Physicians From Whom You May Receive a Separate Bill

Some doctors at Lakeside Medical Center do not work for the hospital. These doctors are in “Private Practice.” They will bill you directly. Private services are in addition to the hospital bill. Private services may be other doctors like the one who took your x-rays, the ER doctor, or the doctor who tested your kidneys, etc. The private bills must be paid to the doctor.

Different doctors have different contracts with insurance companies. Please check to make sure your private practice doctors are covered by your insurance company. Below are some of the private practice doctors who may contact you regarding your treatment at Lakeside Medical Center:
