Mobile Health Clinics
The Health Care District of Palm Beach County’s custom-designed Mobile Health Clinic fleet is the newest edition to the C. L. Brumback Primary Care Clinics. Our two 38-foot buses, Warrior and Hero, as well as our third, smaller mobile unit, Scout, are hitting the road to deliver medical and behavioral health services to the chronically homeless and other underserved adult patients across the county.

Our Mobile Health Clinics provide medical and behavioral health services including general medicine, psychosocial assessments and therapy by a Licensed Clinical Social Worker (LCSW), telepsychiatry and pharmacy services. By offering a “one-stop-shop” model of comprehensive medical care at sites throughout the county, our clinics on wheels are expanding much-needed access to health care for the homeless by meeting them where they are. The Mobile Health Clinics partner with community agencies that traditionally provide other social services at these locations, such as food, showers, housing, case management, etc. The ultimate goal is to establish the C. L. Brumback Primary Care Clinics’ brick-and-mortar locations as the medical home for these patients on their road to recovery and a sustained healthy lifestyle.

In addition, our fleet have been invaluable in our effort to provide testing and vaccinations to the community during the COVID-19 pandemic.

Features and Services

- Primary care services (physical exams, chronic disease management (diabetes, hypertension, etc.), preventative care (colorectal and cervical cancer screenings, mammogram referrals, etc.), behavioral health services (screenings, psychiatric services, addiction treatment, etc.)
