Sponsored Programs

Sponsored Programs for Calendar Year 2022

**Sponsored Programs** are non-profit community agencies that have a funding agreement with the Health Care District of Palm Beach County to provide health or health-related services to the uninsured, underinsured or indigent county residents. These services help fulfill our mission to be the health care safety net for Palm Beach County. This annual grant process to agencies with compatible missions is one of the many ways we work to provide health services to keep our community healthy.
211 answers calls to the National Suicide Prevention Lifeline and provides support to the caller.

Health Equity Program provides navigation, education, resources and health access to individuals with intellectual and developmental disabilities. The services include health care navigation, Telehealth support, health and wellness training, nutrition training and food preparation (Cooking class), physical /outdoor activity and transportation to doctors, dentists etc.
Cancer support services provides services to cancer patients to lessen hospitalization, expediting access to medical care, testing and appointments, transportation, supplemental nutrition (food), cancer specific health & wellness items.

Specialty health care services and Social Determinants of Health (SDOH): Speciality health care services (breast surgeon, cardiology, dermatology, endocrinology, ENT, gastrointestinal, nephrology, neurology, hematology, ophthalmology, podiatry, pulmonology, urology, gynecology, orthopedics), advanced diagnostic test, medications, and access/refer to services related to Social Determinants of Health.
Care Coordination and Health Care Navigation services provide integration into pediatric primary care, warm handoff of referrals to health, housing, food and other services to promote recovery, well-being and healthy lifestyles. CFCC Institute for Clinical Training provides education and workshops focusing on community education to promote early identification of mental and behavioral health needs for children. The Trainings are for parents, caregivers, professional and the community to effectively buffer the effects of toxic stress in children related to ACEs.

Psychoeducational Group services to clients that may be on a waitlist for Mental Health counseling.
Uninsured Access Program identifies mental and behavioral health conditions and provides individual mental health psychoeducational services. Also providing educational trainings to the community to increase awareness and identify mental and behavioral conditions.
