MEMO

То:	Finance & Audit Committee
From:	Jessica Cafarelli, VP & Chief Financial Officer
Date:	June 11, 2025
Subject:	Management Discussion and Analysis as of April 2025 Health Care District Financial Statements

The April statements represent the financial performance through the seventh month of the 2025 fiscal year for the Health Care District. Total revenue year to date (YTD) of \$257.8M is favorable to budgeted revenue of \$249.1M by \$8.7M or 3.5%. Operational expenditures YTD are \$23.2M favorable to budget or 13.9%. YTD, the consolidated net margin is \$111.6M, with a favorable variance to budget of \$33.0M.

The General Fund YTD total revenue of \$209.8M is favorable to the budget of \$202.7M by \$7.1M. This overall favorable variance is primarily due to investment earnings. The unrealized gain on investment of \$1.3M represents an increase in the current market value of the investment portfolio held by the District. Fluctuations in interest rates are impacting the portfolio's value, however, this increase in portfolio value would only be realized should the District liquidate its portfolio or underlying investments. Favorable Ad Valorem variance is due to timing. Expenditures in the General Fund YTD before overhead allocation are favorable to budget by \$12.6M or 14.5%. Significant categories of favorable YTD budget variances include; salaries, wages and benefits of \$1.6M, purchased services of \$2M, medical services of \$2.2M, repair and maintenance of \$2.2M, and other expense of \$3.4M.

The General Fund YTD has a net margin of \$149.3M versus a budgeted net margin of \$133M, for a favorable net margin variance of \$16.3M or 12.2%. YTD the General Fund has transferred out as subsidy \$79.6M as follows; Medicaid Match \$9.5M, Capital \$43.6M, Skilled Nursing Facility (Healey) \$3.1M, Lakeside Medical Center \$9.7M, and Community Health Centers (Primary Care Clinics) \$13.7M. Transfer adjustment from self insurance fund of \$11.2M into General fund resulted in net total transfer out subsidy of \$68.3M.

i

The Skilled Nursing Facility (Healey Center) total revenue YTD of \$10.1M was favorable to budget by \$322k or 3.3%. This favorable variance is primarily due to reduced contractual allowances. Total YTD operating expenses before overhead allocation of \$11.2M were favorable to budget by \$879k or 7.3%. The YTD net margin after overhead allocations for the Skilled Nursing Facility was a loss of (\$3.6M) compared to the budgeted loss of (\$5.2M) for a favorable variance of \$1.6M or (30.1%).

Lakeside Medical Center total revenue YTD of \$22.3M was favorable to budget by \$3.3M or 17.2%. Net patient revenue YTD of \$21.3M was favorable to budget by \$2.9M or 15.7%. Total operating expenses YTD of \$25.1M were favorable to budget by \$4.2M or 14.5%. The YTD net margin after overhead allocations at Lakeside Medical Center was a loss of (\$9.5M) compared to a budgeted loss of (\$19.7M) for a favorable variance of \$10.2M or (51.9%).

The Primary Care Clinics total revenue YTD of \$12.2M was unfavorable to budget by (\$2M) or (14.3%). Net patient revenue YTD was unfavorable to budget by (\$488k) or (5.9%). This unfavorable variance was primarily due to revenue recognition timing, as well as increased charity and bad debt classification. Total operating expenses YTD for the clinics are favorable to budget by \$5.5M or 21.4%. This favorable variance is primarily due to salaries, wages, and benefits of \$4.7M, medical supplies of \$400k, and other expense of \$202k. The primary reason for savings is timing differences in personnel staffing, and expense timing due to a delay in clinic site moves. Total net margin YTD after overhead allocations for the Primary Care Clinics is a loss of (\$15.1M), compared to a budgeted loss of (\$20M) for a favorable variance of \$4.9M or (24.4%).

Cash and investments have a combined balance of \$347.7M, of which \$4k is restricted. Due from other governments of \$19.1M includes HRSA receivable \$708k, AHCA receivable \$6.9M, other local and federal gov't receivable \$790k, and tax collector receivable of \$10.6M. Total net position for all funds combined is \$406.1M.

1. Description: Local Provider Participation Fund for the Directed Payment Program– Palm Beach County

2. Summary:

This agenda item presents the Board with an overview of the Health Care District of Palm Beach County's ("HCD") role as the administrator of the Local Provider Participation Fund ("LPPF") for the Medicaid Directed Payment Program as requested by the Palm Beach County Board of Commissioners ("PBC").

3. Substantive Analysis:

As background, Florida's Legislature gave AHCA authority to implement the Directed Pay Program ("DPP") through Intergovernmental Transfers ("IGT") in 2021. The County has the opportunity to provide IGTs to support the DPP, which was approved by the Centers for Medicare & Medicaid Services ("CMS"). The Medicaid DPP must be approved by CMS and must also be authorized by the Florida Legislature annually. The Board of County Commissioners initially approved the Ordinance on August 26, 2021 establishing a Local Provider Participation Fund for the DPP to be solely funded by assessments on privately-owned real property zoned as a hospital.

The DPP helps hospitals recoup Medicaid shortfalls by unlocking additional federal funds. The DPP is a local option that allows local governments to establish a non-ad valorem (non-property tax) special assessment that is charged solely to non-public hospitals. Revenue generated through this special assessment is placed into an LPPF and is then matched with federal funds to provide Florida's hospitals with supplemental Medicaid reimbursement. This helps to ensure that the non-federal share is paid by the hospitals, rather than by individuals or businesses with no ties to Medicaid.

The County has requested that the HCD administer the LPPF on behalf of the County in exchange for an administrative fee not to exceed \$300,000 divided equally between the County and HCD. After AHCA finalizes its modeling of the non-federal share needed to fund the DPP, HCD will be required to notify the local hospitals of their respective non-ad valorem assessment amounts and collect the funds in the LPPF. HCD will then be required to enter into a letter of agreement ("LOA") with AHCA and will be required to remit the assessed funds for all the hospitals participating in the LPPF to the state. Any revenue collected in excess of the assessment due to the state will be held in the LPPF

and carried over to the following year. This will be the fifth year of the LPPF program.

 - S \$6.9 billion by improving risk adjustments in Medicare Advantage.
 - \$6.6 billion by preventing Medicare from paying providers for services that hospices are paid to provide for their enrollees.
 - \$1.6 billion by recovering overpayments identified in OIG audits of state Medicaid programs.
 - \$1 billon by preventing duplicate Medicaid payments for individuals enrolled in managed care plans in more than one state.
 - Approximately \$784 million by recovering COVID uninsured funds.

7. The Supreme Court of the United States (SCOTUS) Rules Against Hospitals in Disproportionate Share Hospital (DSH) Case (05/2025)

• In a 7-2 decision, the Supreme Court ruled in favor the Department of Health and Human Services (HHS). Hospitals were suing to dispute how the HHS calculated Medicare DSH Hospital payments.

10. HHS' Office of Inspector General (OIG) Outlines Potential Savings Available via Legislative Action (05/2025)

- HHS-OIG issued a report that outlines \$17 billion in potential cost savings that could be generated if Congress takes action based on their reports. These potential savings include:
 - \$6.9 billion by improving risk adjustments in Medicare Advantage.
 - \$4.9 billion in potential cost savings by ensuring that inpatient hospital stays are appropriately billed.
 - \$2.9 billion in potential cost savings by improving the oversight of hospital billing under the "two-midnight" policy.

11. Senators Introduce Rural Patient Monitoring Access Act in House (Federal) (05/2025)

House senators recently introduced the Patient Monitoring Access Act in the House, which aims to increase patient access to remote monitoring services in rural areas. Typically, these services are reimbursed at low rates, meaning provided in these areas have little incentive to offer them. However, this aims to address the low reimbursement and increase access to care for individuals in rural areas. To achieve this, the bill would use the national average price as the floor for remote monitoring payments, as these areas often have lower rates of reimbursement. Instead, the higher floor would incentivize providers to furnish these remote monitoring services.

12. The Cybersecurity and Infrastructure Agency (CISA) Warns of Vulnerabilities in INFINITT Healthcare INFINITT PAC (04/2025)

- CISA warned of three vulnerabilities that were identified in the INFNITT Healthcare INFINITT PAC. This includes a high-severity vulnerability which already has publicly available exploits that are accessible in simple attacks. This vulnerability would allow an unauthorized user access to internal systems without appropriate authorization and allow them to access system resources. The second vulnerability would allow an attacker to upload arbitrary files via a specific endpoint, which would lead to unauthorized remote code executions or system compromise. The final area of concern could lead an attacker to exploit the vulnerability by uploading arbitrary files via a specific service, which could lead to system compromise.
- These vulnerabilities have been patched by the latest software updates in the system. CISA recommends that facilities should locate control system networks and remote devices behind firewalls and isolate them from business networks. Additionally, when remote access is required, use more secure methods, such as VPNS, recognizing VPNs may have vulnerabilities and should be updated to the most current version available. Also recognize VPN is only as secure as the connected devices.

13. CMS Issues Proposed Rule for FY2026 Skilled Nursing Facility (SNF) Prospective Payment System (04/2025)

• On April 11, 2025, CMS issued a proposed rule that updates payment policies for skilled nursing facilities in fiscal year 2026. For FY2026, CMS has proposed increasing SNF PPS rates by 2.8%.

- For the SNF Quality Reporting Program, the rule proposes removing four standardized patient assessment data elements beginning October 1, 2025, including one item for "living situation," two items for "food," and one item for "utilities."
- For Value Based SNF programs, CMS is proposing to apply the previously finalized scoring methodology of the program to the SNF Within-Stay Potentially Preventive Readmission measure beginning with the FY 2028 year. CMS is providing estimated performance standards for the FY 2028 and FY 2029 program years to comply with the program's statutory notice deadline.
- The rule proposes a reconsideration process that will allow SNFs to appeal CMS' initial decisions for Review and Correction requests prior to any affected data being publicly available.
- CMS is proposing to remove four standardized patient assessment data elements under the Social Determinant of Health category.
- 14. CMS Issues Proposed Rule for FY2026 Inpatient Psychiatric Facility Prospective Payment System (04/2025)
- On April 11, 2025, CMS issued a proposed rule that updates payment policies for the Inpatient Psychiatric Facility Prospective Payment System.
- The proposed rule calls for a price increase of 2.4% for payments made under the IPF PPS. In this proposed rule, CMS is proposing to make changes to quality measures in the IPFQR Program. CMS is proposing to modify the reporting period of one measure – the 30-Day Risk-Standardized All-Cause Emergency Department Visit Following an Inpatient Psychiatric Facility Discharge measure (also referred to as the IPF ED Visit measure) – from a one year, calendar year to a two year, fiscal year period, to bring this measure's reporting period into alignment with another program measure with which it is intended to be comparable. CMS is also proposing to remove four measures, all beginning with the CY 2024 reporting period/FY 2026 payment determination: Facility Commitment to Health Equity; COVID-19 Vaccination Coverage among Health Care Personnel; Screening for Social Drivers of Health; and Screen Positive Rate for Social Drivers of Health.
- CMS is seeking input on future measure concepts on the topics of well-being and nutrition. Additionally, CMS is requesting information on potentially using Fast Healthcare Interoperability Resources standards for IPFs reporting patient assessment data to CMS.

- 15. CMS Issues Medicare Hospital Inpatient Prospective Payment System (IPPS) and Long-Term Care Hospital Prospective Payment System ("LTCH PPS") Proposed Rules for FY2026 (04/2025)

- IPPS payment rates for general acute care hospitals that successfully participate in the Hospital Inpatient Quality Reporting (IQR) program and are meaningful electronic health record (EHR) users under the Medicare Promoting Interoperability Program is projected to be 2.4%.
- This would increase increase hospital payments by \$4 billion. This includes a projected increase in Medicare uncompensated care payments to disproportionate share hospitals in FY 2026 of approximately \$1.5 billion.
- The LTCH standard payment rate would increase by 2.6%.
- CMS is seeking comments on the anticipated approach to FHIR-based electronic clinical quality measure) reporting in quality reporting programs and the potential use of FHIR-based patient assessment instrument reporting for inpatient psychiatric facilities.

18. OIG Audit Finds State Survey Agencies Need Additional Guidance to Assess Nursing Home Emergency Preparedness Programs (03/2025)

- Following issues with nursing home failures, such as during Hurricane Ida, the OIG has recently focused on nursing home emergency preparedness. CMS often contracts with State survey agencies to perform reviews to determine whether these facilities are in compliance with Medicare and Medicaid requirements, including rules related to emergency preparedness.
- 25 percent of State survey agencies reported that new hires usually lack emergency preparedness expertise when hired, as well as difficulty building and retaining this expertise. Additionally, it was found that CMS program guidance is focused more on collecting documents to demonstrate compliance, as opposed to the actual review of the content of those documents for compliance.
- The OIG issued two recommendations as a result of the audit, both of which CMS concurred with. This includes providing surveyors with instructions for how to assess

the contents of emergency preparedness documentation as part of the survey process and issuing guidance that encourages State survey agencies to collaborate and share information.

- Incorporate lessons learned from incidents into the organization's overall security management process.
- Provide workforce members with regular HIPAA training that is specific to the organization and to the workforce members' respective job duties.

These prescriptions were for excessive quantities of opioids, opioid prescriptions filled early, and prescriptions that were frequently abused in combination with other drugs. Walgreens pharmacists allegedly filled these prescriptions despite red flags that these prescriptions were invalid and lacked a legitimate medical purpose or were otherwise not issued in the normal course of business practice. Further, Walgreens is alleged to have pressured pharmacists to fill prescriptions quickly and without verifying that each prescription was lawfully issued. Compliance officials allegedly ignored evidence that stores were dispensing unlawful prescriptions and intentionally hid relevant information from pharmacists, such as refusing to share internal data regarding prescribers and preventing pharmacists from warning one another about problematic practitioners.

Overall, these payors paid over \$2.3 for the medically unnecessary Goody Bags. Dr. Anand also conspired to distribute Oxycodone outside the usual course and scope of professional practice and without a legitimate medical purpose. Unlicensed medical interns wrote prescriptions for controlled substances using blank prescriptions that were presigned by Dr. Anand. Over 20,850 Oxycodone pulls were prescribed to nine different patents as part of the scheme. Once he learned he was under investigation, Anand aimed to conceal the money made from the scheme by transferring \$1.2 million into an account of his father and for the benefit of his daughter. - In December 2018, OCR initiated an investigation following receipt of a breach report filed by Warby Parker. The report stated that in November 2018, Warby Parker became aware of unusual, attempted log-in activity on its website. Warby Parker reported that between September 25, 2018, and November 30, 2018, unauthorized third parties gained access to Warby Parker customer accounts by using usernames and passwords obtained from other, unrelated websites that were presumably breached. This type of cyberattack is often referred to as "credential stuffing".
- In September 2020, Warby Parker filed an addendum to its December 2018 breach report, updating the number of individuals affected by the breach to 197,986. The compromised ePHI included customer names, mailing addresses, email addresses, certain payment card information, and eyewear prescription information. Warby Parker also filed subsequent breach reports (each breach report affecting fewer than 500 persons) in April 2020, and June 2022, following similar attacks. OCR's investigation found evidence of three violations of the HIPAA Security Rule, including a failure to conduct an accurate and thorough risk analysis to identify the potential risks and vulnerabilities to ePHI in Warby Parker's systems, a failure to implement security measures sufficient to reduce the risks and vulnerabilities to ePHI to a reasonable and appropriate level, and a failure to implement procedures to regularly review records of information system activity.
- In September 2024, OCR issued a Notice of Proposed Determination seeking to impose a \$1,500,000 civil money penalty.  Baptist Medical Center South agreed to pay \$290,000.00 as part of a settlement agreement with the OIG. The first violation occurred in October 2020, when a patient presented via ambulance after having been found to have suicidal tendencies. The patient denied suicidal ideation and indicated he stopped taking his medications and was depressed, at which time he requested to speak to a psychiatrist. The ED physician examined the patient and noted the history of bipolar disorder, depression, anxiety, and schizophrenia, before ordering a psychiatric consultation. A suicide risk assessment indicated the patient was "high

risk" and initiated suicide interventions, including a bedside attendant. The patient refused to change into scrubs and eloped from the hospital without receiving the psychiatric consultation, despite being under constant observation.

- The second instance occurred in May 2021, where a patient arrived via ambulance after being found unresponsive in a parking lot. The ED physician diagnosed the patient with acute psychosis and ordered a psychiatric consultation. The patient had a history of bipolar disorder and had not taken his psychiatric medication. Prior to receiving a psychiatric examination, the patient left the ED against medical advice and refused to sign the required AMA form. ED staff failed to explain the risks and consequences of leaving the ED to the patient and failed to determine whether the patient had the capacity to leave the ED. Later that night, the patient was hit by a car while walking and brought back to the ED with rib fractures, a collapsed lung, and bruises and lacerations.
- The third instance occurred in May 2021, when a patient presented with plans to overdose. An ED physician examined the patient and diagnosed er with suicidal ideations and depression. The patient had a history of bipolar disorder, alcohol abuse, and previous suicide attempt. This patient was classified as "high risk" under the suicide assessment. A urine drug screening returned positive for controlled substances. An on-call psychiatrist recommended inpatient psychiatric treatment. Approximately 24 hours after presenting, the patient was administered Celexa. Approximately 90 minutes later, the patient left the ED AMA, prior to receiving stabilizing treatment. ED staff failed to determine whether the patient had the capacity to leave AMA.

1. Description: Competitive Bid Award for External Audit Services

2. Summary:

This agenda presents the Board and Finance and Audit Committee with the recommendation to engage RSM US, LLP as the Health Care District (HCD) External Auditor at their five-year bid of \$2,460,000.

3. Substantive Analysis:

In accordance with the District's Purchasing Policy, a competitive, qualifications-based selection process was conducted. Two (2) firms submitted proposals, while a third, firm declined to participate. A Request for Proposal (RFP) was issued on April 8, 2025 requesting that qualified and experienced public accounting firms submit proposals to serve as the independent external auditors for the District. The engagement includes auditing financial statements of the District, along with its affiliates and subsidiaries, for the fiscal year ending September 30, 2025, as well as for each of the four (4) subsequent fiscal years.

The Evaluation Committee ranked RSM US, LLP as the most qualified firm for this contract. The evaluation criteria included; costing (25 points), firm related questions (5 points), qualifications and program experience (40 points); and proposed staff (30 points).

The proposal from RSM US, LLP ("RSM") states that they maintain a national practice that serves more than 3,000 health care clients, including hospitals, health systems, academic medical centers, medical clinics, physician groups, dental groups, dialysis centers, nursing homes, home health agencies, senior housing facilities and medical technology companies. RSM serves more than 500 governmental clients nationally with government being the single largest industry they serve in Florida. Additionally, RSM serves as the auditors for three other independent Florida special taxing health care districts.

The District will be served by the RSM's Palm Beach County office, therefore, the firm is available to District management on a year-round basis, to work closely with the District and to address issues in District operations as they arise. RSM will contribute its dedicated resources and extensive experience working with both health care and governmental entities for the benefit of the District. It was clear when reviewing the

proposals that RSM, was the most qualified entity to perform the complex audit services of the Health Care District.

1. Description: Epic Electronic Health Record Host Replacement for the Community Health Centers

2. Summary:

On February 21, 2025, the Health Care District of Palm Beach County received formal termination notice from Memorial Healthcare System. As a result, we must fully transition our ambulatory Federally Qualified Health Center (FQHC) clinics off Memorial's Epic Connect instance by February 2026, and the hospital must be transitioned by August 2026.

3. Substantive Analysis:

Following a comprehensive evaluation—conducted with the support of Himformatics, an IT consulting firm, and with direct input from Epic—we confirmed that the District is not large enough to support a direct Epic implementation and too complex to be adequately served by a single Epic Connect partner that could meet the distinct needs of both our FQHC and hospital environments.

To ensure continuity, compliance, and sustainability, the Health Care District recommends the selection of Health Choice Network (HCN) as our Epic Connect partner for ambulatory EHR services across our FQHC clinics. HCN is a consortium of Health Centers, serving 59 safety net organizations across the country. It should be noted however, that HCN did not have the EPIC relationship when HCD first made a decision to move forward with EPIC for the Community Health Centers. This decision reflects a right-sized, mission-aligned approach tailored to the unique requirements of community health organizations based on the following key points:

Proven FQHC Alignment

HCN has extensive experience supporting the operational, regulatory, and reporting needs of FQHCs, including UDS, 340B, and value-based care performance.

Epic Connect Model

HCN offers a hosted Epic environment designed specifically for ambulatory community health, delivering coordinated care without the cost and complexity of a full Epic build.

Shared Governance & Collaboration

As a member-led organization, HCN fosters peer collaboration, best practice sharing,

and transparent governance-benefits that strengthen the entire network.

Integrated, Scalable Technology

The HCN Epic platform includes built-in reporting tools and interfaces that support FQHC population health, telehealth, care management, and grant compliance.

Cost-Effective and Mission-Aligned

HCN's pricing model provides access to enterprise-grade tools at a sustainable cost, supporting our mission to serve underserved communities.

Streamlined Implementation and Support

HCN brings a proven onboarding model with dedicated project management, training, and provider support–accelerating readiness and adoption.

Financial Planning & Operational Efficiencies

Here is the current cost projection model for HCN Epic Connect over the next five years:

It is anticipated that initial implementation fees will be incurred in FY2025 of approximately \$1.1M and will be paid from budget savings in this year. Fiscal year 2026 is projected to cost approximately \$1.8M with volume assumptions made for future years that have stabilized annual costs around \$3M annually. This cost is favorable to the current bundled costs with Memorial.

As we continue to adopt more of HCN's value-added services—such as infrastructure support, reporting, training, and analytics—we anticipate a reduction in internal IT

administrative and operational costs. This will allow us to streamline internal resources, reduce system complexity, and reallocate IT capacity toward higher-value, patient-focused initiatives.

At the same time, we acknowledge additional upcoming costs associated with the spindown of our current Epic Connect environment through Memorial Healthcare System (MHS). These include:

- Revenue cycle runoff
- Claims processing
- Long-term data archiving for compliance and clinical continuity

We are actively gathering estimates and defining the scope and resource requirements for both the MHS spin-down and the parallel hospital Epic Connect transition to a separate Epic Connect partner.

A complete cost model and operational impact assessment for both transitions will be presented alongside the FY26 budget at the next Board meeting.

1. Description: Purchase and Sale Agreement – 4801 S Congress

Purchase and Sale Agreement (PSA) between the District and BD 4801, LLC ("Seller") for 2.86 acres of improved real property located at 4801 S Congress Avenue

2. Summary:

The property is located at 4801 S Congress Avenue, between the major thoroughfares of Lake Worth Road to the North and Lantana Road to the South. A comprehensive pre-purchase due diligence review was completed which consisted of; 1) Property Condition Assessment, 2) Phase 1 Environmental Assessment, 3) Zoning Report, and 4) two Appraisals. The findings supported the purchase of the improved property. There are two material findings. First, there is an open elevator violation for an issue with the lighting not functioning while under emergency generator power which will be completed by the Seller prior to closing and therefore will be of no further issue to the District. Second, during the Phase 1 Environmental it was noted that there is one Historical Recognized Environmental Condition ("HRECs") from 1994 related to a diesel fuel leak from a faulty shut off valve for an underground fuel tank that feeds the generator on the roof of the medical office building. The underground tank was removed and replaced with an above ground tank and remediation was complete with soil and ground water testing showing no remaining contamination between 1998 and 2007. The Site Rehabilitation Completion Order was closed on February 28, 2008 with no additional assessment needed. Additional information can be found in the Environmental Section 2.7 of Exhibit 1.

HCD has negotiated a purchase price of \$14,500,000 with up to \$250,000 contribution toward seller's closing costs .The average of the two appraisals performed on the Property is \$13,750,000. The negotiated purchase price is \$14,500,000 or 5% above appraised value. There are no hypothetical conditions or extraordinary conditions, and the Property does not require a land use change for the District's use.

As required by LEG 1000, the key terms of the purchase and sale agreement include: 1) the property interest will be conveyed via a General Warranty Deed in as-is, where-as condition, 2) the Seller being responsible for all costs associated with documentary stamp tax, curing of any title defects or encumbrances, one-half (1/2) of escrow/closing fees charged by the escrow agent and recording any closing documents, and 4) the District being responsible for the cost of the survey, title

commitment and search, title insurance and one-half (1/2) of escrow/closing fees charged by the escrow agent.

Closing will take place when: 1) Seller has provided the District with written evidence satisfactory to the District that all requirements of the elevator light violation has been met. 2) Seller has performed all of the covenants and obligations, 3) all representations and warranties identified are true and correct, and 4) the title company is ready, willing and able and irrevocably committed to issue a title policy in the face amount of the purchase price. If any of these conditions are not fulfilled by June 25, 2025, then the District shall have the right to; 1) terminate the agreements, or 2) waive such unsatisfied condition and proceed to closing of the transaction. In the event of a default by the Seller, the District shall have the right to; 1) terminate the Agreement, 2) grant Seller a reasonable amount of time to cure the default, or 3) seek specific performance. In the event of a default by the District a reasonable amount of time to cure the default have the right to terminate the PSA or grant the District a reasonable amount of time to cure the default.

This item was considered by the Finance and Audit Committee("Committee") on May 21, 2025 (see Exhibit 3) and the Committee unanimously recommended approval by the Board.

3. Substantive Analysis:

The Atlantis Community Health Center is the Health Care District's (HCD) newest and largest Federally Qualified Health Center. This flagship FQHC boasts 26,283 square feet and spans three floors (1-3) of the four-story building with a total building size of 35,588 square feet.

The HCD's currently leased space has undergone an extensive fifteen-month buildout to like-new condition. The landlord and HCD combined investments is over \$3 million. HCD currently occupies 74% of the rentable space in this building with one additional tenant occupying the fourth floor. It sits on a 2.86 acre parcel that is adjacent to John Prince Park and only 0.3 miles from JFK Hospital and many other health-related services. This facility is easily accessed from I-95 and the Turnpike via Lake Worth Rd. It is also located on a major bus route that services Congress Avenue.

The tenant on the 4th floor currently has a 5 year lease on the space that will generate \$1.9 million during this lease term. This contemplates that the tenant does not exercise their 5 year renewal option. If renewed for an additional 5 year term it would result in

additional rental income and contribution toward building operating expenses. Additionally, there is a cell phone tower that will generate approximately \$29 thousand per year during the current 5 year lease term.

After completing due diligence and analyzing the existing 10 year financial lease commitment under the current rental agreement as well as the future rental revenue, the payback period for the investment will be 8.5 years. The proposed purchase provides for 1.5 years of rental cost savings from the original 10 year lease.

Exhibit 1 to this agenda item includes: 1) narrative/project description, 2) copies of appraisals, location maps, surveys, environmental reports, zoning reports, condition assessments and any other pre-purchase due diligence utilized to determine valuation, 3) identification of transaction parties, 4) disclosure of representatives including brokers, land planners, lobbyists, consultants, etc., 5) disclosure of any contemplated land use, zoning, or pending development applications, 6) discussion of valuation issues, 7) summary of negotiation history.

	Current FY Amounts	Total Amounts (Current + Future)	Budget
Capital Requirements	\$15,000,000 ¹	\$15,000,000 ²	Yes 🗌 No 🔀

4. Fiscal Analysis & Economic Impact Statement:

Currently, the District has an annual rent and common area maintenance (CAM) expense of approximately \$958,000 for the Atlantis property. Upon ownership, the District will no longer incur rent and CAM expenses. The annual building operating expenses will be approximately \$115,000, representing an estimated annual operating savings of \$843,000.

¹ Amount in reserves to purchase the Atlantis site and approved by Board on April 03, 2025

² Any additional capital expenditures to repair and maintain the property will be requested as part of the FY26 budget process subject to Finance and Audit Committee and Board approval

Annual rental and CAM payments from existing tenants is estimated at \$412,000. The District will take on landlord responsibilities for the existing tenants and will incur expenses related to building repair and maintenance in tenant leased spaces. Any tenant security deposits will be held by the District.

1.0 Project Description

The Atlantis Community Health Center is the Health Care District's (HCD) newest and largest Federally Qualified Health Center. This flagship FQHC boasts 26,283 square feet and spans three floors (1-3) of the four-story building with a total building size of 35,588 square feet.

The tenant on the 4th floor currently has a 5 year lease on the space that will generate \$1.9 million during the lease term. Additionally, there is a cell phone tower that will generate approximately \$29 thousand per year during the current 5 year lease term.

After completing due diligence and analyzing the existing 10 year financial lease commitment under the current rental agreement as well as the future rental revenue, the payback period for the investment will be 8.5 years. The proposed purchase provides for 1.5 years of rental cost savings from the original 10 year lease.

2.0 General Site Description. The subject property is a 35,588 square foot four-story medical office formally known as JFK Medical Plaza. The improvements were constructed in 1984 and renovated in 2023-2024. As of the effective appraisal date, the subject property is 100% leased to two tenants, The Health Care District of Palm Beach County and The Florida Cancer Specialist and Research Institute. The Health Care District of Palm Beach County occupies 26,283 square feet on floors one through three through February 28, 2035. The Florida Cancer Specialist and Research occupies approximately 9,300 square feet on the fourth floor through October 31, 2030. Overall, the average weighted lease term (WALT) of the subject property is considered strong, at eight years and 11 months. The subject site offers surface lot parking at a ratio of 5.1 spaces per 1,000 square feet of rentable area, or 182 parking spaces. The total site area is 2.86 acres, or 124,582 square feet.

2.1 Land Use and Zoning. The Atlantis property is located in the Village of Palm Springs and has a land use of Medical Office with a Commercial General (CG) zoning district. Per land development code 34-822 and 34-792 medical office use is permitted by right within CG District.

The Atlantis property use is considered to be legal conforming. The property improvements are considered to be legal non-conforming. Please note, as confirmed by

Chris Melendez, Palm Springs Planning, Zoning, and Building Department, the property was annexed into the Village of Palm Springs in December 2016 as a developed parcel; therefore, it may not meet all of the Village's current "CG" zoning district standards. Any aspect of the property that does not meet current code regulations is legally nonconforming. This is due to the building was built to code with a height of 55 feet prior to being annexed into the Village of Palm Springs with a height restriction of 45 feet. The current height restriction may prevent the District from adding another structure at the same height or to rebuild the structure to the same height if the building was demolished.

2.2 Parking. The parking requirement for Medical Office is 1 parking space per 200 sf of gross floor area. This would equate to 178 parking spaces. Current number of parking spaces at this site is 182 and meets the parking requirements. The 182 parking spaces consists of 168 regular spaces and 14 handicapped parking spaces.

2.3 Access and Traffic. The primary north/south thoroughfares through the neighborhood include Congress Avenue, Military Trail, and Haverhill Road, which handle the majority of the local traffic. Interstate 95 provides excellent access to all of Florida's east coast. The major east/west thoroughfares through the Subject neighborhood are 10th Avenue North, 6th Avenue South/Melaleuca Lane, Lake Worth Road, and Lantana Road. Most of these thoroughfares have access to Interstate 95 and extend from U.S.

Highway 1 to the western extremes of the County. Lake Worth Road provides access to Florida's Turnpike and extends from Ocean Avenue to beyond State Road 7 (U.S. Highway 441).

2.4 Public Transportation. There are public transportation lines available within walking distance on S Congress Avenue. The nearest Palm Tran stop southbound is located directly in front of this property. The nearest stop northbound is one block to the north of this property.

2.5 Water Management/Drainage. The Atlantis Site is located within the jurisdiction of South Florida Water Management District (SFWMD) and the Lake Worth Drainage District (LWDD).

Stormwater and Surface Water Drainage is removed from the subject property primarily by sheet flow action across the paved surfaces towards stormwater drains located on the property and in the public right of way. On-site stormwater drains discharge to municipal owned and maintained storm sewer system. No drywells were identified on the subject property. The closest water retention area is .10 miles to the northwest.

Flood zone data summary for this property from FEMA shows Zone X, defined as minimal risk areas outside the 1- percent and 0.2-percent-annual-chance floodplains, and Zone AE, defined as areas subject to 100-year flood.

This property does not appear to be a designated wetland area based on information obtained from the United States Fish and Wildlife Service (USFW); however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

2.6 Utilities. Electric, drinking water, storm water and sanitary sewer are provided by City of Lake Worth Beach. Meters for electricity are divided by floor and are located in the main electrical room on the ground floor.

2.7 Environmental. Based on a Phase 1 Environmental Assessment conducted by Partner Engineering, there are no Recognized Environmental Conditions (RECs) or Controlled Recognized Environmental Conditions (CRECs) that would trigger a need for a Phase 2 Environmental Assessment.

Partner Engineering found one Historical Recognized Environmental Condition (HRECs), and one Business Environmental Risk (BERs). Partner recommended no additional investigation as part of Phase I ESA activities of this property at this time. Recommendations for Phase II ESA or other assessment activities are specifically not required by ASTM E1527-21. A complete copy of the Phase 1 Environmental Assessment is an attachment to the attached.

The BER identified is as follows. Due to the age of the subject property building, there is a potential that asbestos-containing material (ACMs) are present. Should the identified suspect materials become damaged, be removed, or be replaced, the identified suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.

The HREC identified is as follows. The subject property was formerly improved with one 550-gallon underground storage tank (UST), utilized from 1984-1998 for the storage of emergency generator diesel fuel. The UST supply lines ran to a day tank on the subject building roof, which is where the emergency generator itself was (and still currently is) located. Due to a faulty shut-off valve, an overflow of the day tank occurred in 1994, resulting in diesel fuel being discharged to a roof drain, which in turn discharged to the subject parking lot and stormwater drain system to the south of the building. The available free product was removed from the roof, parking area, and storm drains. Following report of the discharge, the Florida Department of Environmental Protection (FDEP) and Palm Beach County Environmental Resource Management (PBC-ERM) required that an assessment be conducted in order to determine if the release had adversely impacted the subsurface of the subject property. Soil and groundwater assessment was conducted in 1995, the results of which indicated that soils had not been adversely impacted, but that the shallow groundwater exhibited reportable concentrations of petroleum hydrocarbons above the Groundwater Cleanup Target Levels (GCTLs), which are specified in Chapter 62-770 of the Florida Administrative Code (FAC). Following the initial assessment, it appears that a remedial action plan was prepared but not implemented. The subject UST was removed from the property in 1998 without any reportable impacts; the tank closure information and associated soil/groundwater laboratory data was reviewed and deemed acceptable by the FDEP and ERM. The release case was not further addressed until 2007, when follow-up soil and groundwater assessment indicated that reportable impacts were no longer present onsite. Following review, the FDEP and ERM deemed that no further action would be necessary to address the release case. A Site Rehabilitation Completion Order (SRCO) was issued for the subject property's 1994 discharge dated February 28, 2008. All associated groundwater monitoring wells Phase I Environmental Site Assessment Project No. 24-471682.1 January 3, 2025 Page iv were subsequently closed and abandoned. Based on the removal of the UST without reported impacts in 1998 and the issuance of a full regulatory closure in 2008 for the 1994 release case, these items are considered to constitute an HREC on the subject property. It does not appear that any further assessment in the former UST area or the area impacted by the overflow release are warranted at this time.

2.8 Summary of Extraordinary/Site Specific Costs at Atlantis Site. The Atlantis property was inspected by Partner Engineering and Science and a property condition report (PCA) was issued on January 03, 2025. The assessment was performed in accordance with ASTM E2018-24 "Standard Guide for Property Condition Assessments: Baseline Property Condition Assessment Process". The purpose of this PCA was to observe and document readily visible materials and building system defects that might significantly affect the value of the subject property, and determine if conditions exist which may have a significant impact on the continued operation of the facility during the evaluation period.

Partner Engineering reported that based on the systems and components observed during the site visit, the subject property appeared to be in good condition. The overall level of preventative maintenance appeared to be good and there were no issues observed or reported that indicate the need for additional investigations. No extraordinary costs were reported. Partner Engineering did provide a cost opinion for short term or immediate cost for repairs or deferred maintenance and additional long term repair costs for such items as parking lot repairs, roof repairs, elevator repairs, etc. This is calculated at \$0.72 per square foot.

Short Term Cost Summary

3.0 Purchase Price Discussions and Appraisals. Staff was first contacted by the broker to let the District know that the owner of the Atlantis Site is looking to sell the property in September of 2024. The Seller is BD 4801 LLC the brokers are Mark Rubin, Executive vice President, Colliers South Florida Investment Team and BorLuv, Inc. No other brokers are involved in this transaction nor were any lobbyists involved. The assessed value is \$5,000,000 and the Seller acquired the parcel in June of 2021 for \$5,765,000. The appraisal from Partner Valuation Advisors suggests the property would have a property re-assessment of \$11,200,000 with change of ownership. The Seller indicated that he had been entertaining another offer but was holding action on that offer pending buyer financing. The seller indicated an asking price of \$15,000,000. Pre purchase due diligence was started in September of 2024.

3.1 Appraisals The District's Land Acquisition Policy requires two appraisals for a transaction of this value. The District contracted with Callaway & Price, Inc ("Callaway"), and Partner Valuation Advisors ("Partner"), for appraisal services. Both Callaway and Partner appraised the market value of fee simple ownership with no hypothetical or extraordinary conditions. Market Value is defined as "the most probable price which a property should bring in a competitive and open market under all conditions requisition to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus"

The scope of work for the appraisals generally included the following:

- Identification of the appraisal which includes the purpose or date of value, the interest be appraised, identifying the real estate (legal description) of the property and whether the appraisal is subject to any hypothetical or extraordinary conditions.
- Inspection of the property, data collection process, analysis of the factors that affect market value.
- Determination of highest and best use of the property.
- Application of the appropriate approaches or the valuation.

Both appraisers determined the highest and best use for the property was Medical Office and both used the sales comparison method of valuation.

See table below for appraisal results.

Appraiser	Market Value
Callaway and Price	\$13,500,000
Partner Valuation Advisors	\$14,000,000
Average Price	\$13,750,000

3.2 Negotiations. The District's initial offer was based on the average of the two appraisals in the amount of \$13,750,000. The asking price of \$15,000,000 is 9% above the average of the two appraisals. The seller countered with \$14,840,000 and indicated that they had another offer on the table and that the other buyer has secured financing. The seller's counter offer was based on that other offer and a premium to walk away from the other offer.

At that time, staff requested additional information regarding the other offer. Seller shared that the offer was \$14,450,000 with no broker fees worth approximately \$250,000 for a total package of \$14,700,000.

The District then offered \$14,450,000 and \$250,000 contribution toward seller's closing costs for a total of \$14,700,000. The seller did not accept this offer and countered with their best and final price of \$14,500,000 with \$250,000 contribution toward seller's closing costs on April 28, 2025. This price was accepted by the District.

3.3 Value" to the District Relative to the Strategic Facility Plan. The acquisition of this property would provide long term cost savings for the district with a payback period for the investment of approximately 8.5 years. This property meets the current needs of the District and its flagship community health center occupying 26,283 square feet on the first three floors. The tenant on the 4th floor currently has a 5 year lease on the space that will generate \$1.9 million during the lease term. Additionally, there is a cell phone tower that will generate approximately \$29 thousand per year during the current 5 year lease term.

It also provides future development/expansion capacity on the 4th floor consisting of approximately 9,300 square feet. This site allows for more flexibility for any changing programmatic needs and operational effectiveness. This purchase supports the District's policy to move to District owned land/buildings for financial and programming reasons and it supports future co-location of compatible uses in order to realize cost savings on eliminating duplicated infrastructure and operational expenses.

4.0 Conclusion: The average of the two appraisal value is \$13,750,000 and the purchase price is \$14,500,000 with a contribution of \$250,000 toward the seller's closing costs. Staff believes it is in the best interests of the District in terms of furthering its strategic facility objectives, to move forward with the purchase of the 4801 S Congress Avenue property with the corresponding purchase and sale agreement.

The District shall have until the later of (i) ten (10) days after receipt of both the Title Commitment and the Survey, or (ii) the end of the Inspection Period, whichever is later, in which to review same and notify Seller and the Title Company in writing of any matters shown in the Title Commitment or the Survey that are objectionable to District ("**Title Objections**"). On or before the fifth (5th) business day following Seller's receipt of District's Title Objections (the "**Seller Response Period**"), Seller or its attorneys shall notify District in writing whether Seller elects to cure such objections (and Seller's failure to timely provide such a notice shall be deemed an election by Seller not to cure any such objection). If Seller notifies District that Seller does not elect to cure any Title Objection, or if Seller is deemed to have elected not to cure any such objection, then District may terminate this Agreement by notice to Seller within five (5) business days after Seller's response or the expiration of the Seller Response Period, as applicable, whereupon the Deposit shall be refunded to District immediately and, upon receipt of the Deposit by District, neither party hereto shall have any further obligations hereunder, except as expressly

Commitment raises exceptions to title or Survey and were not caused by District, then District shall have the right to notify Seller and the Title Company in writing of any such matters that are objectionable to District ("Additional Title Objections") not later than three (3) business days after District receives the updated Title Commitment or the updated Survey, or District shall be deemed to have waived such new exception or survey matter which shall therefore be deemed to be a Permitted Exception. Seller shall have the same obligations with respect to any Additional Title Objection as provided under Section 6(a) and Seller's response shall be given within three (3) business days after receipt of District's notice of Additional Title Objections (the "Seller Update Response Period"). If Seller elects not to cure (or is deemed to have elected not to cure) any Additional Title Objections (subject to Seller's obligations with respect to Mandatory Cure Liens), District's sole remedy in such event shall be to either (i) accept title to the Property subject to such Additional Title Objections without reduction of the Purchase Price or (ii) terminate this Agreement by written notice to Seller delivered within three (3) business days after (a) receipt of written notice from Seller that it is unable or unwilling to cure such Additional Title Exception or (b) the expiration of the Seller Update Response Period if Seller does not provide a response within such period, whereupon the Deposit shall be refunded to District immediately and, upon District's receipt of the Deposit, neither party hereto shall have any further obligations hereunder, except as

expressly set forth herein to survive the termination of this Agreement. The scheduled Closing Date shall be extended, if and to the extent necessary, to allow the same periods of time for delivering and responding to any such further notice of Additional Title Objections pursuant to this Section 6.

(c) From and after the Effective Date of this Agreement, Seller shall take no action which would impair or otherwise affect title to any portion of the Property, and shall record no documents in the Public Records which would affect title to the Real Property, without the prior written consent of the District, which may be withheld in its sole and absolute discretion.

expiration of the DD Disclosure Deadline). However, Seller will not be required to obtain District's consent to any Service Contracts entered into after the DD Disclosure Deadline that can be and will be terminated effective as of the Closing without cause or penalty. District shall have the right, prior to the expiration of the Inspection Period, to deliver to Seller a notice of a list of Service Contracts that District elects to assume (collectively, the "Assumed Contracts"). District shall have the right to disapprove a Tenant Estoppel Certificate for any of the following reasons within five (5) Business Days after District receives such executed Tenant Estoppel Certificate (and the Closing Date may be extended accordingly to accommodate such objection period): (a) it contains information that is materially and adversely inconsistent with the due diligence materials provided to Purchaser via email to tmegiver@hcdpbc.org as of the DD Disclosure Deadline or the representations and warranties set forth in this Agreement or any closing documents; (b) it contradicts any material term or provision of the applicable Lease; (c) it identified or references a default by Seller or tenant under the Lease; (d) it assert any other ongoing dispute with Seller; (e)

Seller's prorata share of all taxes and assessments shall include the day of Closing.

(b) <u>Assessments</u>. If as of the Closing Date, assessments or charges have been imposed against the Property or any part thereof which are, or which may become payable in annual installments, the first installment of which is then a charge or lien, or has been paid, then for the purposes of this Agreement, all of the unpaid installments of any such assessments accrued through the Closing Date, shall be deemed to be due and payable and to be a lien upon the premises affected thereby, and shall be paid and discharged by the Seller on or before the Closing Date. Any other assessments not deemed to be due and payable as aforesaid which burden District owned property shall be deemed to be payable on a calendar year basis in arrears and prorated accordingly.

(c) <u>Items to be Apportioned</u>. The following items shall be apportioned on a per diem basis at the Closing as of 11:59 p.m. on the night immediately preceding the Closing Date:

(i) Rents, operating costs, taxes and other charges paid or payable under the Leases but only to the extent actually collected and received by Seller, subject to Section 11(k) below;

(d) <u>Security Deposits</u>. (e) **Delinquent Rents.** Any amounts received by District or Seller with respect to any Lease after the Closing Date shall be applied, after payment of reasonable costs of collection actually incurred, <u>first</u>, to any then amounts due under such Lease for any month following the month in which the Closing Date occurred; <u>second</u>, to amounts due for the month in which the Closing Date occurs in the inverse order of maturity such that the most recent past due rents are paid first. To the extent District receives any such amounts relating to periods prior to the Closing Date, District shall hold the same in trust for Seller's benefit and shall promptly deliver the same to Seller. To the extent Seller receives any such amounts relating to periods from and after the Closing Date pursuant to the preceding sentence, Seller shall hold the same in trust for District to District. (f) <u>Leasing Commissions and Tenant Improvement Allowances</u>. From and after the Closing Date, any tenant improvement costs, tenant inducement costs, leasing commissions or other leasing costs (including, without limitation, reasonable attorneys' fees) paid or payable in accordance with (i) the exercise, on or after the Closing Date, of any extension or expansion option under any Lease in effect prior to the Closing Date, and (ii) any new lease, or amendments or modifications of existing Leases, entered into on or after the Closing Date by District, shall be the responsibility of District. At Closing, District shall receive a credit from Seller for any leasing commission, unfunded tenant improvement allowance or other Leasing Costs outstanding at Closing pursuant to the current term of any of the Leases in effect as of the Effective Date.

(g) <u>Meter Readings</u>. If there are water, gas or electric meters located at the Property in Seller's name, Seller shall use commercially reasonable efforts to obtain readings thereof as of a date not more than five (5) Business Days prior to the Closing Date and the unfixed water rates and charges, sewer taxes and rents and gas and electricity charges, if any, based thereon for the intervening time shall be apportioned on the basis of such last readings (except to the extent payable by the tenant under the applicable Lease). If such readings are not obtainable by the Closing Date, then, at the Closing, any water rates and charges, sewer taxes and rents and gas and electricity charges which are based on such readings shall be prorated based upon the per diem charges obtained by using the most recent period for which such readings shall then be available

(except to the extent payable by the tenant under the applicable Leases). Upon the taking of subsequent actual readings, the apportionment of such charges shall be recalculated and Seller or District, as the case may be, promptly shall make a payment to the other based upon such recalculations.

(i) **Insurance Premiums.** No insurance policies of Seller are to be transferred to District, and no apportionment of the premiums therefor shall be made.

(j) <u>**Capital Expenditures**</u>. At Closing, District will take possession of the Property in its current "AS IS" condition, fully aware that capital expenditures or necessary repairs may be required. These responsibilities will be assumed by the District upon Closing.

(k) **Proration of Reimbursable Tenant Expenses**. With regard to the Leases pursuant to which the tenants thereunder are responsible for paying operating expenses, including real property taxes, insurance and common area expenses ("**Operating Expenses**") and a protocol is included for estimation by landlord of each year's expenses (and payment by tenant of the estimated amount in monthly installments), the parties agree to reconcile any Shortfall (as hereinafter defined) or Overage (as hereinafter defined) for the calendar year 2025 through the Closing Date in accordance with the following subsections (i) and (ii) at Closing. As used herein, "**Shortfall**" means those sums (if any) that tenants owe the landlord under the Leases for additional Operating Expenses for a specified calendar year, after crediting the tenants with such monthly payments made for that year. An "**Overage**" means those sums (if any) that landlord owes the tenants for Operating Expenses for a specified calendar year, after crediting the tenants with such monthly payments made for that year.

(i) On or before the date that is seven (7) Business Days prior to the Closing Date (or as soon thereafter as reasonably practicable), Seller will deliver to District a statement (the "**Preliminary Reimbursement Statement**") for the Property, and other supporting documents that are necessary or appropriate in District's reasonable discretion, showing (a) the actual Operating Expenses incurred by Seller during the 2025 calendar year through the month prior to the date of such Preliminary Reimbursement Statement (based upon the most accurate information then available to Seller); (b) the Operating Expenses payments for the 2025 calendar

year received by Seller from each tenant under the Leases through the month prior to the date of such Preliminary Reimbursement Statement (only payments received for 2025 will be included; payments for a prior period or that constitute reconciliation payments for a prior period will not be included); (c) each tenant's share (pursuant to its Lease) of the actual Operating Expenses incurred by Seller during the 2025 calendar year; (d) the amount, if any, of the Shortfall or Overage with respect to each tenant for 2025 through the month prior to the date of the Preliminary Reimbursement Statement, taking into account, however, any base year amount applicable to such tenant; and (e) a summary of all Shortfalls and Overages for all such tenants as of the end of the month prior to the date of the Preliminary Reimbursement Statement (such supporting documents, collectively, "**Supporting Documents for Prorating Reimbursable Tenant Expenses**").

(ii) Based upon the Preliminary Reimbursement Statement, the parties agree to estimate the amount, if any, of the Overage or Shortfall for the month in which the Closing occurs.

(iii) If the total of all Overages reflected on the Preliminary Reimbursement Statement and for the month in which the Closing occurs exceeds the total of all Shortfalls, District will receive a credit (i.e., such amount shall be applied against the Purchase Price) from Seller at the Closing for such excess. If the amount of all Shortfalls reflected on the Preliminary Reimbursement Statement and for the month in which the Closing occurs exceeds the amount of all Overages, and if and to the extent Seller is unable to recover payment of the Shortfalls from tenants prior to Closing, then Seller shall receive a credit at the Closing in the amount of the excess. After delivery of the Preliminary Reimbursement Statement, Seller and District will cooperate to finalize the proration of Overages and Shortfalls described above on or before the Closing Date, which finalized proration will be set forth on a written reconciliation thereof (the "**Closing Reimbursement Statement**"). Upon Closing, Seller automatically assigns to District, and District alone shall have, the right to seek from the Tenants any reimbursement or other adjustments of or relating to the Operating Expenses.

(1) <u>Reconciliation After Closing</u>. If any of the items set forth in this Section 11 cannot be apportioned at the Closing because of the unavailability of the amounts which are to be apportioned, such items shall be apportioned on the basis of a good faith estimate by the parties and reconciled as soon as practicable after the Closing Date but, in any event, no later than the later of (a) six (6) months after the Closing Date or (b) three (3) months after the receipt of the real property tax bill for the Property. The party owing an amount shall pay the other party the amount owed within ten (10) days of the demand by the other party.

(m) <u>Survival</u>. The provisions of this Section 11 shall survive the Closing.

12. CASUALTY & CONDEMNATION.

Casualty. If, prior to the Closing, a fire, flooding or other casualty or (a) damage occurs on the Property, Seller shall immediately notify District of the same in writing. District shall have the right to terminate this Agreement, by giving written notice thereof to Seller within ten (10) business days after receiving Seller's notice (and, if necessary, the Closing Date shall be extended as appropriate to permit District the full ten (10) business day period within which to decide whether to terminate this Agreement), whereupon Escrow Agent shall promptly return the Deposit to District and thereafter the parties shall have no further obligations, except for the obligations that expressly survive the termination of this Agreement. If District elects not to terminate this Agreement as aforesaid, there shall be no abatement of the Purchase Price and Seller shall assign to District at the Closing the rights of Seller to the proceeds under Seller's insurance policies covering the Property with respect to such damage or destruction and Seller shall provide District a credit against the Purchase Price in the aggregate amount of (i) the deductibles under Seller's insurance policies, (ii) an amount equal to the full amount of the damage that is not fully insured by Seller's insurance policies, and (iii) any insurance proceeds that Seller has received before Closing.

(b) **Condemnation.** If, prior to the Closing, all or any part of the Property shall be taken under power of condemnation or a process for taking or condemnation is commenced or threatened in writing, Seller shall notify District of such fact within two (2) business days thereafter and District shall have the right to terminate this Agreement by giving written notice thereof to Seller within ten (10) business days after receiving Seller's notice (and, if necessary, the Closing Date shall be extended as appropriate to permit District the full ten (10) business day period within which to decide whether to terminate this Agreement), whereupon Escrow Agent shall promptly return the Deposit to District and thereafter the parties shall have no further obligations, except for the obligations that expressly survive the termination of this Agreement. If District elects not to terminate this Agreement as aforesaid, the sale of the Property shall be consummated as herein provided without any adjustment to the Purchase Price and Seller shall assign to District at the Closing all of Seller's right, title and interest in and to all awards, if any, for the taking, District shall be entitled to receive and keep all awards for the taking of the Property or portion thereof and Seller shall provide District a credit against the Purchase Price in the aggregate amount of any awards that Seller has received before Closing.

13. **<u>REAL ESTATE BROKER</u>**. Seller represents and warrants to District that it has not dealt with any broker, salesman, agent, or finder in connection with this transaction other than (a) **Mark Ruben** with **Colliers** and (b) **BorLuv, Inc.** (collectively, "**Brokers**") and agrees to indemnify, defend, save, and hold District harmless from the claims and demands of any real estate broker, salesman, agent or finder claiming to have dealt with Seller, including, without limitation,

Brokers. Seller shall provide District with a completed Broker's Release, fully executed by each Broker, in the form attached as Exhibit E, at Closing. All indemnities provided for in this Section shall include, without limitation, the payment of all costs, expenses and attorney fees incurred or expended in defense of such claims or demands. The terms of this Section shall survive the Closing or termination of this Agreement.

HEALTH CARE DISTRICT FINANCE AND AUDIT COMMITTEE

1. Description: Atlantis Purchase

2. Summary:

This agenda item presents the Finance and Audit Committee with a recommendation to purchase the improved real property (Atlantis) located at 4801 S Congress Avenue.

3. Substantive Analysis:

The Atlantis Community Health Center is the Health Care District's (HCD) newest and largest Federally Qualified Health Center. This flagship FQHC boasts 26,283 square feet and spans three floors (1-3) of the four-story building with a total building size of 35,588 square feet.

The HCD's currently leased space has undergone an extensive fifteenmonth buildout to like-new condition. The landlord and HCD combined investment is over \$3 million. HCD currently occupies 74% of the rentable space in this building with one additional tenant occupying the fourth floor. It sits on a 2.86 acre parcel that is adjacent to John Prince Park and only 0.3 miles from JFK Hospital and many other health-related services. This facility is easily accessed from I-95 and the Turnpike via Lake Worth Rd. It is also located on a major bus route that services Congress Avenue.

The tenant on the 4th floor currently has a 5-year lease on the space that will generate \$1.9 million during this lease term. This contemplates that the tenant does not exercise their 5-year renewal option. If renewed for an additional 5-year term it would result in additional rental income and contribution toward building operating expenses. Additionally, there is a cell phone tower that will generate approximately \$29 thousand per year during the current 5-year lease term.

After completing due diligence and analyzing the existing 10-year financial lease commitment under the current rental agreement as well as the future rental revenue, the payback period for the investment will be 8.5 years. The proposed purchase provides for 1.5 years of rental cost savings from the original 10-year lease.

HEALTH CARE DISTRICT FINANCE AND AUDIT COMMITTEE

HCD has negotiated a purchase price of \$14,500,000 with up to \$250,000 contribution toward seller's closing costs. The District's Land Acquisition Policy requires two appraisals for a transaction of this value. The District contracted with Callaway & Price, Inc. and Partner Valuation Advisors for appraisal services. The negotiated selling price of \$14,500,000 is 5% above the average of the two appraisals in the amount of \$13,750,000.

HCD seeks to purchase the Atlantis building for an amount not to exceed \$15,000,000. This unbudgeted capital expenditure will use funds from the unassigned reserves.

	Current FY Amounts	Total Amounts (Current + Future)	Budget
Capital Requirements	\$15,000,000 ¹	\$15,000,000 ²	Yes 🗌 No 🔀

4. Fiscal Analysis & Economic Impact Statement:

Currently, the District has an annual rent and common area maintenance (CAM) expense of approximately \$958,000 for the Atlantis property. Upon ownership, the District will no longer incur rent and CAM expenses. The annual building operating expenses will be approximately \$115,000, representing an estimated annual operating savings of \$843,000.

Annual rental and CAM payments from existing tenants are estimated at \$412,000. The District will take on landlord responsibilities for the existing tenants and will incur expenses related to building repair and maintenance in tenant leased spaces. Any tenant security deposits will be held by the District.

5. Recommendation:

Staff recommends the Finance and Audit Committee submit to the Board for approval of the acquisition of the Atlantis Building in an amount not to exceed \$15,000,000.

1. Description: Benoist Purchase and Sale Agreement

Staff is recommending the approval of the Purchase and Sale Agreement (PSA) between the District and OSI 100 Benoist Farms Road, LLC ("Seller") for 9.67 acres of unimproved real property for the development of the Crisis Center for Mental Health and Substance Abuse, subject to approval of a budget amendment later on this agenda.

2. Summary:

The property is located at 100 N. Benoist Farms Rd. just North of Southern Blvd/SR 80 in unincorporated property. A comprehensive site assessment was completed which; 1) evaluated land use, zoning, traffic capacity, storm water management, environmental feasibility study and a Phase 1 site assessment, and 2) determined the developability of the property for the Crisis Center, including identifying site specific costs.

The findings were very favorable for the development of the Crisis Center, but for two material findings. First, there is an open Consent Order between the Seller and South Florida Water Management District which will be completed by the Seller prior to closing and therefore will be of no further issue to the District. Second, site specific development costs may increase the cost of construction by an estimated \$2,400,000. These two issues were considered by Staff in its analysis and are explained in more detail in the Substantive Analysis and Financial Analysis sections. The property is assessed at \$9,092,853 and the average of the two appraisals performed on the Property is \$12,675,000. The negotiated purchase price is \$16,750,000 or 32% above appraised value. There are no hypothetical conditions or extraordinary conditions, and the Property does not require a land use change for the District's use. Due to the property enabling the completion of the Crisis Center in the shortest amount of time, and the value it brings to the District in terms of fulfilling the objectives of the District's Strategic Facility Plan, it is Staff's opinion that it is in the best interests of the District to acquire the property at negotiated purchase price (the reasons are explained in more detail in the Substantive Analysis and Exhibit 1 to this item).

As required by LEG 1000, the key terms of the PSA (see Exhibit 2 to this item) include: 1) the property interest will be conveyed via a General Warranty Deed in as-is, where-as condition, 2) the Seller being responsible for all costs associated with title insurance commitment and premiums as well as the documentary stamp tax, 3) the District shall deposit \$200,000 with the escrow agent which will be nonrefundable at the end of the Inspection Period One (the deposit will be released to the Seller at closing and will be credited against the purchase price), and 4) the District being responsible for the cost of recording the deed.

Closing will take place when: 1) Seller has provided the District with written evidence satisfactory to the District (i) that all requirements of the SFWMD Consent Order have been complied with which includes having to obtain written confirmation from SFWMD by September 1, 2025, and (ii) successful completion to Inspection Period Two, 2) Seller has performed all of the covenants and obligations, 3) all representations and warranties identified are true and correct, and 4) the title company is ready, willing and able and irrevocably committed to issue a title policy in the face amount of the purchase price. The conditions to closing may be unilaterally waived by the District. If any of these conditions are not fulfilled by September 22, 2025, then the District shall have the right to; 1) terminate the PSA, or 2) waive such unsatisfied condition and proceed to closing of the transaction. In the event of a default by the Seller, the District shall have the right to; 1) terminate the PSA, have the deposit returned and up to \$25,000 in expenses, 2) grant Seller a reasonable amount of time to cure the default, or 3) seek specific performance. In the event of a default by the District, the Seller shall have the right to terminate the PSA or grant the District a reasonable amount of time to cure the default.

On May 21, 2025, the Finance and Audit Committee reviewed this item (see Exhibit 3) and unanimously recommended it be considered for approval by the Board. Due to the amount by which the purchase price exceeds appraised value, this item requires a supermajority vote (5 votes) to approve.

3. Substantive Analysis:

Palm Beach County faces a mental health crisis with inconsistent services. The main providers are Emergency Departments and the jail. In 2022, over 27,000 patients sought mental health care through ER or hospitalization. There have been 7,000 Baker

Acts issued, impacting 316 individuals repeatedly, affecting patients, families, and the community.

The current ad-hoc approach to behavioral health services in Palm Beach County does not provide effective or comprehensive crisis treatment or ongoing medical services. It can overwhelm facilities and is financially inefficient. There is a need for a coordinated behavioral health care system in the county.

The District has initiated efforts to establish the necessary infrastructure to serve as the central access point for such a system. Communities across the nation that have adopted the Crisis Now model have realized a 35% cost savings.

The proposed location provides a central access point for crisis care. The crisis care model supports patients during crises, stabilizes and treats them appropriately, and provides a medical home for ongoing care. Continuous care enhances patient resilience by equipping them with tools to prevent relapse, crises, or worsening symptoms. The envisioned Crisis Center will operate 24/7 for both adult and pediatric patients, offering inpatient and outpatient services, including an on-site pharmacy and integrated primary care for overall wellness. This will alleviate the burden on existing partners while promoting sustainable wellness for individuals experiencing crisis. The model adheres to national best practice guidelines for crisis care systems established by the Substance Abuse and Mental Health Services Administration (SAMHSA).

The coordinated care system has garnered support from community partners, the public with existing needs for comprehensive behavioral health services, and the Board of County Commissioners, all emphasizing the urgent need to proceed with this initiative.

Timeliness in opening the facility to provide services has been crucial throughout the site evaluation and negotiation processes. With timing being one of the most critical components in Staff's analysis of the potential sites and the Benoist Farms

Site in particular, the following set forth the reasoning behind this Site and the purchase price. See Exhibit 1, Section 4.3 for additional details about these topics.

- There is a decreasing availability of land sites that meet the size, locational and adjacent use criteria (no adjacent residential land uses) needed by the District.
- The increasing costs associated with the development (design and construction).
- The potential to jeopardize County funding contribution if secondary site search and/or extended development timeframes associated with a more complicated site.
- The "value" this site brings to the District relative to the Strategic Facility Plan.

Exhibit 1 to this agenda item is a continuation of the substantive analysis and includes a summary of the various due diligence reports and information as well as the various due diligence reports; together on which the recommendation is based: 1) narrative/project description, 2) copies of appraisals, location maps, surveys, environmental audits, site assessments and other consultant reports, including any other pre-purchase due diligence utilized to determine valuation, 3) identification of transaction parties, 4) disclosure of representatives including brokers, land planners, lobbyists, consultants, etc., 5) disclosure of any contemplated land use, zoning, or pending development applications, 6) discussion of valuation issues, 7) summary of negotiation history.

¹ This includes; 1) \$16,750,000 as the purchase price of the land, 2) \$4,000,000 for the total program manager expenses over the life of the crisis center project, 3) \$14,000,000 as the estimated design services fees over the life of the projected including the design consultant and any other professional consultants hired directly by the District or the design professionals subconsultants, 4) estimated portion of the construction cost that are being allocated to the early construction packages, including procuring the site after closing, construction of the canal crossing/bridge to the property, and pre-construction services for the construction manager, and 5) less the \$10,000,000 capital contribution from the Board of County Commissioners.

² This includes; 1) all expenses in FY 2025 (footnote 1) plus 2) \$66,000,000 in estimated construction costs for the project, not including the early construction expenses, and pre-construction services that were included in Footnote 4, 3) \$15,000,000 estimated cost for furniture, fixtures and equipment (FFE), medical equipment and IT equipment, and 4) \$27,000,000 in total contingency needed for the project and containing two components: a) standard escalation to 2025 estimated expenses for a start of construction at 5.25% annually, and b) overall program contingency, which encompasses any type of change from tariff impact and material cost changes, to changes in programmatic requirements (square footage increases) to change orders.

³ The estimated operating expenses are \$35 million annually, and what is shown represents 6 months of ramp-up expenses to coincide with an opening in August/September 2029.

5. Recommendation:

Staff recommends Board approval of a purchase and sale agreement with OSI 100 N. Benoist Farms Rd, LLC to acquire 9.67 acres of unimproved real property for a purchase price of \$16,750,000, subject to approval of the corresponding budget amendment later on this agenda.

1.0 Project Description

Palm Beach County ("County") is facing a mental health crisis, but there is hope for a brighter future. The current mental health services are inconsistent and fragmented, causing strain on the community. Emergency Departments and the jail have become the two largest mental health care providers in the County. In 2022 alone, over 27,000 adult and pediatric patients sought care for mental disorders through the Emergency Room or hospitalization. There have been 7,000 Baker Act holds, with 316 individuals being Baker Acted three or more times, impacting patients, families, and the community as a whole.

This ad-hoc approach to behavioral health services does not provide effective or comprehensive care, can overwhelm facilities, and is not financially efficient. Palm Beach County needs a coordinated behavioral health care system. Consistent with its mission to be the health care safety net for the residents of Palm Beach County, the Health Care District of Palm Beach County ("District") has stepped up to create the necessary infrastructure to become the central access point for this system. Communities across the nation that have implemented the Crisis Now model have realized savings of 35% in costs across the community.

The solution is a central access point for crisis care. This care model supports patients through crises, stabilizes and treats them appropriately, and provides them with a medical home for continued care. Consistent care supports patient resilience, giving them the tools they need to prevent relapses, crises, or worsened symptoms. The Crisis Center is that PLACE TO GO. The proposed Crisis Center will be available 24/7 for adults and pediatric patients ("Crisis Center"). It will offer inpatient and outpatient services, including an on-site pharmacy and integrated primary care for overall wellness. This will alleviate the pressure on our partners while supporting sustainable wellness for those suffering from crises. The Crisis Center I will meet national best practices guidelines for crisis care systems published by the federal Substance Abuse and Mental Health Services Administration ("SAMHSA").

This coordinated care system has received support from community partners, the public, and the Board of County Commissioners, all expressing the urgent need to move forward with this effort. The time to open and provide services has been a key criteria throughout the site evaluation and negotiation process.

From pre-purchase due diligence studies, for a single story building, it is recommended that the Crisis Center be a 60,000 square foot building with a minimum floor plan of approximately 42,000 square feet for a multistory structure. The building will consist of a central receiving facility, crisis stabilization unit (chairs and beds for those patients requiring a longer stay), and outpatient services. This pre-purchase programmatic effort is discussed further in Section 2.1 and Attachment A (Benoist Packet Crisis Center Exhibit 1 A-H.pdf)

2.0 Project Siting Criteria

Prior to starting the site search, Staff needed to define the approximate size of the property that was needed and the characteristics of the site which would be most desirable.

2.1 Size of Property

The District contracted with the team of Saltz Michelson Architects/WGI/JFO to conduct three (3) tasks, the first of which was known as Task 1 – Conceptual Programming and Spatial Relationships. The programming completed for this effort should not be considered design solutions or even concept proposals, but are sufficient for determining whether a site will be able to reasonably accommodate the facility. The design team will need to develop a separate comprehensive functional program in conjunction with Staff and as part of an overall architectural design effort.

The conclusion of the report was that a 60,000 square foot building on 6-8 acres of vacant land was needed. For improved sites, the building requirements would require about one acre, and the land requirement would vary based on the configuration and use of shared facilities. The complete work product from Task #1 is included as Attachment A to this document.

2.2 Key Site Characteristics

2.2.1 Location. Includes; 1) the desirability of the geographic location within the County taking into account service need and accessibility by public transportation, private vehicle and 1st responders, 2) visibility from major roads, 3) proximity to partners and similar uses, 4) adjacent uses, and 5) 365/24/7 considerations.

2.2.2 Timing. Includes durations for: 1) time for HCD to achieve owner status, 2) ability to move forward independent of other organization's timing, 3) governmental approvals and conditions, 3) regulatory approvals (seeking entitlement and permits), 4) design; and 5) construction.

2.2.3 Developability. Includes: 1) ability to accommodate all components, 2) horizontal expansion capabilities, 3) does it fit, 4) probability of land use or rezoning without extraordinary conditions, 5) medical or land regulatory constraints that would hinder or materially constrain development, 6) whether other HCD uses would be allowed, 7) ability to achieve interior design objectives (high ceilings, natural light, views/outdoor spaces) and 8) ability to accommodate expansion/contraction of behavioral health use or other use.

2.2.4 Development Costs. Includes: 1) land acquisition, 2) design including soft costs, 3) extraordinary land development costs, and 4) construction/demolition/renovation.

2.2.5 Operating and Operating Costs. Includes: 1) building operating cost savings or increases, 2) staff savings or increases, 3) operational disruption to desired workflows, 4) additional costs or cost savings associated with conceptual layout, 5) lease payments, 6) health care regulatory concerns or modifications, 7) staff cross training, 8) maximizing use of common infrastructure, and 9) changing programmatic needs.

2.2.6 Other. Includes: 1) neighborhood impact, 2) support/objection of neighbors, 3) opportunity for workforce development, 4) opportunities for not for profits, 5) support from local government and 6) branding and identity.

2.3 Site Search Process & Priorities

The site search was initially limited to publicly owned land or buildings and land or buildings currently zoned for governmental, health care, or hospital use. Specifically, the limitations as described above would:

- minimize the time for solicitation, evaluation and contract negotiation by 3-7 months;
- reduce the probability of undergoing a lengthy land use and/or zoning process and minimize the likelihood of public opposition to the siting decision by 3-9 months; and
- contribute to the beneficial stewardship of publicly owned resources/assets by: 1) not reducing taxable assets, 2) leveraging assets already in public ownership to avoid additional public investments in land buildings, and 3) reinforcing existing and on-going relationships with sustainable partners.

2.3.1 County-owned sites. Three sites were initially identified: 45th & Australian Complex, property adjacent to the former Stockade, and the vacant land at 5741 Okeechobee Blvd. Staff met with the County Administrator as well as the Director of Facilities Development & Operations and it was determined that the first and second sites were not available due to existing and active redevelopment plans. The last site was the subject of a current RFP for affordable housing. Three additional County-owned sites were suggested for evaluation, but ultimately were rejected due to existing and active redevelopment plans.

2.3.2 Palm Beach State College – Lake Worth Campus ("PBSC"). Staff and PBSC had preliminary discussions about the possibility of a co-location on campus but ultimately needed to be removed from consideration due to the Crisis Center being prohibited by existing use limitations and restrictions.

2.3.3 Edward J Healey Skilled Nursing and Rehabilitation Center ("Health Care District Skilled Nursing Center Site" or "Skilled Nursing Center Site"). The District owns property located at 5101 W. Blue Heron Blvd, Riviera Beach, FL, which has one undeveloped parcel and a large surface parking area with future development potential as well as the opportunity for operational savings.

2.3.4 Former Jerome Golden Property. The privately owned former home of the Jerome Golden Center located at 1041 45th St. West Palm Beach, FL (SW corner of the St. Mary's campus) was evaluated in early 2024 as part of the first search due to its previous use being mental health facility. The current owner of the Jerome Golden Site was contacted and advised that he was not willing to engage in any discussions for less than \$18,000,000. Despite its previous use for mental health, Staff questioned the location and access to this site. While the site is already zoned for the existing behavioral health need, it is likely that there would be strong opposition to the District's particular use from the community due to the number of county-wide and regional uses already near the same residential areas. This improved property is approximately 9 acres and has multiple existing buildings which would need to be demolished to allow for construction of the Crisis Center. The property also has an additional freestanding building on it which houses a not-for-profit agency which holds a long-term lease. There are complicated title, utilities and access conditions that would need to be resolved pre-purchase. **2.3.5 Conclusion.** With only one readily viable property at this point, Staff re-reviewed the privately held undeveloped properties which resulted from a windshield survey and database review. A total of 13 sites that were actively on the market remained. The privately owned site that Staff believed most desirable was then identified as 100 N. Benoist Farms Rd property ("Benoist Farms Site"). The conclusion of this effort was to move forward with the comprehensive due diligence study on the Skilled Nursing Center Site and the Benoist Farms Site.

3.0 Summary of Site Assessment for Benoist Farms Site.

Tasks 2 and 3 of the SMA/WGI/JFO due diligence study were the site assessments on the Skilled Nursing Center Site and Benoist Farms Site, respectively. The scope of work for the site assessments included the following activities.

- Utilize the approved conceptual programming and work-flow information developed in Task 1, prepare a proposed plan of development, complying with the program, development regulations, access and circulation requirements, and drainage.
- Ensure that the project complies with local zoning codes, ordinances, and any newly introduced regulatory requirements.
- Review the Comprehensive Plan designation, zoning designation and property regulations, including those that may be specific property and any current approvals on the site.
- Review HCD's future needs analysis and apply to the property and any studies currently available for the property.
- If the entire program for the Crisis Center (or other element) cannot be accommodated, identify the total interior and exterior requirements that will need to be accommodated elsewhere.
- Identify any existing regulations (both medical or land development) that would materially hinder or constrain development (either physically or financially), including a rough order of magnitude of the extent of the impact of such regulations on the project
- Identify any variances, special exceptions, etc. that will be required because of sitting the Central Receiving Facility/Crisis Stabilization Unit and potentially the Community Behavioral Health Center on that site.
- Review of environmental and logistical factors.

The entire Benoist Farms Rd Site Assessment is included as Attachment B and C. Below is a summary of SMA/WGI/JFO's findings on the Benoist Farms Site.

3.1 General Site Description. The Benoist Farms Site is located on the east side of North Benoist Farms Rd, 400 feet north of Southern Blvd (aka SR 80 and US Highway 98), in an area of unincorporated Palm Beach County. The property address is 100 North Benoist Farms Rd, West Palm Beach, FL 33411. The Benoist Farms Site is a square shaped parcel containing 9.67 acres. The Benoist Farms Site is surrounded by undeveloped and developed industrial uses as well as commercial uses such as gas stations/convenient stores.

3.2 Development Plan Options. The purpose of the conceptual development plans is to: 1) ensure that all the plan elements (building, parking, water retention, circulation, buffer, setbacks, etc.) can "fit" on the site, 2) identify any extraordinary conditions and/or costs associated with developing the property for its intended purpose, and 3) identify any regulations that may negatively impact the development plan. These development plans are not designs, but instead a tool for conceptualizing how the property can be developed for this purpose.

<u> Option 1 – Urban Plan:</u>

<u>Two -Story +/- 59,800 SF</u>

Option 2- Suburban Plan

<u>One-Story +/- 59,200 SF</u>

3.3 Future Land Use and Zoning. The Benoist Farms Site has a land use of Industrial with a Light Industrial ("IL") zoning district. Government Service⁴ uses are allowed in the IL zoning district – by right provided the use is able to meet all property development regulations of the zoning district. The size of

⁴ Government Services in the PBC ULDC is defined as "buildings or facilities owned or operated by a government entity and providing services for the public, excluding utility, recreational services and prisons, jails or correctional facilities."

the property allows sufficient space to meet the property development regulations of the IL zoning district. As such, no land use or zoning changes are required for the Crisis Center use.

3.4. Parking. The parking requirement for Government Services is 1 parking space per 500 sf of facility. For the Crisis Center's proposed use, this would equate to 120 parking spaces. However, 120 spaces are inadequate for the Crisis Center, so we have assumed 200 parking spaces are necessary⁵ and those 200 parking spaces are reflected in the development plan options.

3.5 Access. Primary access to the site is via Benoist Farms Rd. Benoist Farms Rd is a County owned and maintained road. It is currently in the process of being expanded and the new cross section provides for a median opening near the northwest end the Benoist Farms Site to allow for southbound and northbound movement from the Benoist Farms Site onto Benoist Farms Road. A new bridge, meeting the LWDD standards, will be needed to provide for a vehicular crossing.⁶ There is also an opportunity for the District to provide a secondary, limited and controlled (staff and emergency vehicles) access from Hooper Rd. which currently terminates at the southeast corner of the Property and runs East to Pike Rd. Hooper Rd. is a County road with various segments having been dedicated to the County by the numerous landowners on both the north and south and some segments remaining. Despite Hooper Rd being a County Rd. there are various segments that have yet to be dedicated to the County, it does not meet County road standard, and the County has not accepted maintenance. A cost benefit analysis regarding the use of Hooper Rd. as a secondary access will need to be completed in conjunction with the design effort.

3.6 Traffic Capacity. The purpose of this traffic study was to assess the potential for the project to achieve Traffic Concurrency approval. The study concluded that links and intersections on Benoist Farms Road from Southern Boulevard to Okeechobee Boulevard will be expected to meet the adopted level of service at the assumed project buildout in the year 2030. It is also likely that the project as proposed will meet County Traffic Performance Standards (TPS) at the assumed buildout year in 2030 where a southbound left turn lane and a northbound right turn lane may be required at the proposed access on Benoist Farms Road. The complete traffic study is included as Attachment C.

3.7 Public Transportation. There are no public transportation lines available within walking distance on either Benoist Farms Rd or Southern Blvd. However, this is not a critical element for this location, as

⁵ This is based on 60 staff persons, doubled to accommodate shift change, and all public areas at capacity and with simultaneous use.

⁶ This bridge will be discussed further in the next section. ¹⁹⁸

the nature of individuals seeking services is not typically conducive to riding on public transportation. Someone in crisis is likely to need private transportation or to be brought via a mobile response team.

3.8 Water Management/Drainage. The Benoist Farms Site is located within the jurisdiction of South Florida Water Management District (SFWMD) and the Lake Worth Drainage District (LWDD). The Benoist Farms Site is located within the SFWMD C-51 basin and does not have an existing water management system or SFWMD permit. The Benoist Farms Site will require a system of interconnected inlets and storm pipes with a discharge to a new on-site retention area. The legal positive outfall is to the LWDD E-2 canal along the northern portion of the property. Up to 20% of the site must be preserved for a wet retention area.

3.9 Environmental. Based on a Phase I Environmental Assessment conducted by WGI, there are no Recognized Environmental Conditions (RECs) or Controlled Recognized Environmental Conditions (CRECs) that would trigger a need for a Phase 2 Environmental Assessment. In addition, WGI found no Historical Recognized Environmental Conditions (HECs), *de minimis* or Business Environmental Risks (BERs). WGI recommended no additional investigation as part of Phase I ESA activities.

Recommendations for Phase II ESA or other assessment activities are specifically not required by ASTM E1527-21. A complete copy of the Phase 1 Environmental Assessment is an attachment to the SMA/WGI Site Assessment (Attachment B to this report). An Environmental Feasibility Study was also completed, and a complete copy is an attachment to the SMA/WGI Site Assessment (Attachment B to this report). The most significant findings are related to tree mitigation and surface waters and wetlands and an outstanding (although neither rising to the level of a site specific issue or extraordinary cost) and an open/unresolved Notice of Violation and Consent Order by SFWMD.

A tree inventory and arborist report will need to be completed for site plan approval and to determine the actual required mitigation amount (replacement trees, buyout, or combination thereof). There are several sabal palms and strangler figs onsite which will require the preservation or relocation of these trees and palms, or sufficient justification provided for their removal.

The surface waters can be impacted with no mitigation required as long as the stormwater system accommodates any drainage that the surface waters were previously providing. Impacts to the wetland will require mitigation; either through the purchase of mitigation credits through the creation or restoration of wetlands onsite, or a combination of the two.

There is a second consent order pending against the property which incorporates the first consent order (against the previous owner which was passed along to the current owner) which requires the removal of all unauthorized fill from the wetlands and a return of the elevations to the pre-existing grades. It is WGI's opinion that the second consent order should not be assumed and/or amended and that the current owner should remove the unauthorized fill. **3.10** Summary of Extraordinary/Site Specific Costs at Benoist Farms Site. The property is square which is the ideal shape for a facility of this type, has no adjacent residential uses and is of more than adequate in size for the Crisis Center. The size and design could provide adequate land for another District use or an expansion of this use. There is significant space to accommodate a buffer from adjacent uses for purposes of creating a natural and soothing visual impact while mitigating noise and dust.

The following table summarizes the site specific and extraordinary costs associated with the Benoist Farms Site.

Cost Category	Benoist Farms Site
Bridge – Primary	\$ 1,300,000 ⁷
Hooper Rd	\$ 200,000 ⁸
Lift Station	\$ 250,000 ⁹
Water and Sewer	\$ 150,000 ¹⁰
Paving Grading and Drainage	\$ 500,000 ¹¹
Total Site-Specific Costs	<u>\$ 2,400,000</u>

Site Specific and Extraordinary Costs

3.11 Staff's Conclusions on Results of Site Assessments. Staff concluded that it was in the best interest of the District to commence negotiations with the owners of the Benoist Farms Site. The key factors in this decision were; 1) the uses the unknown compatibility between uses, duration, costs and nature of impacts on the Skilled Nursing Center Site by the design and construction of the Crisis Center, 2) the lack of any capacity for modifications or expansion of Crisis Center as needs present, 3) the limitations on outdoor and recreational programming for the Crisis Center, 4) the more central location for a countywide facility, 5) the access potential from all four directions, 6) the future development potential for the Crisis Center as well as other facilities identified in the District's Strategic Facility Plan, and 7) the ability of the Benoist Farms Site to allow for the District to create a facility with a plan and architecture that is totally consistent with the mission and programming for the facility. The issue of no public transportation to support this site was not taken lightly. While typically this is a critical component for a siting decision; this facility is fairly unique in that regard. Public transportation

⁷ A new bridge is required to cross to and from Benoist Farms Road over the LWDD E-2 is required and has an estimated cost of \$1,300,000.

⁸ An alternate to Hooper is the addition of a secondary crossing from Benoist Farms Road at \$1,300,000.

⁹ A new lift station is required on site with an estimated cost of \$250,000 for a publicly maintained station and \$150,000 for a private lift station (not recommended).

¹⁰ there are other water and sewer related extraordinary expenses estimated at \$150,000 for water and sewer lines.

¹¹ There is an estimate of \$500,000 in extraordinary paving, grading and drainage costs.

is not a critical element for this location, as the nature of individuals seeking services is not typically conducive to riding on public transportation. Someone in crisis is likely to need private transportation or to be brought via a mobile response team.

Approximately 2/3 of the facility from a square footage perspective is dedicated to crisis care, and these patients/clients arrive at the facility via 1st responders and in some cases by family members/friends. Based on the experience at our clinics, the majority of the outpatients arriving at the facility will be via private transportation, about 10% via self-pay patient transport services (e.g. Uber and Lyft). There are some out-patients that qualify for transportation assistance and same will be provided by the District as is currently offered at all Clinics.

It should also be noted that at the time the Staff came to these conclusions, it was estimated that the purchase price for the Benoist Farms Site would be \$15,000,000 with an additional cost of \$2,400,000 for a total of \$17,400,000. While there were no land acquisition costs at the Skilled Nursing Center Site, the estimated costs for the known extraordinary/site specific costs are \$15,250,000 including the construction of a parking garage. However, for the reasons listed above, the Staff proceeded with the Benoist Farms Site as the recommended site. A complete copy of the Skilled Nursing Center Site Assessment report is included as Attachment D to this report.

4.0 Purchase Price Discussions and Appraisals.

Staff first contacted the owner of the Benoist Farms Site ("Seller") in December of 2024 expressing interest in their willingness to sell the property and to inquire as to whether the property was still for sale. The Seller is OSI 100 Benoist Farm Road LLC, and its broker Patrick McBride, SIOR, Esq., Principal ComReal, Miami Doral. No other brokers are involved in this transaction nor were any lobbyists involved. The assessed value is \$9,092,853 and the Seller acquired the parcel in May 2022 for \$14,000,000. The Seller indicated that it had been entertaining offers but that it was holding action on any potential offers pending the outcome of a refinancing on other properties. Several weeks later, the Seller informed us that this property was ultimately included in the refinancing, and the offers were returned and they were willing to proceed through the due diligence process and provided the necessary access to the property for the District and its consultants to perform the necessary inspections. As part of these early discussions, the District indicated that it would likely be willing to pay market value for the property. The Seller indicated an asking price of \$17,000,000.

4.1 Appraisals The District's Land Acquisition Policy requires two appraisals for a transaction of this value. The District contracted with Callaway & Price, Inc ("Callaway"), and Colliers International Valuation & Advisory Services ("Colliers") for appraisal services. Both Callaway and Colliers appraised the market value of fee simple ownership with no hypothetical or extraordinary conditions. Market

Value is defined as "the most probable price which a property should bring in a competitive and open market under all conditions requisition to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus......"

The scope of work for the appraisals generally included the following:

- Identification of the appraisal which includes the purpose or date of value, the interest to be appraised, identifying the real estate (legal description) of the property and whether the appraisal is subject to any hypothetical or extraordinary conditions.
- Inspection of the property, data collection process, and analysis of the factors that affect market value.
- Determination of the highest and best use of the property.
- Application of the appropriate approaches or the valuation.

Both appraisers determined the highest and best use for the property was Industrial – Light Industrial/Open Storage and both used the sales comparison method of valuation. There are two sets of appraisals as the appraisers each updated and re-issued their appraisals after reviewing the results of the site assessments (due diligence studies). See table below for appraisal results.

Appraiser	Market Value	Market Value with
		Due Diligence
		Results
Callaway and Price	\$14,000,000 ¹²	\$12,700,000 ¹³
	1/24/25	3/26/25
Colliers	\$14,500,000 ¹⁴	\$12,650,000 ¹⁵
	3/11/25	3/28/25
Average Price	\$14,250,000	\$12,675,000

Neither appraiser made any substantial changes to its appraisal but for the straight deduct of \$1,300,000 for the cost of the bridge. They both indicated that they felt strongly about this deduct as the need to install the bridge would apply to any buyer.

4.2. First Round of Negotiations. Despite the spread in price positions and the appraisals, neither the Seller nor Staff terminated discussions. The Staff indicated that it would be willing to recommend to the Board ("Conditional Offer") the purchase price of \$15,700,000, which it believed was a reasonable

¹² See Attachment E

¹³ See Attachment F

¹⁴ See Attachment G

¹⁵ See Attachment H

offer in light of the offer being approximately: 1) \$110% of the first appraised value and 2) the asking price less the estimated cost of the bridge.

The Seller countered with \$17,000,000 again, indicating they believed in the industrial market in Palm Beach County, that the values would increase with time and diminishing availability of empty land sites of similar size and location, and that they were willing and, in a position, to wait for an offer at the \$17,000,000.

4.3. District's Reconsideration of the Selection of the Benoist Farms Site. Based on the lack of willingness of the Seller to move off the asking price, and the District's previous estimate of \$15,000,000 to meet the siting and programming requirements of the Crisis Center, Staff revisited the selection of this site and whether re-starting the site search would yield a result that was more beneficial to the District and the Crisis Center Project.

4.3.1 The two most likely alternatives are the Skilled Nursing Center Site and the former Jerome Golden site.

The Skilled Nursing Center Site has sufficient development potential to accommodate the Crisis Center, but the two uses are not compatible, especially considering the extended construction period associated with the complicated design and regulatory environment and the construction of the parking garage. Due to the statutory physical plant standards for the Crisis Center, the minimum ground floor plate would limit the amount of outdoor space and active recreational programming for the Crisis Center and essentially eliminate any ability to adjust or expand Crisis Center programs in the future. In addition, the costs of a parking garage and costs associated with a multi-story building are estimated at \$15,250,000 and that does not include the costs and time associated with the: 1) complexity of the design, and 2) any renovations/modifications necessary to the Skilled Nursing Center Site to preserve its current environment.

4.3.2. The decreasing availability of land sites that meet the size, locational and adjacent use criteria needed by the District. Staff again performed windshield surveys and conducted electronic searches (using various databases designed for non-residential properties) for properties for sale that met the District's size criteria of 6-8 acres that were not adjacent to residential uses and there were none in our search area. As a result, the next step would have to involve assembling smaller properties or engaging owners of vacant properties which meet the criteria but are not currently on the market and assemble a transaction which meets the District's need. These types of transactions are also typically complex and are time consuming and result in costs higher than appraised values. The following are some excerpts from the appraisals which support our position on decreasing availability.

• "The overall Palm Beach County industrial market conditions appear to be strong but stabilizing as vacancy rates have remained consistent and rental rates increasing at a fairly significant

rate. The Central Palm Beach County Area submarket is demonstrating very strong fundamentals with tight occupancies, increasing rental rates and limited new construction to keep pace with demand."¹⁶

 "It should be noted that there is a severe lack of remaining developable industrial sites in Palm Beach County. As a result, land values are increasing as the supply of land decreases. The demand for local distribution warehouses for last mile e-commerce delivery companies, as well as for general purpose industrial properties, continue to increase¹⁷.

4.3.3 Increasing costs to develop (design and construction). The costs of design and construction have increased an average of 5.25% over the last 10 years. If that trend continues, even an one year delay to design and construction could result in additional development costs of \$3,150,000 based on the currently estimated \$60,000,000 estimated hard construction costs.

4.3.4 Potential to jeopardize County funding contribution. In early 2025, the Board of the County Commissioners executed a funding agreement with the District that provided for \$10,000,000 in funding for the development of the Crisis Center. That funding agreement contains a requirement that the Crisis Center be open to the public and providing services no later than 12/31/2029 or repay the contributions received from the County. Any delay in securing the land by greater than 3 months, directly impacts the District's ability to complete the project by the milestone and jeopardizes the funding.

4.3.5 "Value" to the District Relative to the Strategic Facility Plan. The acquisition of this property would provide sufficient development potential (along with the remaining development potential at the Skilled Nursing Center Site) to accommodate all currently identified facility needs of the District including the co-location and expansion of warehouse and distribution needs and other compatible District uses. The size of the Benoist Farms Site provides sufficient area and traffic capacity for the construction without the acquisition of an additional property. So not only does this purchase accomplish the District's policy to move to District owned land/buildings for financial and programmatic reasons, but it also accomplishes the District's policy to co-locate compatible uses were possible in order to realize cost savings and eliminating duplicated infrastructure and operational expenses.

4.4 Second Round of Negotiations.

Since the Seller had mentioned several times that previous offers were higher than the Districts, the Staff requested a copy of the offers. The Seller provided a copy of a previous offer from August 2023 for \$16,500,000.

¹⁶ Calloway & Price Appraisal

¹⁷ Callaway & Price Appraisal

Then, the District became aware via the South Florida Business Journal of a very recent sale of similarly situated property (40 acres of light industrial property immediately south of Fire Rescue Headquarters) with access form Benoist Farms Rd with a purchase price of \$1,650,000/per acre which would equate to a value of \$15,955,000 for the Benoist Farms Site.

In order to move forward, the District made a subsequent Conditional Offer of \$16,500,000, which was countered by the Seller with \$16,750,000 which ultimately became the agreed upon purchase price. *It should be noted that while Staff was using the original appraisal as the basis for the negotiation, it has, for the purposes of the District's Land Acquisition Policy, consistently reported the purchase price as a percentage of the final appraised value.*

5.0. Purchase and Sale Agreement The Purchase and Sale Agreement ("PSA" and see Exhibit 2 to this item) was negotiated by Darcy Davis, Chief Executive Officer and District employees Audrey Wolf, Facilities Development Consultant and Terry Megiveron, Construction Services Director with the assistance of Bernabe Icaza, General Counsel. The following are the key terms. OSI 100 Benoist Farms Rd, LLC, a Delaware limited liability company is the record owner of the Property with CRE Outdoor Storage Member LLC holding a 98% beneficial interest in the OSI Benoist Farms Rd, LLC.

- The property interest will be conveyed via a General Warranty Deed in as-is, where-as condition.
- Within 5 days of the Effective Date of the PSA, Seller will deliver an owner's title insurance commitment insuring the marketability of the fee simple title to the Property, with only agreed upon exceptions permitted. The District shall have 10 days after the receipt of the Title Commitment and the Survey to notify the Seller of any matters that are objectionable to the District. Within 5 days of the receipt of any objections, the Seller shall notify District that it intends to cure any defects. If the Seller determines that it is not going to cure the defects, then the District has 5 days to notify the Seller in writing of its intent to terminate the PSA. This will end Inspection Period One and the District's rights to terminate the PSA for matters of due diligence and title. All costs associated with title insurance commitment and premiums will be paid by the Seller. If the District elects endorsements to the policy, those endorsements shall be at the District's expense.
- Within 5 days of the Effective Date of the PSA, the District shall deposit \$200,000 with the escrow agent which will be nonrefundable at the end of the Inspection Period One. The deposit will be released to the Seller at closing and will be credited against the purchase price.
- Inspection Period Two is a 10 day limited purpose inspection period to occur after the Seller completes all work required by the SFWMD Consent Order for the sole purpose of ensuring that the Seller's contractor did not alter or create a defect inconsistent with the requirements of the PSA.
- Closing will take place when: 1) Seller has provided the District with written evidence satisfactory to the District (i) that all requirements of the SFWMD Consent Order have been complied with which includes having to obtain written confirmation from SFWMD by September 1, 2025, and (ii) successful completion to Inspection Period Two, 2) Seller has performed all of the covenants and obligations 3) representations and warranties identified are true and correct, and 4) title company is ready, willing and able and irrevocably committed to issue a title policy in the face amount of the

Purchase price. The conditions to closing are for the exclusive benefit of the District and may be unilaterally waived by the District. If any of these conditions are not fulfilled by September 22, 2025, then the District shall have the right to; 1) terminate the agreements, or 2) waive such unsatisfied condition and proceed to closing of the transaction.

- The purchase price is \$16,750,000 due at closing. At closing, the Recording costs will be paid by the District. Documentary Stamps fees will be paid by the Seller.
- In the event of a default by the Seller, the District shall have the right to; 1) terminate the Agreement, have the deposit returned and up to \$25,000 in expenses, 2) grant Seller a reasonable amount of time to cure the default, or 3) seek specific performance. In the event of a default by the District, the Seller shall have the right to terminate the PSA or grant the District a reasonable amount of time to cure the default.

5. **INSPECTION OF PROPERTY**.

5.1 Inspection Period One. During the Inspection Period One, District and its engineers, surveyors, agents, and representatives shall have unrestricted access to the Property for purposes of survey, testing and inspection thereof. All surveys, testing and inspections shall be conducted by District at its sole expense, and shall be performed by licensed persons or firms dealing in the respective areas or matters tested. All testing shall be done in the least intrusive manner reasonably practical. Prior to entry upon the Property, District shall provide Seller with copies of certificates of insurance evidencing commercial general liability insurance policies (naming Seller as an additional insured) that shall be maintained by District and by any consultants or other third parties engaged by District in connection with District's and such consultants' and third parties' investigations upon the Property, with limits, coverages and insurers under such policies reasonably satisfactory to Seller. In the event District elects not to close upon its purchase of the Property, District shall restore the Property to the condition in which it existed prior to such inspections, using materials of like kind and quality. Seller acknowledges that District is subject to public records laws and open meeting requirements and consistent with such the results of said inspections will be publicly disclosed at an open meeting. In the event that District is not satisfied with the results of such inspections or with the Property, as determined by District in its sole and absolute discretion, District shall have the right to terminate this Agreement at any time during the Inspection Period One by giving written notice thereof to Seller, whereupon Escrow Agent shall immediately return the Deposit to District and, upon the receipt of such Deposit by District, the parties shall be relieved of all further obligations hereunder, except as expressly set forth herein to survive the termination of this Agreement. All requirements of this Section shall be completed within the Inspection Period One.

5.2 <u>Inspection of Property during Inspection Period Two</u>. The District shall have the right to conduct a limited inspection solely for the purpose of confirming that the Seller's contractor did not alter or create a defect inconsistent with the requirements of this Agreement or the OSI Consent Order. In the event that District is not satisfied with the results of such inspections the District shall provide written notice to the Seller of such and allow Seller ten (10) days to remedy the concerns. In the event that District is not satisfied with the results of such attempts at remedying the concerns as determined by the District in its sole and absolute discretion, the District shall have the right to terminate this Agreement by providing written notice to the Seller.

6. **EVIDENCE OF TITLE.**

6.1 Within five (5) days after the Effective Date of this Agreement, Seller shall deliver to the District an owner's title insurance commitment (the "**Title Commitment**"), together with copies of all exceptions to coverage reflected therein, issued by Title Company agreeing to issue to the District upon the recording of the General Warranty Deed to the Real Property, an owner's title insurance policy in the amount of the Purchase Price, insuring District's good and marketable fee title to the Real Property, subject only to the Permitted Exceptions. The cost of said title insurance commitment and title insurance policy and any premium therefor shall be borne by Seller. District will exercise best efforts to deliver a current survey of the Real Property and all improvements thereon at or on the Effective Date to Seller (the "**Survey**").

The District shall have until the later of (i) ten (10) days after receipt of the Title Commitment and Survey, or (ii) the end of the Inspection Period One, whichever is later, in which to review same and notify Seller and the Title Company in writing of any matters shown in the Title Commitment or the Survey that are objectionable to District ("**Title Objections**"). On or before the seventh (7th) business day following Seller's receipt of District's Title Objections (the "**Seller Response Period**"), Seller or its attorneys shall notify District in writing whether Seller elects to cure such objections (and Seller's failure to timely provide such a notice shall be deemed an election by Seller not to cure any such objection). If Seller notifies District that Seller does not elect to cure any Title Objection, or if Seller is deemed to have elected not to cure any such objection, then District may either (i) terminate this Agreement by notice to Seller within seven (7) days after Seller's response or the expiration of the Seller Response Period, as applicable, whereupon, the Deposit shall be refunded to District and neither party hereto shall have any further obligations hereunder, except as expressly set forth herein to survive the termination of this

Agreement, or (ii) waive any objections which Seller elects or is deemed to elect not to cure and proceed with the Agreement. For the avoidance of doubt, if District fails to timely deliver the Title Objections, District shall be deemed to accept all matters provided in the Title Commitment and Survey.

Notwithstanding anything in this Agreement to the contrary, Seller shall cause the following to be removed from title on or before Closing, regardless of whether the District includes the following in the Title Objections: (a) any rights or claims of parties in possession not shown by the public records; (b) encroachments, overlaps, boundary line disputes and any other matters which would be disclosed by an accurate survey and inspection of the Property (provided District obtains a Survey in accordance with this Section 6); (c) easements or claims of easement not shown by the public records (provided District obtains a Survey); (d) any lien, or right to a lien, for services, labor or material heretofore or hereinafter furnished, imposed by law and not shown by the public records; (e) taxes for all years prior to the year of Closing, and taxes or special assessments which are not shown as existing liens by the public records; (f) matters arising or attaching subsequent to the effective date of the Title Commitment but before the acquisition of record of title to the Property by the District; (g) any general or specific title exceptions other than the Permitted Exceptions; (h) monetary encumbrances (including, without limitation, deeds to secure debt, mortgages, UCC financing statements, assignments of leases, notice of liens, judgment liens, and tax liens) placed on the Real Property, and (i) liens for work performed pursuant to or through a contract executed by Seller or an affiliate or representative of Seller (collectively, "Mandatory Cure Liens"). Mandatory Cure Liens shall not constitute Permitted Exceptions.

6.2 District may request, prior to the Closing, the title insurance commitment be updated. If the Title Commitment is updated prior to Closing and such updated Title Commitment raises exceptions to title or Survey and were not caused by District, then District shall have the right to notify Seller and the Title Company in writing of any such matters that are objectionable to District ("Additional Title Objections") not later than five (5) days after District receives the updated Title Commitment or the updated Survey, or District shall be deemed to have waived such new exception or survey matter which shall therefore be deemed to be a Permitted Exception. Seller shall have the same obligations with respect to any Additional Title Objection as provided under Section 6.1 and Seller's response shall be given within five (5) days after receipt of District's notice of Additional Title Objections (the "Seller Update Response Period"). If Seller elects not to cure (or is deemed to have elected not to cure) any Additional Title Objections (subject to Seller's obligations with respect to Mandatory Cure Liens), District's sole remedy in such event shall be to either (i) accept title to the Property subject to such Additional Title Objections without reduction of the Purchase Price or (ii) terminate this Agreement by written notice to Seller delivered within five (5) days after (a) receipt of written notice from Seller that it is unable or unwilling to cure such Additional Title Exception or (b) the expiration of the Seller Update Response Period if Seller does not provide a response within such period, whereupon

District shall receive a refund of the Deposit and neither party hereto shall have any further obligations hereunder, except as expressly set forth herein to survive the termination of this Agreement. The scheduled Closing Date shall be extended, if and to the extent necessary, to allow the same periods of time for delivering and responding to any such further notice of Additional Title Objections pursuant to this <u>Section 6</u>.

6.3 From and after the Effective Date of this Agreement, Seller shall take no action which would impair or otherwise affect title to any portion of the Property, and shall record no documents in the Public Records which would affect title to the Real Property, without the prior written consent of the District, which may be withheld in its sole and absolute discretion.

7. MAINTENANCE AND COVENANTS.

(a) Between the Effective Date and Closing, Seller shall maintain and insure the Property in a condition substantially similar to the condition that existed as of the Effective Date; provided, however, that Seller shall be permitted to undertake any site work improvements or corrective actions required or authorized under the OSI Consent Order issued by SFWMD, including any work necessary to bring the Property into compliance with such order. Notwithstanding the foregoing, Seller shall deliver the Property at Closing free of any trash, refuse or other debris, and to Seller's knowledge in full compliance with all governmental regulations.

(b) Seller shall bear the risk of any loss, damage or casualty to the Property prior to Closing.

(c) District shall have access to the Property at any reasonable time prior to Closing to verify Seller's compliance herewith. Also, the District shall be allowed by Seller to access the Property and install electronic surveillance equipment that includes video surveillance of the Property at District's sole cost. Notwithstanding, until the Closing, the aforementioned does not relieve Seller from any of the risks and obligations referenced herein.

(d) In the event there are any changes prior to Closing to the names and addresses of the persons or entities having a 5% or greater beneficial interest in the ownership of the Property after the date of execution of the Disclosure, Seller shall immediately, and in every instance, provide written notification of such change to the District in the manner required by Section 14 of this Agreement.

8. <u>CONDITION PRECEDENT TO CLOSING.</u>

8.1 **District Conditions**. The following are conditions precedent to District's obligation to close upon its purchase of the Property:

(a) Seller shall have provided District with written evidence satisfactory to the District (i) that all requirements of South Florida Water Management District ("**SFWMD**") Consent Order No. 2021-038-CO-ERP and Enforcement Action 23427 (a.k.a. OSI Consent Order see Section 4.7.1) have been complied with which includes having to obtain written confirmation from SFWMD confirming the same by September 1, 2025; and (ii) successful completion to Inspection Period Two.

(b) Seller shall have performed all of the covenants and obligations under this Agreement that it is obligated to perform at or prior to Closing, on or prior to the dates such performance is required hereby;

The foregoing conditions precedent are for the exclusive benefit of District and may be unilaterally waived by the District. If any of the foregoing conditions are not satisfied before September 22, 2025, then the District shall have the right, in its sole discretion, to (a) terminate this Agreement by written notice to Seller and the Escrow Agent, in which event Escrow Agent shall immediately return the Deposit to District and, upon the receipt of such Deposit by District, the parties shall be relieved of all further obligations hereunder, except as expressly set forth herein to survive the termination of this Agreement or (b) waive such unsatisfied condition and proceed to closing of the transaction contemplated by this Agreement without any deduction of the Purchase Price.

8.2 <u>Seller Conditions</u>. The performance and observance, in all material respects, by District of all covenants and agreements of this Agreement to be performed or observed by District prior to or on the Closing Date under this Agreement shall be a condition precedent to Seller's obligation to sell the Property.

The foregoing shall be in addition to any Disclosure or notice of change thereto previously provided to District, and in the same form as previously provided to District. In the event Seller is an individual, Seller is exempt from this provision.

9.3.3 <u>Affidavit of Seller</u>. A Seller's Affidavit stating that the Property is free and clear of all encumbrances, mortgages, liens, leases, licenses, contracts or claim of rights in a form sufficient to permit the title insurer to delete the "Gap" and "Standard Exceptions" from the title insurance policy and insure District's title to the Property in accordance with Section 6 of this Agreement, subject only to the Permitted Exceptions.

9.3.4 <u>Non-Foreign Affidavit</u>. Seller represents and warrants to District that Seller is not a "foreign person" as defined by the Federal Foreign Investment in Real Property Tax Act (the "Act"). At Closing, the Seller shall execute and deliver to District a "Non-Foreign Affidavit", as required by the Act. 9.3.8 <u>Additional Documents</u>. Seller shall also deliver and/or execute such other instruments as are necessary or reasonably required to consummate the transactions herein contemplated including, without limitation, if applicable, such documents as District or the title company may require evidencing Seller's existence, good standing, power and authority to enter into and consummate the transaction herein contemplated, and a Receipt of Real Estate Brokerage Commission and Release ("Broker's Release") in the form attached hereto as Exhibit "E" and made a part hereof.

9.4 **Possession**. At Closing, Seller shall deliver full, complete, and exclusive possession of the Property to the District.

9.5 <u>District's Obligations</u>. At Closing, District shall deliver, or cause to be delivered, to Seller the following:

9.5.1 <u>**Cash due at Closing**</u>. The required payment due in immediately available funds via wire transfer, subject to adjustments, credits, prorations, and fees, all as provided elsewhere herein.

9.5.2 <u>Statement</u>. A Closing Statement prepared in accordance with the terms hereof.

10. EXPENSES.

10.1 District shall pay the following expenses at Closing.

10.1.1 The cost of recording the deed of conveyance.

10.1.2 Any endorsements to owner's title insurance commitment and

policy.

10.1.3 The cost of the Survey.

10.2 Seller shall pay the following expenses at Closing:

10.2.1 Documentary Stamps required to be affixed to the deed of conveyance.

10.2.2 All costs and premiums for the owner's title insurance commitment and policy, other than endorsements.

10.2.3 All costs necessary to cure title defect(s) or encumbrances, other than the Permitted Exceptions, and to satisfy or release of record all existing mortgages and liens upon the Property.

10.3 The Seller and District shall each pay their own attorney's fees and one-half (1/2) of the escrow fees charged by the Escrow Agent, if any.

11. **PRORATIONS.**

11.1 <u>**Taxes**</u>. On or before the Closing Date, Seller shall establish an escrow fund with the County Tax Collector pursuant to Florida Statutes Section 196.295, and shall pay into said escrow Seller's prorata portion of ad valorem and non-ad valorem real property taxes and assessments for the year of Closing and any prior years as determined by the Tax Collector. Seller's prorata share of all taxes and assessments shall include the day of Closing.

11.2 <u>Assessments</u>. If as of the Closing Date, assessments or charges have been imposed against the Property or any part thereof which are, or which may become payable in annual installments, the first installment of which is then a charge or lien, or has been paid, then for the purposes of this Agreement, all of the unpaid installments of any such assessments accrued through the Closing Date, shall be deemed to be due and payable and to be a lien upon the premises affected thereby, and shall be paid and discharged by the Seller on or before the Closing Date. Any other assessments not deemed to be due and payable as aforesaid which burden District owned property shall be deemed to be payable on a calendar year basis in arrears and prorated accordingly.

11.3 Should any proration not be based on the actual amount of the tax or assessments or expenses for the period in question and should such proration prove to be inaccurate upon receipt of the actual bills for the Property, then either Seller or District may demand, within six (6) months after Closing, a payment from the other party correcting such inaccurate apportionment. Upon such demand, the party owing an amount shall pay the other party the amount owed within ten (10) days of such demand.

12. <u>CONDEMNATION</u>. In the event that all or any part of the Property shall be acquired or condemned for any public or quasi-public use or purpose, or if any acquisition or condemnation proceedings shall be threatened or begun prior to the Closing of this transaction, District shall have the option (a) to either terminate this Agreement, whereupon, Escrow Agent shall immediately return the Deposit to the District and, upon receipt of the Deposit by the District, the obligations of all parties hereunder shall cease, or (b) to proceed, subject to all other terms, covenants, conditions, representations, and warranties of this Agreement, to Closing, whereupon Seller shall assign to the District any and all damages, awards, and other compensation arising from or attributable to such acquisition or condemnation proceedings. District shall have the right to participate in any such proceedings and to approve the settlement or other resolution of such proceedings.

13. **REAL ESTATE BROKER**. Seller represents and warrants to District that it has not dealt with any broker, salesman, agent, or finder in connection with this transaction other than Mr. Patrick McBride, ComReal ("**Broker**") and agrees to indemnify, defend, save, and hold District harmless from the claims and demands of any [other] real estate broker, salesman, agent or finder claiming to have dealt with Seller. Seller shall provide District with a completed Broker's Release, fully executed by Broker, Exhibit E, at Closing. All indemnities provided for in this Section shall include, without limitation, the payment of all costs, expenses and attorney fees incurred or expended in defense of such claims or demands. The terms of this Section shall survive the Closing or termination of this Agreement.

HEALTH CARE DISTRICT FINANCE AND AUDIT COMMITTEE

1. Description: Benoist Purchase and Sale Agreement

Purchase and Sale Agreement (PSA) for 9.67 acres of unimproved real property located at 100 N. Benoist Farms Rd ("Property") for the development of the Crisis Center for Mental Health and Substance Abuse.

2. Summary:

Board Policy LEG 1000, approved June 2024, states "The Finance Committee shall review all real estate transactions involving the purchase of real property, which involves one or more of the following: a) a purchase in which the purchase price of the real property is greater than one hundred ten percent (110%) of the fair market value as determined by the appraisal or the average of the appraisals, b) appraisal(s) with hypothetical conditions or extraordinary assumptions, or c) change of land use, a comprehensive plan amendment or concurrency from that which currently exists." There are no hypothetical conditions or extraordinary conditions, and the Property does not require a land use change for the District's use. The average fair market value price of the two appraisals performed on the Property came in at \$12,675,000 after factoring in the cost to build a bridge to access the Property (\$1.3M), and the negotiated purchase price is \$16,750,000 or 32% above appraised value.

It is Staff's opinion that the value of the Property to District warrants payment of the Property at the negotiated price and is in the District's best interest. In addition to this Property enabling the opening of the Crisis Center in the shortest time of any property evaluated, Staff believes the price is appropriate for the value to the District due to; 1) the decreasing availability of land sites that meet the size, locational and adjacent use criteria needed by the District, 2) increasing cost to develop (both design and construction), 3) time delay potentially jeopardizing County funding contribution, and 4) "value" to the District Relative to the Strategic Facility Plan.

3. Substantive Analysis:

Palm Beach County faces a mental health crisis with inconsistent services. The main providers are Emergency Departments and the jail. In 2022, over 27,000 patients sought mental health care through ER or hospitalization. There have been 7,000 Baker Acts issued, impacting 316 individuals repeatedly, affecting patients, families, and the community.

The current ad-hoc approach to behavioral health services in Palm Beach County does not provide effective or comprehensive crisis treatment or ongoing medical

HEALTH CARE DISTRICT FINANCE AND AUDIT COMMITTEE

services. It can overwhelm facilities and is financially inefficient. There is a need for a coordinated behavioral health care system in the county.

The District has initiated efforts to establish the necessary infrastructure to serve as the central access point for such a system. Communities across the nation that have adopted the Crisis Now model have realized a 35% cost savings.

The proposed location provides a central access point for crisis care. The crisis care model supports patients during crises, stabilizes and treats them appropriately, and provides a medical home for ongoing care. Continuous care enhances patient resilience by equipping them with tools to prevent relapse, crises, or worsening symptoms. The envisioned Crisis Center will operate 24/7 for both adult and pediatric patients, offering inpatient and outpatient services, including an on-site pharmacy and integrated primary care for overall wellness. This will alleviate the burden on existing partners while promoting sustainable wellness for individuals experiencing crisis. The model adheres to national best practice guidelines for crisis care systems established by the Substance Abuse and Mental Health Services Administration (SAMHSA).

The coordinated care system has garnered support from community partners, the public with existing needs for comprehensive behavioral health services, and the Board of County Commissioners, all emphasizing the urgent need to proceed with this initiative.

Timeliness in opening the facility to provide services has been crucial throughout the site evaluation and negotiation processes. With timing being one of the most critical components in Staff's analysis of the potential sites and the Benoist Farms Site in particular, the following set forth the reasoning behind this Site and the purchase price. See Exhibit 1, Section 4.3 for additional details about these topics.

- There is a decreasing availability of land sites that meet the size, locational and adjacent use criteria (no adjacent residential land uses) needed by the District.
- The increasing costs associated with the development (design and construction).
- The potential to jeopardize County funding contribution if secondary site search and/or extended development timeframes associated with a more complicated site.
- The "value" this site brings to the District relative to the Strategic Facility Plan.

1. Description: Contract for Program Management Services

2. Summary:

Pursuant to this contract, CES Consultants will provide program management services (a.k.a owner's representation services) for various District capital projects including but not limited to the Crisis Center for Mental Health and Substance Abuse. This is a term contract, and service authorizations (PMSA) will be issued on an as-needed basis up to the budgeted amount for each project. The contract has an overall duration of five (5) years.

3. Substantive Analysis:

In February 2025, the District issued RFP #2025PM01 seeking proposals for program management services for various District capital projects including, but not limited to the Crisis Center for Mental Health and Substance Abuse. Following the requirements of state statute that govern the selection of program managers and the District's Purchasing Policy, the District conducted a competitive qualification based selection. Six (6) firms submitted proposals but one was found to be non-responsive. The shortlist committee reduced the five (5) responsive proposers to three (3). CES Consultant, Inc. was ranked by the Final Selection Committee as the most qualified for this contract and has identified Jacobs Program Management Co. as a subconsultant. The evaluation criteria included; 1) qualifications and related program management experience of the firm (15 pts), 2) proposed project staff and functions (25 pts), 3) program management approach/comprehensive program management services (25 pts), 4) volume of previous work (5 pts), 5) location of the firm's offices (5 pts), and 6) pricing (25 pts).

CES proposal states that it "has successfully delivered program and project management services for major public infrastructure initiatives throughout South Florida. The CES Team's distinguished track record includes managing multi-phased capital improvement programs, ensuring quality, cost control, and schedule adherence. Notably, our key personnel played a pivotal role in the \$1.4 Billion Jackson Health System (JHS) Miracle Bond Building Program, one of the largest healthcare construction programs in the U.S. Our proposed Principal/Project Executive, Juan Alfonso, AIA, NCARB, RID, CCM, served as Program Executive, with our proposed Project Manager, Tom Koulouris, acting as Senior Program Manager Lead. Their leadership in managing complex healthcare infrastructure projects

demonstrates our ability to successfully oversee the development of the District's Behavioral Health Coordinated Care Center and other capital projects."

CES is a local firm with offices throughout Florida, New York, New Jersey and Washington D.C. CES has a local office in Palm Beach County although the assigned Project Manager may also work from the District's Home Office. CES disclosed no conflicts of interest.

CES may supply a Principal/Project Executive, Sr. Project Manager, Project Manager, Field Representative and/or Cost Estimator to assist the District, as specifically described in each PMSA. CES's personnel and/or subconsultants, will perform program management services which include; 1) planning and coordination, 2) design/document review, 3) construction phase coordination and review, 4) budget and schedule management, and 5) general project management.

The proposals submitted identified the maximum hourly rate that can be charged for each position. The labor rates of the CES and any subconsultant shall not exceed the actual hourly raw rates or the services rendered by personnel multiplied by an overhead and profit factor. The labor rates and overhead and profit factors are subject to audit, upon request. Actual hours will be billed. The hourly raw labor rates listed shall remain in effect for a period of two (2) years from the date of Contract execution. At the end of each one year period thereafter, if the cost of living index supports an increase, an increase of up to three percent (3%) may be allowed to the raw labor rates for each one year term the five-year term of the contract.

CES and its subsidiaries or affiliates will be precluded from responding to any future RFPs or bids for any District design and/or construction management projects. This restriction may or may not apply to CES's subconsultants, as determined in the sole and absolute discretion of the Board.

4. Fiscal Analysis & Economic Impact Statement:

	Current FY Amounts	Total Amounts (Current + Future)	Budget
Capital Requirements	\$4,000,000	\$4,000,000	Yes 🗌 No 🔀

*Non-budgeted expenditures in excess of \$250,000 require Finance and Audit Committee review and Board approval. Reviewed for financial accuracy and compliance with purchasing procedure:

The contract does not have a maximum amount, but instead is limited by the budget allocated for the projects. Each PMSA will identify the specific expenditure and will be reviewed and signed-off by the CFO for budget availability prior to review and execution by the CEO. The \$4,000,000 is the total estimated amount for this contract over the course of the Crisis Center project and does not represent actual expenditures in FY 2025 and is the subject of a budget amendment in FY 2025 on this same agenda.

Labor rates of PROGRAM MANAGER and any subconsultants shall not exceed the actual hourly raw labor rates for services rendered by PROGRAM MANAGER personnel, multiplied by an overall overhead and profit factor.

At the end of this initial two year period, the hourly raw labor rates may be re-negotiated if requested by the PROGRAM MANAGER; and, if the cost of living index supports an increase, an increase of up to three percent (3%) may be allowed for each one year period thereafter. Any such increase will be negotiated and supported by calculations using the Consumer Price Index – All Urban Consumers (CPI-U) Miami-Fort Lauderdale-West Palm Beach, FL.

The overhead and profit factor set forth in Exhibit B will remain in effect for the five year term of this Contract for the labor categories listed.

Salary costs for PROGRAM MANAGER as shown on **Exhibit B** and for any subconsultants are the maximum billing rates which are provisional, subject to audit of actual costs and if the audit discloses that the actual costs are less than the costs set forth in **Exhibit B** for the PROGRAM MANAGER or for any subconsultant, PROGRAM MANAGER shall reimburse the DISTRICT based upon the actual costs determined by the audit.

6.2 PMSAs FOR BASIC SERVICES.

Each PMSA issued under this Contract will include the positions authorized, the labor rates authorized in accordance with this Section 6 and Exhibit B, the estimated labor hours and the not to exceed amount for the PMSA. PROGRAM MANAGER shall only bill DISTRICT for actual labor hours. The DISTRICT shall not be obligated to reimburse the PROGRAM MANAGER for costs incurred in excess of the total not to exceed cost amount of each PMSA. The PROGRAM MANAGER shall notify the DISTRICT's Representative in writing when 70% of the not to exceed amount has been reached. Upon such notice, the DISTRICT shall promptly review the project status and determine whether additional funding will be required to complete the approved scope of work.

6.3 COMPENSATION FOR ADDITIONAL SERVICES

PROGRAM MANAGER will be compensated for Additional Services requested under this Contract on either: 1) a fixed price/lump sum basis, or 2) a time charge/not-to-exceed basis, as identified on any applicable PMSA.

6.3.1 When Additional Services are to be compensated on a fixed price/lump sum method of compensation, as identified on a PMSA, then the DISTRICT and PROGRAM MANAGER shall mutually agree to a fixed price/lump sum fee for the Additional Services along with a detailed Scope of Work. Prior to execution of the fixed price/lump sum PMSA, the PROGRAM MANAGER shall have submitted to the DISTRICT's Representative a detailed cost proposal including the estimated labor hours, raw labor rates, overhead/fringe factor and profit factor, subcontractual services, and other related costs supporting the proposed Scope of Work. Labor Rates are subject to the requirements of Section 6.1 above. The fixed price/lump sum fee shall include all services required to complete the Scope of Work including labor, overhead/fringe and profit, and costs as part of the fixed price/lump sum.

6.3.2 When Additional Services are to be compensated on a time charge/not to exceed method of compensation in a PMSA, then the PROGRAM MANAGER will submit a not to exceed budget to the DISTRICT's Representative for prior approval based on estimated labor hours, raw labor rates overhead/fringe factor and profit factor, subcontractual services, and other related costs supporting the proposed Scope of Work. Labor Rates are subject to the requirements of Section 6.1 above. The DISTRICT shall not be obligated to reimburse the PROGRAM MANAGER for costs incurred in excess of the total not to exceed amount. The PROGRAM MANAGER shall notify the DISTRICT's Representative in writing when 90% of the not to exceed amount has been reached.

6.4 PROGRESS PAYMENTS.

For PMSAs with fixed price/lump sum fee services, monthly progress payments will be made based upon the percentage of Work completed to date ("Percent Complete"), as calculated by the PROGRAM MANAGER's invoice and accepted by the DISTRICT's Representative. The Percent Complete shall be determined by reference to the Schedule of Values of the PMSA, which allocates the total contract price among the various elements of the Work.

For PMSA services to be compensated on a time charge/not to exceed method of compensation, the PROGRAM MANAGER shall maintain accurate and contemporaneous records of all labor hours and subconsultant fees incurred in the performance of the PMSA. Pay applications submitted by the PROGRAM MANAGER will itemized by demonstrating labor hours incurred by each of the subconsultant's employees in the performance of the PMSA multiplied by the applicable hourly labor rate.

6.5 APPROVAL PROCESS.

Pay applications received from the PROGRAM MANAGER pursuant to this Contract will be reviewed and approved by the DISTRICT's Representative or his/her designee, indicating that services have been received, and then will be sent to the Finance Department for payment. Pay applications must reference the Contract and project number and applicable Program Manager Service Authorization. DISTRICT shall provide PROGRAM MANAGER with a written notice of disputed pay application/invoice within 10 days after receipt of such invoice which clearly states any and all deficiencies in PROGRAM MANAGER's invoice that will prevent prompt processing and issuance of payment. To the extent there is an undisputed portion of the pay application that can be paid, the DISTRICT shall proceed with prompt payment of that portion of the pay application. Pay applications will be paid in accordance with the Local Government Prompt Payment Act.

6.6 FINAL PAYMENT.

In order for both parties to close their books and records, the PROGRAM MANAGER will clearly state <u>Final</u> on the PROGRAM MANAGER's final/last billing to the DISTRICT for each PMSA. This shall constitute PROGRAM MANAGER's certification that all services have been properly performed and all charges and costs have been invoiced to DISTRICT for each PMSA. Since the account for such PMSA will thereupon be closed, any and other further charges to that PMSA, if not properly included on this final invoice for that PMSA, are waived by the PROGRAM MANAGER.

6.7 RIGHT OF OFFSET.

Except for issues arising from contract indemnification provisions, the DISTRICT will have the right to retain out of any payment due the PROGRAM MANAGER under this Contract an amount sufficient to satisfy any undisputed amount due and owing to the DISTRICT by the PROGRAM MANAGER under this Contract. The DISTRICT may withhold payment on any invoice in the event that the PROGRAM MANAGER is in default under any provision of this Contract as of the time of processing the invoice or as of the time payment is made available on the invoice. This right to withhold will continue until such time as the default has been cured, and, upon cure, the DISTRICT will have the right to retain an amount equal to the damages suffered as a result of the default.

1. Description: Fiscal Year 2025 Budget Amendment

2. Summary:

This agenda item provides the Finance and Audit Committee and Board with a Fiscal Year 2025 budget amendment.

3. Substantive Analysis:

A budget amendment is necessary to increase a fund's budget, whose expenditures exceeded the adopted budget, or to add funds for new programs or services. Per Florida Statute 189.016, budget amendments must be adopted by Board resolution, and the budget can be amended within 60 days following the end of the fiscal year.

Expenditures are expected to exceed the adopted budget for the Capital Replacement Fund. On April 3, 2025 the Health Care District Board earmarked \$15 million towards the future purchase of Atlantis Community Health Center building and an additional \$15 million to acquire and transition the Health Care District's Electronic Health Record system.

Additionally, on May 21, 2025 the Health Care District Finance and Audit Committee recommended to the Board a purchase and sale agreement in order to acquire the land located at 100 N. Benoist Farms, Rd., West Palm Beach, FL for future development of the Crisis Center for Mental Health and Substance Abuse.

This budget amendment will increase the Health Care District's adopted FY25 budget by \$53,950,000 using funds from unassigned reserves.

ATTEST:

Tammy Jackson-Moore Secretary

1. Description: Tentative Millage Rate

2. Summary:

Staff recommends the Board set a proposed tentative millage rate of 0.6561.

3. Substantive Analysis:

The proposed tentative millage rate represents the tax rate the Board cannot exceed when the rate is finalized at the September TRIM hearings. Effectively, the proposed tentative millage rate is the maximum rate that the District could assess for fiscal year 2026.

Staff does not believe it will be necessary to raise the millage rate for 2026. Therefore, staff recommends the fiscal year 2026 proposed tentative millage rate be set at 0.6561, which is 6% over the rolled-back rate of 0.6210 and remains flat to 2025 tax rate. The rolled-back rate is the tax rate which generates the same amount of tax revenue as the previous year, excluding new construction.

The 2025 estimate of taxable values from the County showed an increase of 6% over 2024. The increase in taxable values in conjunction with keeping the millage rate flat results in an increase in ad valorem taxes of approximately \$11.4 million relative to 2025.
