District Cares Specialty Benefits

The Health Care District of Palm Beach County administers the District Cares specialty benefits for eligible patients of the C. L. Brumback Primary Care and Dental Clinics. The specialty benefits are available to uninsured residents of Palm Beach County who do not

qualify for any other public assistance health coverage program and who meet income and residency requirements.

All specialty care visits must be ordered by a C.L. Brumback Primary Care Provider. Specialty care must be provided by a participating physician.

District Cares services include:

- **Inpatient – Acute Care**
- **Inpatient – Rehabilitation**
- **Outpatient – Cardiac Rehabilitation**
- **Emergency Room Services**
- **Outpatient – Diagnostics**
- **Outpatient – Surgery**
- **Outpatient – Therapy**
- **Durable Medical Equipment / Supplies**
- **Home Care / Home Infusion**
- **Orthotics**
- **Prosthetics**
- **Laboratory Services**
- **Specialty Provider Services** (i.e. Cardiology, dermatology, hematology, oncology, endocrinology, pulmonology, perinatology, gastroenterology, rheumatology, nephrology, infectious disease, ophthalmology, otolaryngology, podiatry, gynecology, orthopedics, otolaryngology/ENT, and urology)

How to Receive District Cares Benefits

A patient should first call to schedule an appointment to see a primary care provider. During the call to schedule an appointment, the Clinic registration team will begin the District Cares specialty benefit qualification process. The patient will be provided with a list of items to bring to their first visit so they can complete their registration process. Some of the information patients will be asked to provide include proof of Palm Beach County residency, personal identification, and information income.

To make an appointment at the Primary Care Clinic, the patient should call **561-642-1000**.

Once a patient schedules an appointment with the C.L. Brumback Primary Care Clinic they will establish their medical home. Their primary care physician will coordinate comprehensive patient treatment with a team of care providers based on a patient's individual medical needs. Care will move seamlessly as needed between primary care physicians, medical specialists, hospitals and other services.
