Billing Disclosures - Your Rights and Protections Against Surprise Medical Bills

Effective January 1, 2022, the No Surprises Act, which Congress passed as part of the Consolidated Appropriations Act of 2021, is designed to protect patients from surprise bills for emergency services at out-of-network facilities and for out-of-network providers at in-network facilities, holding them liable only for in-network cost-sharing amounts. The No Surprises Act also enables uninsured patients to receive a good faith estimate of the cost of care.
