trauma Hawk delivered 621 patients over the course of 605 transports. 194 of those transports were interfacility dispatches representing 35% of total transports for the quarter. Interfacility transport requests originating west of 20 mile bend make up the majority of interfacility flights and predominately cardiac and neurology requests. There were 411 transports from scene representing 65% of total transports for the year. Transports from scene are primarily trauma related, but neurology and cardiac cases are also requested. Dispatches to west of 20 mile bend

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

are the leading call for patient transports. Dispatch to enroute average shows a slight increase in average times for both interfacility and scene transports for the year.

For CY 2022 Trauma Hawk made 605 transports. Number of flights per hour shows majority distribution from 10am through 11pm representing the majority of flights for the year. Flights originating west of 20mile Bend are predominantly Trauma related, representing 60% of flights, followed by Neurology and Cardiac transports. Average Scene time is about 24 minutes.

Trauma

TRAUMA (Data from PBC Trauma Registry, HCD, 2023)

System Utilization:

Over the past calendar year 5,598 patients were seen at a trauma center - an increase of 296 patients compared to the previous calendar year. Calendar year comparison showed St. Mary's treating 2,936 traumatically injured patients and Delray treating 2,645 traumatically injured patients. 62% of patients are male compared to 38% female. Pediatrics (Age ≤ 15) accounted for 9% of total volume, Adults (Ages 16 – 64) accounted for 49% of total volume and Geriatrics (Age > 65) accounted for 42% of total volume. Age distribution of the trauma centers highlight the difference in populations between the two centers. Delray's largest supplier of trauma patients come from those in their 8th decade of life. 21% of trauma patients seen at Delray Medical Center are ≥ 80 years of age. St. Mary's however receives their largest supplier of trauma patients from those in their 3rd decade of life. 14% of St. Mary's total volume are between the ages of 30 and 39. 96% of trauma volume originates in the state of Florida.

Palm Beach County Trauma Injury Analysis:

The leading and dominating mechanism of injury for all patients is Falls. Vehicular crashes including MVC, motor vehicle vs pedestrian and motorcycle crashes account as Vehicular Crash which accounts for nearly 1/3 of Trauma volume. Trauma Alerts accounted for 56% of total volume with Transfers from Acute Care Hospitals representing 27% of total volume. Emergency Department upgrades at the Trauma Centers account for the remaining 17%. Ground transports supply the majority of patient transports at 95% of volume and air transports accounting for the remaining 5%. Age distribution by city of injury show the largest concentration of geriatric injuries occurring in the southern half of the county, but also shows significant pockets in Lake Worth, Atlantis, Green Acres, North Palm Beach, Palm Beach Gardens and Jupiter. Pediatric volume historically has been seen in Lake Worth and West Palm Beach, but growing concentrations are continuing to be noted in Boca Raton, Boynton Beach and Green Acres. 91% of trauma volume originates in Palm Beach County.

C. L. Brumback Primary Care Clinics

The following measures were not meeting goal at the end of December:

Hypertension (68%), Ischemic Vascular Disease/Antiplatelet Therapy (79%), Adult Weight Screening and Follow-Up (76%), Childhood Immunization (39%), Breast

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

Cancer Screening (56%), Cervical Cancer Screening (59%), Colorectal Cancer Screening (50%).

All other goals achieved for the quarter.

Edward J. Healey Rehabilitation and Nursing Center

For Q4, 17 of 17 quality measures were met.

Lakeside Medical Center

For Q4 2022, **Inpatient Quality Measures** there were 3 of 8 measures (ED-1a, IMM-2, PC-05) that did not meet goal. The top cases were reviewed monthly, care and treatment were rendered appropriately.

ED Measure:

For **ED-1a**, there were (108) cases sampled with a median time of (314) minutes, which is higher than the set goal of (280) minutes. The top cases were reviewed monthly, care and treatment rendered was appropriate.

IMM-2 Measure:

For **IMM-2**, there were (116) cases that fell into the sample population, of those cases (7) failed to meet the measure. The cases were reviewed and system processes were implemented.

Perinatal Measure:

For **PC-05**, there were (19) cases that fell into the sample population, of those cases (0) parents strictly Breastfed, (11) both breast and bottle fed and (8) bottle fed only.

For Q4 2022, **Outpatient Quality Measures** there were 1 of 3 measures (OP-18) that did not meet goal.

For **OP-18**, there were (98) cases that fell into the sample population with a median time of (182) minutes, which is higher than the set goal of (137) minutes. The top cases were reviewed monthly, care and treatment were rendered appropriately.

LifeTrans Ground Transportation

Q4 Ground Transport Data dashboard: It includes response times, by unit, for transport requests on Q 4; points of origin, destinations, patient age groups and gender, and the most common diagnosis. LMC continues to be our main point of origin, with 380 transports. Palms West Hospital was our main destination, receiving 221 transports, followed by JFK Main with 39 and St. Mary's with 27. We continued to improve activation to pick up times. Q3 data had us at 66 minutes for Apollo and 66.6 minutes for Atlas, but with only 251 total transports. We are now averaging 48 minutes for Apollo and 79 minutes for Atlas, but with 418 total transports, with most of them (380) originating at LMC, thus making Atlas' response times 13 minutes higher, on average.

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

Our overall transport handling times went down from 128.2 to 105 minutes for Apollo and went up from 117.4 to 140 minutes for Atlas. This increase can be explained by the number of LMC transports performed by Atlas in Q4. We also must factor in that we started performing out of county transports during Q4, which may increase overall call times significantly.

Q4 Ground Transport Quality Data dashboard: It presents NEMSIS/EMSTARS data that we submit to the State of Florida's Department of Health EMS Office. It divides data by Provider Primary Impression, Incident Disposition, Cause of Injury, and Treatment/Procedures, among others. These are fixed data categories created by the State of Florida's Department of Health EMS Office, based on the National Emergency Medical Services Information System (NEMSIS) requirements. Our most common specific primary impressions are: abdominal/GI problems, behavioral/psychiatric disorders, cardiovascular diseases, neurological conditions and traumatic injuries. Most of our transports have a higher level of care Emergency Department as a destination (300), with Skilled Nursing Facilities/Assisted Living Facilities being the second most common destination, with 51 transports. Most of our transports are categorized at either the Advanced Life Support or Specialty Care Transport levels, with 301, out of 418 total transports, falling into these two categories.

Corporate Quality Metrics

- **Call Center**

For Quarter 4 2022 the Clinic Service Center processed 47,471 calls which is 17% decrease compared to last quarter. Of the 47,47 calls, 71% were inbound calls and 29% were outbound calls. The agents handled 97% of incoming calls in real time and the remaining calls were received via voicemail and returned within 24 hours. Outbound calls consisted of appointment rescheduling, after hours follow up calls, Hospital follow up calls and quality outreach initiatives. The Patient Access Team scheduled a total of 9,304 appointments for Q4 and served 7,579 patients. The peak times for incoming calls were Monday, Tuesday, and Wednesday between 10:00am and 12:00pm. Call metrics for the period include:

- Average time to answer calls was 2 minutes and 51 seconds – short of goal (90 seconds)
- Average speed of answer was 4 seconds – exceeded goal (28 seconds)
- Average time to handle calls was 6 minutes and 28 seconds – short of goal (6 minutes)
- Call Duration 3 minutes, 36 seconds – exceeded goal (<4 min)
- Average wrap up time was 14 seconds – exceeded goal (<6 min)
- Call Abandoned Rate was less than 1% - meets goal exceeded goal (< 5%)

- **Health Information Management**

- Our turnaround time for both facilities is good. The information in Q4 needs to be updated to combine similar requests for records. The purpose for the

HEALTH CARE DISTRICT QUALITY, PATIENT SAFETY AND COMPLIANCE COMMITTEE March 15, 2023

release needs to be broken down by requestor to show volume for provider requests.

- We will revisit the report for FY22 to update FY23 as needed.

- **Human Resources**

- Q4 headcount ended at 1,222 team-members after 100 new hires.
- Turnover rate for Q4 was 7%, while New Hire turnover rate was 43%.
- The current diversity headcount is 70%, average age of employees is about 46 years old and 79% of the workforce is female.

- **Information Technology**

- **Operations:** Information Technology has established a service level of 99.90% of mission critical application availability. We are currently monitoring 7 mission critical applications with the most recent addition being the school health EMR Welligent. We had a uptime percentage of 100% across all critical applications. There were 8 hours of planned application downtime and we did meet our service level for the quarter. Epic is hosted by Memorial Healthcare as a part of our agreement and we have been stable since early October 2021.
- **Customer Service:** For Q4, we received 5,551 total new tickets and maintained a closure rate of 93% on those Q4 tickets. The IT department currently tracks metrics on submitted “incident” category tickets with a target SLA of 99.9%. The IT department had an SLA rate of 93% on submitted “incident” tickets with a large Q4 uptick in closed tickets due to the IT Epic support staff closing out current work before transitioning to MHS. The IT Service Desk saw an abandoned call rate of 3.12% and were below our current target of 4.5%.
- **Cybersecurity:** For the 4th Qtr of 2022, we investigated 331 security incidents. Of the total incidents, all are closed, and 0 were reportable. The incidents included phishing, impostor, malware, and spam emails, responding to the security operations center alerts, and users reported security investigations. We are on high lookout due to the hacking group, Killnet has spent months launching DDoS attacks on governments across Europe and companies in the U.S. and other targeted cyberattacks on healthcare and government entities from different hacker groups.

Pharmacy

For Q4, Pharmacy continued to meet all goals. The average wait time for prescriptions was around 25 minutes. HCD Pharmacies filled 36,559 prescriptions for Q4, a slight increase from Q3, with a 99.5% promise by ready time for non-waiters. HCD Pharmacy mailed 1,754 packages for a total of 4,017 prescriptions (11% of prescriptions sold).

The HCD network did not experience any enterprise wide outages last quarter but we did have reports of intermittent network issues affecting multiple sites on 11/3/22. This was determined to be an issue with our internet service provider that was resolved within a few hours. On 11/1/22 and 11/23/22 we recieved calls from multiple clinic sites stating they had intermittend access the EPIC platform which were both resolved within 2 hours. The root cause was found to be with MHS servers that when rebooted resolved the
